The Austrian Case

VIG capitalises on catch-up potential in life insurance

Situation in Austria

- § Austria is a largely mature market
- § Still strong growth potential in life: Austria lags behind EU-15 in premium per capita
- § Life insurance business in Austria is expected to deliver sustainable growth going forward
- § Ongoing reforms of social security system to generate strong demand for life savings and pension products
- § VIG has been growing faster than the market

High Growth Potential

Management Approach

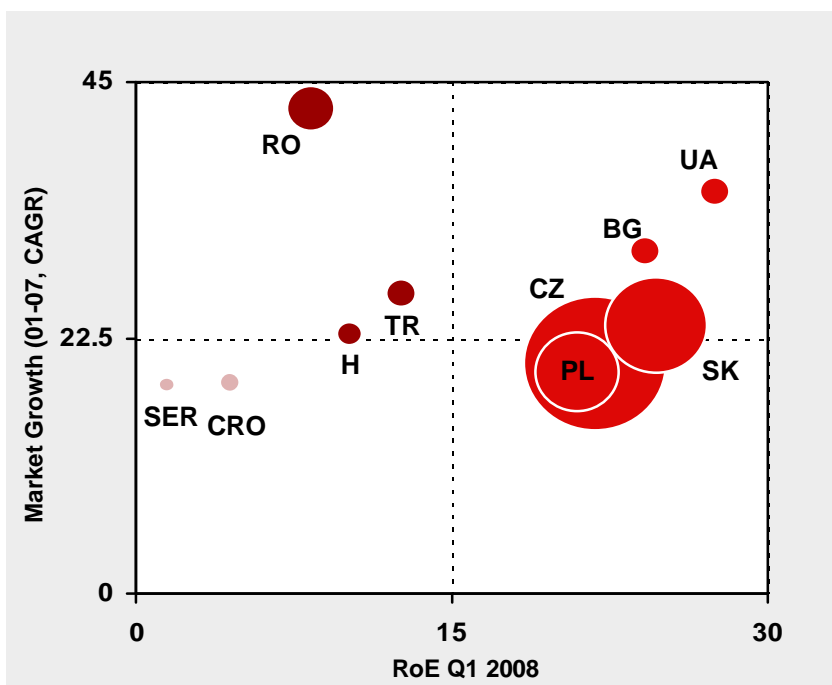

Excellent track record in integrating CEE subsidiaries into VIG

Management Approach

- § Each board member of VIG parent has direct responsibility for CEE countries
- § VIG board members closely involved in management of subsidiaries to build know-how and for quick decisions
- § Local incumbent management is responsible for sales and profitability - usually one board member delegated from Austria
- § Capital
 - available capital concentrated at parent level
 - allocation to Group companies according to their needs to fund organic growth

Track Record

- § CEE already contributes 43 percent of premium income and more than 30 percent of Group profits
