Our goal is to make the Annual Report as easy and clear to read as possible. For this reason, words like him/her, etc. have been avoided. It should be understood that the text always refers to women and men equally without discrimination.

GROUP MANAGEMENT REPORT

Group management report 2018

Business development and economic position

ECONOMIC ENVIRONMENT

Ten years after the outbreak of the 2008 financial crisis in the US and the far-reaching consequences for the global economy that led to many regulatory changes and, on occasion, unique fiscal measures aimed at containing the negative effects, the International Monetary Fund (IMF) is expecting robust global economic growth of 3.7% in both 2018 and 2019, thereby continuing at the same level as in 2017. Increasing uncertainty in connection with the much-discussed Brexit, the trade conflict between the US and China and the issue of immigration and increasing protectionism in local economies nevertheless also entail risks for future economic growth.

In 2018 economic growth has already slowed in the Eurozone, which recorded real GDP growth of 2.0%, after 2.4% in 2017. The Austrian Institute of Economic Research (WIFO) is expecting faster growth of 2.7% for Austria in 2018. In spite of the adjustment made to the previous forecast of 3%, this represents a high, made possible mainly due to industrial production and other expanding economic areas. This growth is also being supported by increasing private household expenditures on consumption. The inflation rate was 2.1% in 2018, which was only slightly above the ECB target for the Eurozone as a whole.

Economic growth in Eastern Europe slowed somewhat in 2018 compared to the previous year. Nevertheless, based on calculations by the Vienna Institute for International Economic Studies (WIIW), real GDP growth averaged 4.2% (after 4.9% in 2017) in the Central and Eastern European countries of the EU, which includes VIG's markets in the Czech Republic, Slovakia, Poland, Romania, Hungary, Bulgaria and the Baltic states. This is significantly higher than the growth recorded in Austria and the global economy. The strong growth rates of 4.1% and 4.8% recorded in Hungary and Poland in 2017 increased even further to 4.3% and 5.0%, respectively, in 2018. This, together with falling unemployment and low debt ratios, indicates the CEE region is still on a path of convergence with Western Europe.

LEGAL ENVIRONMENT

DIRECTIVE ON INSURANCE DISTRIBUTION

Directive (EU) 2016/97 on insurance distribution (Insurance Distribution Directive - IDD) was to be applied in the European Union by 1 October 2018 at the latest. The IDD affects all aspects of the insurance business, from recruiting insurance distributors including training and advanced training, to product development, the advisory process including wide-ranging duties to provide information and the distribution of standardised information sheets, all the way to handling conflicts of interest and remuneration. All of the distribution channels used by Vienna Insurance Group and its Group companies, such as salaried field employees, cooperation with insurance intermediaries (brokers and agents) and intermediaries performing distribution as a secondary activity, such as car dealers, are affected. Vienna Insurance Group conducted a Group-wide workshop in 2017 to assist Group companies in the EU that are affected. Due to high demand, another workshop was held in 2018. Furthermore, in addition to regular updates for the available legal bases, Group companies were also provided information and explanatory materials prepared for specific topics in order to create a shared understanding of the interpretation of European legal requirements, which is frequently kept to a very general level. Many questions from individual Group companies concerning local distribution solutions were also answered. As a result synergies were achieved, while simultaneously respecting local, independent implementation by the Group companies.

GENERAL DATA PROTECTION REGULATION

Regulation (EU) 2016/679 on the protection of natural persons with regard to the processing of personal data (General Data Protection Regulation – GDPR) entered into force on 25 May 2018 and repeals Directive 95/46/EC. VIG has implemented all of the measures needed to comply with the new requirements.

GROUP BUSINESS DEVELOPMENT AND FINANCIAL PERFORMANCE INDICATORS

GENERAL INFORMATION

The around 50 insurance companies belonging to VIG operate in the following reporting segments: Austria (incl. the Wiener Städtische branches in Slovenia and Italy and the Donau Versicherung branch in Italy), Czech Republic, Slovakia, Poland, Romania, Baltic states, Hungary, Bulgaria, Turkey/Georgia, Remaining CEE, Other Markets and Central Functions. These twelve segments are explained in the segment reporting section.

The Remaining CEE segment includes the countries of Albania incl. Kosovo (a branch of an Albanian company is located in Kosovo), Bosnia-Herzegovina, Croatia, North Macedonia, Moldova, Serbia and Ukraine.

The Montenegro and Belarus markets were not included in the Vienna Insurance Group consolidated financial statements in 2018 due to immateriality. More information on the scope of consolidation and consolidation methods is provided on page 69 of the notes to the consolidated financial statements. The notes to the consolidated financial statements provide detailed information on changes in the scope of consolidation starting on page 70.

VIG operates with more than one company and brand in most of its markets. The market presence of each company in a country is also aimed at different target groups. Their product portfolios differ accordingly. Use of this multi-brand strategy does not mean, however, that potential synergies are not exploited. Structural efficiency and the cost-effective use of resources are examined regularly. Back offices that perform administrative tasks for more than one company are already being used successfully in many countries. Specific country responsibilities also exist at Managing Board level to ensure uniform management of each country. Mergers of Group companies are considered if the additional synergies that can be achieved outweigh the benefits of multiple market presences.

To improve readability, company names have been shortened throughout the entire report. A list of full company names is provided on page 231 et seq. In order to avoid duplicate information, reference will be made below to appropriate information in the notes. Changes in significant balance sheet and income statement items are presented in both the segment report and the notes to the financial statements. Additional disclosures in the management report below are intended to explain these data in more detail.

FINANCIAL PERFORMANCE INDICATORS

The key financial performance indicators that form the basis for assessing Vienna Insurance Group's business development are presented below.

KEY FIGURES FROM THE CONSOLIDATED INCOME STATEMENT

| | 2018 | 2017 | Δ in % | Δ absolute |
|---|----------|----------|---------------|-------------------|
| in EUR millions | | | | |
| Premiums written – gross | 9,657.3 | 9,386.0 | 2.9% | 271.3 |
| Net earned premiums – retention | 8,729.4 | 8,509.6 | 2.6% | 219.8 |
| Expenses for claims and insurance benefits – retention | -6,947.0 | -6,872.6 | 1.1% | -74.4 |
| Acquisition and administrative expenses | -2,140.7 | -2,040.3 | 4.9% | -100.4 |
| Financial result excl. result from at equity consolidated companies | 1,003.0 | 881.5 | 13.8% | 121.5 |
| Result from shares in at equity consolidated companies | 34.5 | 42.8 | -19.4% | -8.3 |
| Other income and expenses | -193.7 | -78.4 | 147.0% | -115.3 |
| Result before taxes | 485.4 | 442.5 | 9.7% | 42.9 |

Premium volume

A detailed disclosure of premium development is included in Note 15 Premiums written of the notes to the consolidated financial statements.

Vienna Insurance Group wrote EUR 9,657.3 million in Group premiums in 2018, an increase of 2.9% compared to the same period in the previous year. Excluding the single premium life insurance business, the Group recorded an even larger increase in premiums of 5.2%. VIG retained EUR 8,811.1 million of the gross premiums written (2017: EUR 8,585.3 million). EUR 846.2 million was ceded to reinsurance companies (2017: EUR 800.8 million). Premiums written grew particularly strongly in the Baltic states (+14.7%), Bulgaria (+14.1%) and Czech Republic (+5.0%) segments. In the Remaining CEE segment, Croatia (+15.1%) and Ukraine (+16.2%) recorded major premium increases. Overall, the Group generated 59.3% of its premiums outside Austria in 2018.

Net earned premiums rose 2.6%, from EUR 8,509.6 million in 2017 to EUR 8,729.4 million in 2018. Net reinsurance cessions were EUR 823.0 million (2017: EUR 793.5 million).

Expenses for claims and insurance benefits

A detailed disclosure of expenses for claims and insurance benefits is included in Note 19 Expenses for claims and insurance benefits of the notes to the consolidated financial statements.

Group expenses for claims and insurance benefits less reinsurers' share were EUR 6,947.0 million in 2018, representing a year-on-year increase of 1.1% (2017: EUR 6,872.6 million).

Acquisition and administrative expenses

A detailed disclosure of acquisition and administrative expenses is included in Note 20 Acquisition and administrative expenses of the notes to the consolidated financial statements.

Acquisition and administrative expenses for all VIG consolidated companies increased 4.9% year-on-year to EUR 2,140.7 million in 2018 (2017: EUR 2,040.3 million). This was primarily due to the increase in commissions and generally corresponded to the increase in premiums, not including single premium products.

Financial result

A detailed disclosure of the financial result (excluding at equity consolidated companies) is included in Note 16 Financial result excl. at equity consolidated companies in the notes to the consolidated financial statements.

VIG generated a financial result (incl. the result from at equity consolidated companies) of EUR 1,037.5 million in 2018. This year-on-year increase of 12.2% was primarily due to income from real estate, including non-profit societies.

Result before taxes

The Group result before taxes rose to EUR 485.4 million in 2018 (2017: EUR 442.5 million). The increase in profits of 9.7% was primarily due to an improved combined ratio and good growth in the financial result.

Investments

A brief presentation of the investments is included on page 83 of the notes to the consolidated financial statements.

BREAKDOWN OF INVESTMENTS 2018

2017 values in parentheses

Vienna Insurance Group's total investments (including cash and cash equivalents) were EUR 37,635.6 million as of 31 December 2018, which was just slightly higher than the previous year level of EUR 37,430.6 million as of 31 December 2017.

The investments include all Vienna Insurance Group land and buildings, all shares in at equity consolidated companies and all financial instruments, using the look-through approach for consolidated institutional funds, as well as other fund investments allocated to the asset classes. Investments for unit-linked and index-linked life insurance are not included. These decreased by 11.2% from EUR 9,061.1 million in 2017 to EUR 8,048.6 million in 2018, mainly due to negative performance by the underlying unit-linked and index-linked securities and outflows of funds from these securities.

Shareholders' equity

VIG's capital base decreased by 3.4% to EUR 5,835.7 million in 2018 (2017: EUR 6,043.9 million). This change was primarily due to repayment of the hybrid capital bond.

Underwriting provisions

A detailed disclosure of underwriting provisions is included in Note 10 Underwriting provisions – gross of the notes to the consolidated financial statements.

Underwriting provisions (excluding underwriting provisions for unit-linked and index-linked life insurance) were EUR 30,505.9 million as of 31 December 2018, representing an increase of 1.1% over the previous year (2017: EUR 30,168.2 million).

Cash flow

The cash flow from operating activities decreased from EUR 1,269.9 million in 2017 to EUR 967.8 million in 2018 due to the reduction in single premium life insurance and an increase in claim payments. The cash flow from investing activities changed from EUR -1,328.9 million in 2017 to EUR -850.5 million in 2018. This was primarily caused by a decrease in investments due to the reduced cash flow from operating activities and an outflow of funds from financing activities. VIG financing activities produced a cash flow of EUR -264.3 million in 2018 (2017: EUR -37.9 million). The year-on-year decrease was mainly due to the repayment of hybrid capital in September 2018 and the issuing of subordinated liabilities in the previous year. The Group had cash and cash equivalents of EUR 1,347.3 million at the end of 2018 (2017: EUR 1,497.7 million). Vienna Insurance Group received a total of EUR 874.4 million in interest and dividends in 2018 (2017: EUR 897.2 million).

Earnings per share

Earnings per share is a key figure equal to the result for the period (less non-controlling interests and interest on hybrid capital) divided by the average number of shares outstanding. The number of shares remained unchanged compared to the previous year.

Earnings per share were EUR 2.04 in 2018 (2017: EUR 2.23).

Return on equity (RoE)

Return on equity (RoE) measures the profitability of the Group by expressing the result before taxes as a ratio of the capital employed. This ratio is calculated by dividing the result before taxes by the average shareholders' equity. VIG uses shareholders' equity after adjusting for a provision for unrealised gains and losses for this purpose.

| 31.12.2018 | 31.12.2017 | 31.12.2016 |
|------------|---|---|
| | | |
| 5,835.7 | 6,043.9 | 5,711.3 |
| -370.1 | -550.9 | -532.0 |
| 5,465.6 | 5,493.1 | 5,179.3 |
| 5,479.4 | 5,336.2 | |
| 485.4 | 442.5 | |
| 8.9 | 8.3 | |
| | 5,835.7 -370.1 5,465.6 5,479.4 485.4 | 5,835.7 6,043.9 -370.1 -550.9 5,465.6 5,493.1 5,479.4 5,336.2 485.4 442.5 |

The Group earned a return on equity before taxes of 8.9% in 2018 (2017: 8.3%).

Combined ratio significantly below 100%

The combined ratio is calculated as the sum of all underwriting expenses and income, and net payments for claims and insurance benefits, including the net change in underwriting provisions, divided by net earned premiums in the property and casualty line of business.

| Combined ratio | 2018 | 2017 |
|--|------------------------------|----------|
| in EUR millions | | |
| Net earned premiums - retention | 4,735.4 | 4,435.2 |
| Expenses for claims and insurance benefits – retention | -3,065.0 | -2,939.0 |
| Acquisition and administrative expenses, including other underwriting income and | 1 401 2 | -1.348.8 |
| expenses Total expenses | -1,481.3 - 4.546.3 | -1,340.0 |
| • | , | 1 |
| Combined ratio in % | 96.0 | 96.7 |

The Group combined ratio (after reinsurers' share, not including investment income) improved to 96.0% in 2018, mainly due to improvements in the Austria, Czech Republic and Poland segments (2017: 96.7%). As a result, VIG's combined ratio continued to improve in 2018.

BRANCH OFFICES

VIG and its Group companies have branch offices in Germany, France, Italy, Kosovo, Slovenia and the Baltic states of Estonia, Latvia and Lithuania. Information on existing branch offices and any significant changes compared to the previous year are discussed in more detail for the applicable regional segments in the section below. A list of the addresses of Group companies and branch offices is also provided on page 222 of the Group Annual Report.

BUSINESS DEVELOPMENT AND FINANCIAL PERFORMANCE INDICATORS BY SEGMENT

Developments in the segments Austria, Czech Republic, Slovakia, Poland, Romania, Baltic states, Hungary, Bulgaria, Turkey/Georgia, Remaining CEE, Other Markets and Central Functions are explained below. The discussion focuses on presenting business developments in these segments and outlines areas of change in the various insurance markets.

RESULT BEFORE TAXES BY SEGMENT

AUSTRIA

AUSTRIAN INSURANCE MARKET

The five largest insurance groups generated around 72% of the premium volume in the country in the first three quarters of 2018. The two largest insurance groups generated around 44%.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2018 COMPARED TO THE PREVIOUS YEAR

life insurance – the largest life insurance line of business, generating around a third of the premiums – remained unchanged at the level of the previous year.

According to Axco Global Statistics, Austrians spent an average of EUR 1,949 per capita for insurance in 2017, which is the same as the year before. Of this, EUR 1,285 was spent in the non-life insurance area and EUR 664 in the life insurance area.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Source: Austrian Insurance Association

Source: Austrian Insurance Association; as of 9M 2018

Premium volume from the Austrian insurance companies rose 1.6% in the 1st to 3rd quarters of 2018. Property and casualty insurance grew 3.4% and health insurance grew 4.2%. Life insurance recorded its third year of losses with a decrease of 2.6%.

The increase in property and casualty premiums was mainly driven by growth in motor own damage insurance (+6.3%) and third party liability insurance (+4.5%). The increase in motor own damage insurance was due to an increase in the number of policies. The average policy premium only rose 1%.

In life insurance, the regular premium business decreased 1.5% while the single premium business declined 9.2%. While the low interest rate environment continues to negatively affect interest in endowment insurance and annuity insurance, double-digit premium increases were recorded for occupational disability insurance (+12.8%) and term life insurance incl. residual debt insurance (+24.0%). Unit-linked

VIG COMPANIES IN AUSTRIA

As planned, Vienna Insurance Group merged s Versicherung, which specialises in bank distribution, with Wiener Städtische in 2018. At the end of the year, the Group was now represented by two insurance companies in Austria, Wiener Städtische and Donau Versicherung. s Versicherung is being retained as a brand for bancassurance customers. Wiener Städtische also operates branches in Italy and Slovenia. Donau Versicherung is also represented by a branch in Italy. VIG Holding operates out of Austria as a reinsurer of the Group and as an insurer in the cross-border corporate business. It is assigned to the Central Functions segment.

VIG has a market share of 23.0% in Austria, making it the largest insurance group in the country. It holds first place in the property and casualty and life insurance markets, and second place in health insurance.

FINANCIAL PERFORMANCE INDICATORS IN THE AUSTRIA SEGMENT

Premium development

The Vienna Insurance Group companies in Austria wrote EUR 3,839.9 million in gross premiums in 2018 (2017: EUR 3,848.5 million). This corresponds to a slight year-onyear decrease of 0.2% due to the reduction in single premium life business. When adjusted to this, the Austrian Group companies recorded an increase of 1.6%. Net earned premiums were EUR 3,158.3 million in 2018 (2017: EUR 3,165.1 million).

PREMIUMS BY LINE OF BUSINESS

Values for 2017 in parentheses

Expenses for claims and insurance benefits

The Austrian Group companies had expenses for claims and insurance benefits (less reinsurance) of EUR 3,083.5 million in 2018, or EUR 38.1 million more than in 2017. This corresponds to an increase of 1.3%.

Acquisition and administrative expenses

Acquisition and administrative expenses decreased to EUR 639.0 million in 2018. The year-on-year decrease of 1.3% resulted from an increase in reinsurance commissions and profit commissions from reinsurance due to a decrease in claims under fire and natural hazards insurance.

Result before taxes

The result before taxes in the Austria segment decreased 2.8% to EUR 170.4 million in 2018 (2017: EUR 175.3 million).

Combined Ratio

Due to better loss experience for fire and natural hazards insurance and motor own damage insurance, the combined ratio (after reinsurance, not including investment income) improved again in 2018 to 94.2% (2017: 95.5%).

CZECH REPUBLIC

9M 2018 figures

CZECH INSURANCE MARKET

The Czech insurance market is highly concentrated. The top 5 insurance groups generated around 84% of the market premiums in the 1^{st} to 3^{rd} quarters of 2018.

MARKET GROWTH IN THE $1^{\mbox{st}}$ to $3^{\mbox{rd}}$ quarters of 2018 compared to the previous year

cline (-11.7%) in the first three quarters of 2018, while the significantly larger regular premium business achieved an increase of 1.4%.

According to Axco Global Statistics, a per capita average of EUR 524 was spent on insurance premiums in the Czech Republic in 2017. EUR 319 of this amount was for non-life insurance and EUR 205 for life insurance.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Per cent of total premium volume

Source: Czech Insurance Association

Premium volume in the Czech Republic was CZK 97.4 billion in the first three quarters of 2018, representing a yearon-year increase of 4.5%. This is one of the fastest growth rates recorded in recent years.

The increase was driven by a large increase of 6.3% in the non-life sector, particularly due to growth in the motor lines of business. Growth in the number of insured vehicles led to a 6.6% increase in premiums for motor third party liability insurance and an even larger increase of 10.0% for motor own damage insurance. The non-motor lines of business rose by 4.5%.

The trend reversal for life insurance is particularly noteworthy. Life insurance recorded an overall increase of 1.1% in the Czech market, based on the local currency (using the calculation method of the Czech Insurance Association). Premiums in the single premium business continued to de-

Source: Czech Insurance Association; as of 9M 2018

VIG COMPANIES IN THE CZECH REPUBLIC

Vienna Insurance Group operated three insurance companies in the Czech Republic in 2018: Kooperativa, ČPP and PČS. The planned merger of PČS and Kooperativa was officially concluded at the beginning of January 2019. The aim is to strengthen the bancassurance business by combining the expertise of the two companies.

VIG had a market share of 31.6% in the Czech Republic in the 1st to 3rd quarters of 2018. Vienna Insurance Group holds first place both in terms of total premiums and in the life insurance business. The Group is in second place in the non-life business.

The Group reinsurance company VIG Re, which has its headquarters in Prague, is assigned to the Central Functions segment.

FINANCIAL PERFORMANCE INDICATORS IN THE CZECH REPUBLIC SEGMENT

Premium development

The Czech Group companies wrote EUR 1,684.2 million in premiums in 2018 (2017: EUR 1,603.2 million), representing an increase of 5.0% compared to the previous year. This major increase was mainly due to good performance in other property and casualty insurance and regular premium life insurance. Net earned premiums were EUR 1,265.7 million in 2018, representing an increase of 4.9% compared to the previous year.

Result before taxes

The result before taxes generated by the Czech Group companies rose to EUR 166.7 million in 2018, primarily due to an improvement of 11.6% in the combined ratio compared to the previous year (2017: EUR 149.3 million).

Combined Ratio

The combined ratio decreased compared to the same period in the previous year to 92.7% in 2018 (2017: 97.5%). It must be noted that the combined ratio was negatively affected by large losses in the previous year.

Values for 2017 in parentheses

Expenses for claims and insurance benefits

Expenses for claims and insurance benefits less reinsurance were EUR 804.8 million in 2018, representing an increase of 1.6%. Due to a decrease in large losses, expenses for claims and insurance benefits did not grow as fast as premiums.

Acquisition and administrative expenses

Acquisition and administrative expenses for the Czech Group companies increased 5.3% to EUR 380.6 million in 2018. Acquisition and administrative expenses were still EUR 361.4 million in 2017. Higher commission expenses due to premium growth were the main reason for the increase.

SLOVAKIA

SLOVAKIAN INSURANCE MARKET

The top 5 insurance groups generated around 75% of the premium volume in the first three quarters of 2018. The two largest insurance groups generated around 55%.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2018 COMPARED TO THE PREVIOUS YEAR

participation (-6.4%), a double-digit increase in premiums (30.5%) was recorded for health insurance products.

According to Axco Global Statistics, the insurance density was an average of EUR 585 per capita in 2017. EUR 397 of this amount was spent on non-life insurance and EUR 201 on life insurance.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Source: Slovak Insurance Association

Source: Slovak Insurance Association; as of 9M 2018

The Slovakian insurance market grew 5.4% in the 1st to 3rd quarters of 2018. The non-life and life sectors recorded positive growth, although slightly slower than the previous year.

Non-life insurance premiums rose 9.1%. The 8% levy that was introduced for all non-life products sold after 1 January 2017 is being replaced by an 8% levy on insurance premiums at the beginning of 2019. The tax will be charged for all non-life policies, both new and old. Motor third party liability insurance was the only line of business affected by the tax levy prior to 2017. Motor premiums grew 9.3%. A small upward price trend can be seen for motor third party liability in particular. Insurers are increasingly differentiating between risk groups, introducing both a bonus system and a malus system and investing in assistance services.

Life insurance recorded an increase of 1.8% during the reporting period. While demand fell for products with profit

VIG COMPANIES IN SLOVAKIA

After the successful merger of Kooperativa and PSLSP in April 2018, Vienna Insurance Group is now represented by two insurers, Kooperativa and Komunálna, in the Slovakian insurance market.

With a market share of 30.6%, VIG is at the top of the ranking of the largest insurance groups in the country. It holds second place in the non-life market and is the market leader in life insurance.

FINANCIAL PERFORMANCE INDICATORS IN THE SLOVAKIA SEGMENT

Premium development

Vienna Insurance Group companies in the Slovakia segment wrote a total of EUR 799.6 million in premiums in 2018 (2017:

EUR 810.0 million). This year-on-year decrease of 1.3% was primarily due to the decrease in single-premium life insurance business. When adjusted for this, an increase of 3.8% was recorded. Net earned premiums were EUR 670.2 million, which represented a decrease of 1.3%.

Combined Ratio

The combined ratio of 97.3% for the Slovakian VIG companies in 2018 was higher than the previous year (2017: 95.4%).

Values for 2017 in parentheses

Expenses for claims and insurance benefits

Expenses for claims and insurance benefits (less reinsurance) were EUR 529.5 million in 2018. This represents a year-on-year decrease of 5.1%, which was mainly due to a significant reduction in single-premium life insurance business.

Acquisition and administrative expenses

Vienna Insurance Group recorded EUR 123.6 million in acquisition and administrative expenses in the Slovakia segment in 2018 (2017: EUR 107.4 million). The 15.2% increase is the result of higher commission expenses.

Result before taxes

The Slovakian companies generated a result before taxes of EUR 47.2 million in 2018 (2017: EUR 55.7 million). This corresponds to a year-on-year decrease of 15.3%, which was caused by a deterioration in the combined ratio due to an increase in reserves performed in the 1st quarter of 2018 and additional levies in the non-motor lines of business.

POLAND

POLISH INSURANCE MARKET

The five largest insurance groups in the country generated around 73% of the total premium volume in Poland in the 1^{st} to 3^{rd} quarters of 2018. The two largest insurance groups generated around 52%.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2018 COMPARED TO THE PREVIOUS YEAR

9M 2018 figures

The overall market was unchanged in Poland in the first three quarters of 2018 due to offsetting changes in the nonlife and life sectors, with premiums rising only 0.3% in local currency.

The non-life sector grew 7.3%. Motor third party liability premiums increased 3.2%. This is a moderate change compared to the double-digit growth in the previous year and is due to the increase in number of insured vehicles. The rates are at the same level as the previous year. Thanks to previous price increases, however, the profitability of the motor third party liability line of business has improved. Motor own damage insurance increased 8.9%, based both on policies and prices. The non-motor lines of business gained 10.6%. The gains were particularly large for health insurance, which recorded a 31.1% increase in premiums.

Life insurance premium volume fell 10.3% due to a 31.7%

decrease in single premium business. The regular premium business remained almost unchanged at 0.2%.

A high employment rate and rising wages are stimulating private consumption. The Polish economy is also benefiting from an increase in investment. According to Axco Global Statistics, an average of EUR 371 per capita was spent on insurance in Poland in 2017. Of this, EUR 254 was spent on non-life insurance and EUR 117 on life insurance.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Source: Financial Market Authority Poland; as of 9M 2018

VIG COMPANIES IN POLAND

VIG is represented by the companies Compensa Life and Non-Life, InterRisk and Vienna Life in Poland. In the middle of 2018, Vienna Insurance Group signed a purchase agreement to acquire Gothaer TU. The acquisition was concluded after approval by the local authorities and strengthens VIG's market presence in the non-life sector. The merger of two Group companies, Polisa and Compensa Life, was another important step for the Group in Poland. The merged company is one of the largest life insurance companies in Poland and will operate under the Compensa Life brand in the future.

Vienna Insurance Group holds a market share of 6.0%, putting it in fourth place in the overall market. In the non-life sector it is fourth in the ranking of top insurers in the country, and in the life sector it is fifth.

FINANCIAL PERFORMANCE INDICATORS IN THE POLAND SEGMENT

Premium development

VIG generated total premiums written of EUR 897.8 million in the Poland segment in 2018 (2017: EUR 886.6 million), representing an increase of 1.3% compared to the previous year. After adjusting for the single premium life insurance business, an increase of 12.5% was recorded. The increase was mainly due to good performance in the motor lines of business and other property and casualty insurance. Net earned premiums were EUR 685.8 million in 2018, 4.3% lower than in 2017.

PREMIUMS BY LINE OF BUSINESS

Values for 2017 in parentheses

Expenses for claims and insurance benefits

The Polish Vienna Insurance Group companies had expenses for claims and insurance benefits (less reinsurance) of EUR 516.8 million in 2018 (2017: EUR 532.3 million). This corresponds to a decrease of EUR 15.5 million or 2.9% in expenses for claims and insurance benefits (less reinsurance), which is due to a drop in business for unit-linked life insurance.

Acquisition and administrative expenses

The Polish VIG companies had EUR 148.3 million in acquisition and administrative expenses in 2018 (2017: EUR 158.8 million). The drop is due to an increase in reinsurance commissions from internal Group quota treaties.

Result before taxes

The result before taxes fell to EUR 32.2 million in 2018 due to new reserves formed for expenses incurred as a result of changes to the surrender terms and conditions for certain life insurance products (2017: EUR 35.5 million).

Combined Ratio

The combined ratio improved to 92.6% in 2018 due to continued good performance in the motor lines of business (2017: 93.9%).

ROMANIA

ROMANIAN INSURANCE MARKET

The top 5 insurance groups generated around 71% of the premium volume in the overall market in the first three quarters of 2018. The two largest insurance groups generated around 38%.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2018 COMPARED TO THE PREVIOUS YEAR

Source: Financial Supervisory Authority ASF

Premium volume in the Romanian insurance market grew 2.1% in the 1st to 3rd quarters of 2018 based on the local currency. The non-life sector was heavily influenced by changes in the motor market and grew 1.6%. Motor third party liability insurance, which represents around half of the non-life business, fell again by around 5.5%. This was the result of rate reductions in connection with legislative changes and introduction of reference rates in 2017. The number of policies, on the other hand, rose 8.0%. The decrease in motor third party liability insurance was compensated by gains in other lines of business in the non-life sector. The premium volume for motor own damage insurance, for example, rose 9.7%, while the fire and natural hazards line of business gained 5.1%.

Life insurance premiums rose 4.0%, driven by a 10.8% increase in traditional life and annuity insurance, while unit-

linked life insurance fell 16.9% following the high recorded in the previous year.

According to Axco Global Statistics, Romania had an insurance density of EUR 108 per capita in 2017. EUR 86 of this amount was for non-life insurance and EUR 22 for life insurance.

VIG COMPANIES IN ROMANIA

Per cent of total premium volume

AXA Life, which was acquired in Romania in 2017, was successfully merged with BCR Life on 1 June 2018. Vienna Insurance Group is now represented in Romania by the nonlife insurer Omniasig, composite insurer Asirom and life insurance company BCR Life.

VIG's market share of 24.5% makes it the largest insurance group in Romania. It is the leader in non-life insurance and holds second place in the market for life insurance.

FINANCIAL PERFORMANCE INDICATORS IN THE ROMANIA SEGMENT

Premium development

The Group companies in the Romania segment wrote EUR 515.3 million in premiums in 2018, representing an increase of 1.7% (2017: EUR 506.5 million).

The increase was primarily due to strong premium growth in other property and casualty and motor own damage insurance. Net earned premiums were EUR 323.5 million in 2018, or 13.9% below the previous year, primarily due to an increase in reinsurance cessions.

Combined Ratio

The combined ratio was 107.5% due to the effect of the reference rates on new production in the motor third party liability line of business (2017: 98.6%).

Values for 2017 in parentheses

Expenses for claims and insurance benefits

The Romanian companies had expenses for claims and insurance benefits (less reinsurance) of EUR 222.3 million in 2018, or 10.6% less than in the previous year (2017: EUR 248.6 million). This change was due to an increase in reinsurance cessions.

Acquisition and administrative expenses

Vienna Insurance Group had acquisition and administrative expenses of EUR 108.5 million in the Romania segment in 2018 (2017: EUR 104.8 million). This is 3.5% more than compared to the previous year.

Result before taxes

A loss of EUR 73.9 million was recorded in the Romania segment in 2018 (2017: profit before taxes of EUR 6.2 million). This change was primarily the result of goodwill impairment of EUR 50.1 million in the 2nd quarter of 2018 and the formation of provisions for the ongoing Romanian Competition Council proceedings.

BALTIC STATES

The Baltic states consist of the countries Estonia, Latvia and Lithuania.

THE BALTIC INSURANCE MARKET

In the insurance market in the Baltic states, many companies that have their registered office in one of the three countries are also represented by branches in the other two markets. This leads to an above-average number of market participants. The top 5 insurance groups in the Baltic states generated 78.8% of the total premium volume.

MARKET GROWTH IN THE $1^{\mbox{st}}$ to $3^{\mbox{rd}}$ quarters of 2018 compared to the previous year

9M 2018 figures

Source: The Estonian National Statistics Board, Latvian Supervisory Authority, Central Bank of the Republic of Lithuania

Premium volume in the three Baltic states rose by 14.2% year-on-year in the 1st to 3rd quarters of 2018. Latvia recorded the largest increase of 16.9%. Estonia and Lithuania also recorded major increases of 13.7% and 12.9%, respectively. Lithuania, with a 47.0% share of the premium volume, is the largest individual Baltic market.

The non-life sector continued to record dynamic premium growth of 16.4% in the first nine months of 2018. All three countries recorded double-digit premium increases, with the Latvian market standing out with an increase of 19.7% in the non-life sector. The growth was mainly driven by mo-

tor third party liability insurance. Premium volume increased around 42% compared to the same period in the previous year.

Life insurance premiums also recorded good growth of 7.9%. The largest increase in life insurance in the Baltic markets was recorded in Latvia, which rose by 9.8%, followed by Lithuania (+8.8%) and Estonia (+2.9%).

Average per capita expenditures for insurance were EUR 274 in Lithuania in 2017. EUR 204 of this amount was for non-life insurance and EUR 70 for life insurance. Estonia's insurance density of EUR 326 per capita was higher than in Lithuania. Of this, EUR 261 was spent on non-life insurance and EUR 65 on life insurance. Latvia had the lowest insurance density in the Baltic states, namely EUR 239. EUR 180 was for the non-life sector and EUR 59 for the life sector.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Source: The Estonian National Statistics Board, Latvian Supervisory Authority, Central Bank of the Republic of Lithuania; as of 9M 2018

VIG COMPANIES IN THE BALTIC STATES

VIG is represented in all three Baltic countries. Compensa Life has its headquarters in Estonia and is also represented by branches in Latvia and Lithuania. VIG is represented in Latvia by BTA Baltic, which has branches in Estonia and Lithuania. The Group is represented in Lithuania by Compensa Non-Life, which also maintains branches in Latvia and Estonia. Following signing of the purchase agreement in December 2017, acquisition of 100% of the shares of the non-life insurance company Seesam was concluded in September 2018 with approval by the local authorities. The acquisition of Seesam, which is represented in all three Baltic states, raised VIG's market share in the Baltic states to 23.8% in the 1st to 3rd quarters of 2018. This makes VIG by far the largest insurance group in the Baltic states. The Group is also in first place in the non-life sector, and in third place for life insurance.

FINANCIAL PERFORMANCE INDICATORS IN THE BALTIC STATES SEGMENT

PREMIUMS BY LINE OF BUSINESS

Premium development

Premiums written in the Baltic states segment rose to EUR 375.8 in 2018 (2017: EUR 327.6 million). This significant year-on-year increase in premiums of 14.7% was due to generally good performance achieved in all lines of business, in particular the motor lines of business and other property and casualty insurance. Net earned premiums rose to EUR 277.1 million in 2018 (2017: EUR 242.9 million).

Expenses for claims and insurance benefits

Expenses for claims and insurance benefits less reinsurance were EUR 198.4 million in 2018 (2017: EUR 170.0 million). The increase of 16.8% essentially equals the increase in business volume.

Acquisition and administrative expenses

VIG recorded EUR 69.0 million in acquisition and administrative expenses in the Baltic states segment in 2018 (2017: EUR 67.1 million). The change is due to an increase in personnel and operating expenses caused by expansion of the distribution network.

Result before taxes

The result before taxes of EUR 2.1 million recorded in the Baltic states segment in 2018 was an improvement over the previous year (2017: EUR 1.4 million).

Combined Ratio

The combined ratio improved compared to the previous year to 98.7%, mainly due to good performance in the motor lines of business (2017: 99.0%).

HUNGARY

HUNGARIAN INSURANCE MARKET

9M 2018 figures

The top 5 insurance groups generated around 60% of the premium volume. The two largest insurance groups generated around 29%.

MARKET GROWTH IN THE 1ST TO 3RD QUARTERS OF 2018 COMPARED TO THE PREVIOUS YEAR

The Hungarian market continued to grow in 2018. The rate

of growth gained slightly in the first three quarters, with premiums increasing 9.3% in the local currency.

Premiums in the non-life sector were 12.2% higher year-onyear. This change was primarily driven by the motor lines of business, which recorded gains mainly as a result of higher average prices and an increase in the number of vehicles insured. Health insurance recorded very dynamic growth of 68.2%.

Life insurance premiums rose by 6%. Tax-privileged pension insurance continues to be popular, with growth rates of 31.7%.

According to Axco Global Statistics, the average per capita expenditure for insurance in Hungary was EUR 315 in 2017. Of this EUR 162 was spent for non-life insurance and EUR 153 for life insurance.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Source: Hungarian Insurers Association (MABISZ); as of 2017

VIG COMPANIES IN HUNGARY

The national bank approved the merger of three VIG companies (Union Biztosító, Erste Biztosító and Vienna Life Biztosító) at the end of March 2018. VIG has therefore been represented exclusively by the insurance company Union Biztosító in Hungary since April 2018. The merger will give the Group an operating size in Hungary that ensures more effective operations and helps achieve the goal of a market share of around 10% in the medium term.

VIG had a market share of 7.8% in 2017, which put it in 6^{th} place in the market. It was in 7^{th} place for non-life insurance and 4^{th} place for life insurance.

FINANCIAL PERFORMANCE INDICATORS IN THE HUNGARY SEGMENT

Premium development

The Group companies in the Hungary segment wrote EUR 263.5 million in premiums in 2018 (2017: EUR 246.7 million). This corresponds to a year-on-year increase of 6.8%, which was primarily due to strong premium growth in motor third party liability and health insurance. Net earned premiums were EUR 205.2 million in 2018, 6.8% higher than the previous year (2017: EUR 192.1 million).

Values for 2017 in parentheses

Expenses for claims and insurance benefits

Vienna Insurance Group had expenses for claims and insurance benefits (less reinsurance) of EUR 161.9 million in Hungary in 2018 (2017: EUR 142.6 million), which represents an increase of 13.5% compared to the previous year. This was larger than the increase in net premiums, primarily due to the increase in volume for health and motor third party liability insurance and their respective claims ratios.

Acquisition and administrative expenses

Vienna Insurance Group acquisition and administrative expenses rose 6.2% to EUR 39.3 million in the Hungary segment in 2018 (2017: EUR 41.9 million), mainly due to an increase in reinsurance commissions.

Result before taxes

The result before taxes rose to EUR 7.6 million in Hungary in 2018 (2017: EUR 2.1 million). The increase was primarily due to a lack of the write-down of Vienna Life insurance portfolios that was performed in the previous year and a better combined ratio.

Combined Ratio

The combined ratio improved compared to the same period in the previous year to 98.5% in 2018 (2017: 98.9%).

BULGARIA

BULGARIAN INSURANCE MARKET

9M 2018 figures

The top 5 insurance groups generated around 57% of the premium volume in the country in the first three quarters of 2018. The two largest insurance groups generated around 26%.

MARKET GROWTH IN THE $1^{\mbox{st}}$ to $3^{\mbox{rd}}$ quarters of 2018 compared to the previous year

Source: Bulgarian Financial Supervision Commission(FSC)

Bulgarian insurance companies recorded a 13.5% increase in premiums in the first nine months of 2018 based on the local currency.

The non-life sector grew 18.1%, driven by motor third party liability insurance, which saw premiums increase 38.1% compared to the same period in the previous year. Further price increases are expected based on the draft regulation prepared by the Bulgarian financial supervisory authority for introduction of a bonus-malus system. Compensation for personal injury is also expected to be increased and there are plans to raise the taxes on older and high-emission vehicles. Motor own damage also recorded a double-digit increase of 10.6%. The non-motor lines of business only recorded moderate growth of 0.5%.

The share of life insurance in the portfolio, which was already small, decreased further to 17.4% in the 1st to 3rd quarters of 2018. Premium volume fell 4.0% due a sharp drop in annuity and pension insurance (-53.6%) that was not fully offset by the other life lines of business.

The economy is being driven by high levels of investment and private consumption. Falling unemployment and rising income are providing support for private consumption. The average per capita expenditure for life insurance in Bulgaria was EUR 26 in 2017. Around five times as much, EUR 131, was spent on non-life insurance. According to Axco Global Statistics, this corresponds to a total per capita premium of EUR 157 per year for insurance services.

MARKET SHARES OF THE MAJOR INSURANCE GROUPS

Source: Bulgarian Financial Supervision Commission (FSC); as of 9M 2018

VIG COMPANIES IN BULGARIA

VIG is represented by three Group companies in the Bulgarian insurance market, Bulstrad Life, Bulstrad Non-Life and Nova. Together they hold a market share of 13.9%, making VIG the leading insurance group in Bulgaria. It holds second place in the non-life sector and first place in the market for life insurance. The Doverie pension fund also belongs to the Group.

FINANCIAL PERFORMANCE INDICATORS IN THE BULGARIA SEGMENT

Premium development

Premiums written in the Bulgaria segment increased to EUR 171.3 million in 2018 (2017: EUR 150.1 million). The major increase of 14.1% was primarily due to good perfor-

mance in motor own damage and health insurance. Net earned premiums were EUR 122.8 million in 2018, 12.1% higher than the previous year.

VIENNA INSURANCE GROUP IN THE BULGARIA SEGMENT

Values for 2017 in parentheses

Expenses for claims and insurance benefits

The Bulgarian Vienna Insurance Group companies had EUR 72.7 million in expenses for claims and insurance benefits (less reinsurance) in 2018 (2017: EUR 64.4 million). The year-on-year increase of 12.9% essentially equals the increase in business volume.

Acquisition and administrative expenses

Acquisition and administrative expenses were EUR 46.4 million in 2018 (2017: EUR 38.8 million). The year-on-year increase of 19.6% resulted from an increase in commissions due to significant growth in the volume of business and additional fees in the motor area.

Result before taxes

The Bulgarian VIG companies contributed EUR 11.4 million to the total Group result in 2018 (2017: EUR 6.9 million). A major reason for this large increase of 65.0% was the lack of a write-down of insurance portfolios previously performed for the Doverie pension fund.

Combined Ratio

The combined ratio rose to 99.1% in 2018, primarily due to an increase in reserves (2017: 97.1%).

TURKEY/GEORGIA

Turkey

The Turkish insurance market once again recorded doubledigit growth of 18.2% during the 1st to 3rd quarters of 2018. The non-life sector gained 19.9% in the 1st to 3rd quarters of 2018 in local currency terms, further increasing its contribution to total premium volume to around 86%, while life insurance premiums rose 8.5%. Motor third party liability insurance represented around one third of the non-life business. It recorded an increase of 25.1%, and motor own damage insurance recorded a gain of 11.9% in premium volume. The non-motor lines of business rose by 19.3%.

More than 60 companies offer insurance in Turkey. Vienna Insurance Group is in 17th place in the ranking of the largest insurance groups in the country. The non-life insurance company belonging to the Group, Ray Sigorta, holds a market share of 1.6% in the overall market.

Georgia

In Georgia, the top 3 insurance groups generated around two thirds of the premiums in the Georgian insurance market in the 1st to 3rd quarters of 2018. The overall market recorded a year-on-year increase of 20.7% in local currency terms. The increase in all lines of business underscores the potential for catch-up offered by this market. Health insurance, which is still the dominant line of business, representing around 41% of total premium volume, recorded an increase of 6.8%. As announced, mandatory motor third party liability insurance was introduced for foreign vehicles at the beginning of 2018, causing the premium volume in this line of business to almost guadruple. The next step being planned is to also introduce mandatory motor third party liability insurance for domestic vehicles. Double-digit growth rates were recorded for motor own damage insurance (+15.7%) and the non-motor lines of business (+16.6%). After decreasing in the previous year, life insurance recorded a striking increase of 62.4% in the 1st to 3rd guarters of 2018.

VIG is represented by two companies in Georgia: GPIH and IRAO. It occupies second place in the market, with a total market share of 26.8%.

FINANCIAL PERFORMANCE INDICATORS IN THE TURKEY/GEORGIA SEGMENT

Premium development

Vienna Insurance Group recorded total premiums written of EUR 198.3 million in the Turkey/Georgia segment in 2018 (2017: EUR 207.8 million), representing a decrease of 4.6% compared to the previous year. This change was due to negative currency effects. When adjusted for these effects, the Turkey/Georgia segment recorded an increase of 19.8%. Net earned premiums were EUR 97.1 million in 2018 (2017: EUR 101.6 million), a decrease of 4.4% compared to the previous year.

PREMIUMS BY LINE OF BUSINESS

Values for 2017 in parentheses

Expenses for claims and insurance benefits

Expenses for claims and insurance benefits less reinsurers' share fell from EUR 79.8 in 2017 to EUR 73.6 million in 2018. This corresponds to a year-on-year decrease of 7.8% that was primarily due to currency effects.

Acquisition and administrative expenses

Acquisition and administrative expenses were EUR 22.7 million in 2018 (2017: EUR 19.7 million). Compared to the previous year, this represented an increase of 15.1% and was mainly due to a reduction in reinsurance commissions.

Result before taxes

The result before taxes declined to EUR 3.8 million in 2018, primarily due to full impairment of the goodwill of EUR 5.1 million in Turkey, negative currency effects and a deterioration of the combined ratio (2017: EUR 9.4 million).

Combined Ratio

The combined ratio rose to 98.5% in 2018 due to higher claims expenses (replacement part prices) in the motor lines of business (2017: 96.1%).

REMAINING CEE

The Remaining CEE segment includes the countries of Albania incl. Kosovo, Bosnia-Herzegovina, Croatia, North Macedonia, Moldova, Serbia and Ukraine. The Remaining CEE markets generated 4.0% of Group premiums in 2018. The companies in the Montenegro and Belarus markets were not included in the VIG consolidated financial statements.

Albania including Kosovo

The Albanian insurance market grew 3.6% in local currency terms in the 1st to 3rd quarters of 2018. The motor lines of business represent more than two thirds of the Albanian insurance market. Premiums rose 5.1% for motor third party liability and 8.0% for motor own damage insurance. The non-motor lines of business also contributed to the growth

of the Albanian insurance market with an increase of 1.4%, as did health insurance, with an increase of 8.5%. Life insurance recorded a decrease of 4.2% in premiums. The premium volume in Kosovo rose 5.9% year-on-year in the 1st to 3rd quarters of 2018.

VIG is represented in the non-life sector in Albania by the companies Sigma Interalbanian and Intersig. VIG has a market share of 23.1%, which puts it in second place in the Albanian insurance market. Sigma Interalbanian is also represented by a branch in Kosovo.

Bosnia-Herzegovina

Premiums increased 4.0% in local currency terms in Bosnia-Herzegovina in the first two quarters of 2018. Premium volume rose 4.8% year-on-year in the non-life sector. Motor third party liability insurance, which dominates the non-life sector, grew 7.1%. Life insurance recorded a moderate increase of 1.0%.

Vienna Insurance Group is represented by Wiener Osiguranje, which has its headquarters in Banja Luka, in the Serbian Republika Srpska in Bosnia-Herzegovina. The acquisition of Merkur Osiguranje was also concluded in February 2018 and the company was renamed Vienna osiguranje d.d. in October 2018. The acquisition strengthens the range of products offered by VIG in the life insurance segment in Bosnia-Herzegovina. Vienna Insurance Group's market share was 8.5% based on data from the 1st half of 2018, which puts it in fifth place in the market ranking.

Croatia

The Croatian insurance market grew 9.7% in local currency terms in the 1st to 3rd quarters of 2018, with both the nonlife and life insurance lines of business contributing to this growth. Double-digit growth rates were recorded for motor own damage insurance (+18.4%) and life insurance (+10.5%), which was primarily driven by traditional life insurance products. Premium volume rose 6.3% for motor third party liability insurance and 8.0% for health insurance.

Since the merger of Erste Osiguranje and Wiener Osiguranje was concluded in April 2018, VIG has only been represented by the insurance company Wiener Osiguranje in Croatia. Erste Osiguranje will now only be used as a brand for bank distribution in the future. Its market share of 9.3% in the 1st to 3rd quarters of 2018 put it in fourth place in the Croatian insurance market.

North Macedonia

Premium volume in the North Macedonian insurance market grew 8.9% in local currency terms in the first nine months of 2018, which was the largest increase recorded since 2015. Life insurance continued the double-digit growth recorded in previous years with an increase of 15.6%. It represents 14.8% of the overall portfolio, which corresponds to an increase of 6.4 percentage points over five years. Premium volume in the non-life sector rose 7.8%, driven by the non-motor lines of business. Motor third party liability grew 5.6% and motor own damage increased 4.2%.

VIG's three Group companies, Makedonija Osiguruvanje, Winner Non-Life and Winner Life, together hold a market share of 20.1% in the overall market. That makes it the leading insurance group in North Macedonia.

Moldova

Premium volume for the insurance companies operating in Moldova rose 2.3% based on the local currency in the first three quarters of 2018. The non-life sector recorded a yearon-year increase of 2.1%. The life sector gained 5.4%, but only represents 6.2% of the overall portfolio. Premium volume increased in the motor lines of business (motor third party liability +5.9%, motor own damage +4.0%), while the non-motor lines of business decreased 6.5%.

VIG is represented by Group company Donaris in Moldova. It generates 13.4% of the premiums in the overall market, putting it in second place. Donaris holds first place in the non-life sector.

Serbia

The Serbian insurance industry recorded a 4.1% increase in premium volume in local currency terms in the first three quarters of 2018. Although this continues the long tradition of increasing premium volumes, the growth rate is slower than in previous years. The non-life sector, which represents more than three quarters of the total market, recorded a 3.6% year-on-year increase. This growth was driven by the motor lines of business (motor third party liability +5.3%, motor own damage +12.4%), which benefited from an increasing number of registrations. Due to efforts to achieve harmonisation with EU law, a new act is being prepared for motor third party liability insurance. One of the objectives is to better regulate guarantee funds and claims for damages. Life insurance recorded an increase of 5.7%. Starting from a very low level, health insurance recorded strong growth of 25.6%.

The VIG company Wiener Osiguranje has a market share of 11.4% in the Serbian market. VIG therefore holds fourth place in the overall market in Serbia and second place in life insurance.

Ukraine

Approximately one third of the premium volume published in the Ukrainian market statistics in the 1st to 3rd quarters of 2018 concerns reinsurance business between companies. After adjusting for these transactions, direct premium volume rose 19.8% year-on-year in local currency. The non-life sector grew 18.1%. Mandatory motor third party liability insurance gained 20.3%. The Ukrainian motor insurance bureau (MTIBU) introduced electronic motor third party liability insurance in 2018. One of the objectives was to prevent forged and invalid policies from being issued and to make police checks easier. According to MTIBU, around 93,000 e-policies were sold during the period from introduction in February to November 2018. Strong growth of 35.6% in life insurance increased its share of total direct premiums to 11.1%.

VIG operates three non-life insurance companies in Ukraine, UIG, Kniazha and Globus, and the life insurance company Kniazha Life. VIG generates 6.0% of the premiums in the overall market in Ukraine, putting it in second place. It holds second place in the non-life sector and seventh place in the life sector.

FINANCIAL PERFORMANCE INDICATORS IN THE REMAINING CEE SEGMENT

Premium development

The VIG companies in the Remaining CEE segment wrote EUR 374.7 million in premiums in 2018 (2017: EUR 352.0 million). The year-on-year increase of 6.4% was primarily based on growth in single premium life insurance and other property and casualty insurance in Croatia and first-time consolidation of Vienna osiguranje (formerly Merkur Osiguranje) in Bosnia-Herzegovina. Respectable growth was also achieved in Ukraine, with motor third party liability, other property and casualty and health insurance recording double-digit growth rates. Net earned premiums were EUR 285.7 million in 2018 (2017: EUR 247.2 million), an increase of 15.6% compared to the previous year.

PREMIUMS BY LINE OF BUSINESS

Values for 2017 in parentheses

Expenses for claims and insurance benefits

Expenses for claims and insurance benefits less reinsurance were EUR 197.2 million in 2018 (2017: EUR 170.6 million). This corresponds to a year-on-year increase of 15.6% in expenses for claims and insurance benefits (less reinsurance), which was primarily the result of a higher volume of business.

Acquisition and administrative expenses

Acquisition and administrative expenses were EUR 96.5 million in the Remaining CEE segment in 2018 (2017: EUR 93.3 million). This corresponds to a year-on-year increase of 3.4%.

Result before taxes

The result before taxes rose to EUR 23.5 million in 2018, mainly due to an improvement in the combined ratio (2017: loss of EUR 6.0 million). It should be noted that the result in the previous year was negatively affected by a goodwill impairment of EUR 19.5 million in the Ukraine, Moldova and Albania incl. Kosovo CGU groups.

Combined Ratio

The combined ratio improved to 96.6% in 2018, primarily due to the positive performance achieved in Ukraine and Croatia (2017: 100.1%).

OTHER MARKETS

The Other Markets segment includes Germany and Liechtenstein. The segment generated 3.3% of Group premiums in 2018.

Germany

The German insurance industry recorded a 2.7% year-onyear increase in premiums in the first nine months of the year. The main contribution was from property and casualty insurance, which recorded an increase of 3.4%. After decreasing in the previous year, the contribution from life insurance (not including pension funds) increased 3.8% in the 1st to 3rd quarters of 2018, driven by a 12.6% increase in single premium business. Regular premium life insurance also recorded a small gain of 0.4%. Private health insurance grew 1.9%.

VIG is represented in Germany by InterRisk Non-Life and InterRisk Life. The InterRisk companies distribute exclusively through around 10,000 independent sales partners. InterRisk Non-Life specialises in accident and third party liability insurance and selected property insurance products. InterRisk Life focuses on retirement provision and occupational disability solutions, as well as protection for surviving dependants. The VIG companies continue to operate successfully in the German market as highly profitable niche providers.

Liechtenstein

The Principality of Liechtenstein has been a member of the European Economic Area since 1995. This gives Liechtenstein insurance companies free access to the markets in 31 countries in Europe. The life insurance companies domiciled in Liechtenstein primarily offer unit-linked and equity-linked (anteilsgebunden) retirement and insurance solutions for high net worth individuals. The property and casualty insurers cover all of the corresponding lines of business. At the end of 2018, 21 life insurance, 17 property and casualty insurance and 5 reinsurance companies had registered offices in Liechtenstein. Premium volume in the first three quarters of 2018 was at the same level as the previous year.

VIG is represented in Lichtenstein by Group company Vienna Life, which focuses on unit-linked and index-linked life insurance.

FINANCIAL PERFORMANCE INDICATORS IN THE OTHER MARKETS SEGMENT

Premium development

Vienna Insurance Group recorded total premiums written of EUR 321.0 million in the Other Markets segment in 2018

(2017: EUR 292.6 million), representing an increase of 9.7% compared to the previous year. The increase was due to good performance in all lines of business in Germany and single premium life insurance in Liechtenstein. Net earned premiums were EUR 275.1 million in 2018 (2017: EUR 248.8 million), an increase of 10.6% compared to the previous year.

PREMIUMS BY LINE OF BUSINESS

Values for 2017 in parentheses

Expenses for claims and insurance benefits

The VIG companies in the Other Markets segment incurred EUR 188.2 million in expenses for claims and insurance benefits (less reinsurance) in 2018, 25.1% less that than in 2017 (EUR 251.3 million). This was primarily due to the effect on underwriting reserves of currency fluctuations between the Swiss franc and euro.

Acquisition and administrative expenses

Acquisition and administrative expenses in the Other Markets segment improved from EUR 29.8 million in 2017 to EUR 28.3 million in 2018. This year-on-year decrease of 5.0% was due to an increase in reinsurance commissions.

Result before taxes

The result before taxes improved 0.9% to EUR 23.9 million in 2018 (2017: EUR 23.7 million).

Combined Ratio

Vienna Insurance Group had a combined ratio of 82.9% in the Other Markets segment in 2018 (2017: 81.3%).

CENTRAL FUNCTIONS

The Central Functions segment includes VIG Holding, VIG Re (including the branches in Germany and France), the VIG Fund, non-profit societies, corporate IT service providers, intermediate holding companies and, since the 1st half of 2018, Wiener Re. VIG Holding primarily focuses on managerial tasks for the Group. It also operates as the reinsurer for the Group and in the international corporate business.

The Group's own reinsurance company, VIG Re, was formed in Prague in 2008 and is a successful reinsurance provider for both Vienna Insurance Group companies and external partners. VIG has established itself as an important company in the CEE region and follows a conservative underwriting and investment strategy. Standard & Poor's confirmed VIG Re's A+ rating with a stable outlook in the summer of 2018.

FINANCIAL PERFORMANCE INDICATORS IN THE CENTRAL FUNCTIONS SEGMENT

Premiums written in the Central Functions segment rose 12.2% in 2018 to EUR 1,584.3 million. This was mainly the result of an increase in internal Group reinsurance through VIG Holding and an increase in premiums generated by Group company VIG Re entering new reinsurance business areas (Western Europe). In addition, Wiener Re was added to the Central Functions in the 2nd quarter of 2018.

A profit before taxes of EUR 70.2 million was recorded in the Central Functions segment in 2018 (2017: loss of EUR 16.7 million). The positive result is primarily due to the non-profit societies in the real estate area, lower expenses in the IT area and an improvement in the technical result.

BUSINESS DEVELOPMENT BY BALANCE SHEET UNIT

Further information on business development by balance sheet units is provided in the additional disclosures in accordance with the Austrian Insurance Supervision Act (VAG) in the notes to the consolidated financial statements starting on page 164.

Other legal disclosures

RESEARCH AND DEVELOPMENT

Although VIG does not perform any research activities as defined in § 243 (3)(2) UGB, it contributes its expertise to the development of insurance-specific software models. VIG is also cooperating with the Insurance Innovation Lab in Leipzig.

HOLDINGS, PURCHASE AND SALE OF OWN SHARES

Detailed information on § 243 (3)(3) UGB is available in Note 8 Consolidated shareholders' equity in the notes to the consolidated financial statements starting on page 119.

INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM IN THE ACCOUNTING PROCESS

Preparation of the consolidated financial statements includes all activities required for presentation and disclosure of the net assets, financial position and results of operations of the Group in accordance with the provisions of the law and the IFRS. The consolidated financial statements consist of the balance sheet, income statement, statement of comprehensive income, statement of changes in equity, cash flow statement, segment report and all necessary disclosures in the notes. The financial statement process includes the aggregation of all data from accounting and upstream processes for the annual financial statements.

Risk management is implemented in the Vienna Insurance Group accounting process in accordance with the five elementary components of the COSO (Committee of Sponsoring Organisations of the Treadway Commission) framework model for internal risk management.

Control environment

The organisational structure consists of the local accounting departments of the individual Group companies and the Group accounting department at the VIG headquarters in Vienna. The accounting departments of the Group companies prepare both local GAAP and IFRS financial statements and then send the IFRS figures to the Group accounting department.

The IFRS financial statements are prepared in accordance with uniform Group accounting policies. The Group fully applies the rules of IFRS 4 with respect to the valuation of insurance policies. Accordingly, the values recognised under applicable national law are carried over to the IFRS consolidated financial statements.

Standardised software is used to prepare the consolidated financial reports. The Group companies mostly use this software to send their data, which is entered locally. The Austrian insurance companies and some international insurance companies upload their balance sheets and income statements into the system. The Group accounting department consolidates the data and prepares the consolidated financial statements.

Risk assessment

The annual financial statement process has been documented in order to identify risks in the accounting process and eliminate them as far as possible. The documentation covers the entire process all the way from data entry by the employees of Group companies and automatic and manual controls and analyses during the consolidation process, to publication of the final annual report.

Control measures

The newest version of the IFRS manual and detailed information on Group-wide reporting requirements are sent to the responsible persons in the local accounting departments before each set of financial statements are prepared in order to ensure uniform reporting across the Group. Both automatic (using validations) and manual checks (performance analyses and plausibility checks by employees in the Group accounting department) are performed for the financial statement data that is received. Additional checks in the form of control calculations and reconciliation of, in particular, reinsurance and financing balances are performed to identify and eliminate potential errors.

In addition, an earnings reconciliation statement is prepared, the accuracy of individual parts of the consolidated financial statements is checked, and a plausibility check is performed for the consolidated financial statements as a whole to ensure that the presentation is complete and correct.

The accounting employees also work together closely with the Controlling department (e.g. variance analyses) when the financial statements are prepared. The data are also regularly provided to the Managing Board for review and checking.

In order to ensure that the annual report is completed correctly and on time by the publication deadline, strict deadlines are set for the quarterly and annual financial statements and the Group companies are already informed of these deadlines at the beginning of the 4th quarter for the coming reporting year.

The employees of the VIG accounting department ensure in advance that the Group companies can send their data on time.

Information and communication

The intensive collaboration with other areas of the Company, in particular Controlling, generates a lively exchange of information and communications.

In addition to the annual report at the end of each financial year, quarterly and half-year reports are published in accordance with IAS 34 and statutory provisions.

The Investor Relations department is responsible for reporting to Vienna Insurance Group shareholders. This takes place both in personal meetings and via the Company website. Shareholders and other interested parties are provided access to annual, quarterly and half-year financial reports, and to regularly updated information on key figures, share prices, the financial calendar, ad hoc news and other relevant topics.

Monitoring

The Group accounting department is responsible for preparing the Group annual report. Quarterly reports are provided to the Managing Board and Supervisory Board to ensure regular monitoring of the internal control system.

Risks are continuously monitored by internal cross-departmental Group controls (e.g. Group accounting department, Controlling).

The internal audit department also performs quality assurance. It performs independent, objective audit procedures to examine the structure and effectiveness of internal control systems and the value and optimisation potential of operational processes. The activities of the internal audit department are therefore aimed at helping the Company both reduce risks and strengthen processes and structures.

Group-wide guidelines exist in order to standardise the handling of significant risks throughout the Group, and also provide a tool for risk monitoring. Local management is responsible for implementing these guidelines in the individual Group companies.

The auditor takes the internal control system into account during the financial statement audit to the extent that it is relevant to preparation of the consolidated financial statements.

The auditor also assesses the effectiveness of the risk management system in accordance with Rule 83 of the Austrian Corporate Governance Code.

CAPITAL, SHARE, VOTING AND CONTROL RIGHTS AND ASSOCIATED AGREEMENTS

The Company has share capital of EUR 132,887,468.20. It is divided into 128,000,000 no-par value ordinary bearer shares with voting rights, with each share representing an equal portion of the share capital. The number of shares issued remains unchanged since the previous financial year.

Further information on the anticipatory resolutions and authorisations of the Managing Board in the general meeting of 12 May 2017 in accordance with § 267 (3a) in conjunction with § 243a (1) UGB is provided in Note 8 Consolidated shareholders' equity starting on page 119 of the notes to the consolidated financial statements.

CONSOLIDATED NON-FINANCIAL REPORT

Vienna Insurance Group is publishing a separate consolidated non-financial report for financial year 2018 in accordance with § 267a of the Austrian Commercial Code (Unternehmensgesetzbuch – UGB). It is available in printed form and online on the Vienna Insurance Group website (www.vig.com) in the "Corporate Responsibility" menu section under "Downloads".

CORPORATE GOVERNANCE

Vienna Insurance Group is committed to application and compliance with the January 2018 version of the Austrian

Code of Corporate Governance and publishes a consolidated corporate governance report on the VIG website at www.vig.com under "Investor Relations".

OUTSOURCING DISCLOSURES

The outsourcing disclosures required under § 156 (1)(1) in conjunction with § 109 VAG are discussed in more detail below.

VIG Holding

A resolution was adopted allowing internal and external service providers to provide IT services for VIG Holding. Outsourcing agreements that had been approved by the supervisory authority existed in 2018 with IBM Austria (Internationale Büromaschinen Ges. m.b.H.), T-Systems Austria GesmbH and with the internal Group IT system provider twinformatics GmbH, all headquartered in Austria. twinformatics GmbH was also engaged in 2018 to assume overall responsibility for all IT services for the Austrian VIG companies, and to perform the sub-outsourcing necessary for this purpose taking into account statutory and regulatory requirements and report them to the Austrian Financial Market Authority (FMA). The reports to the FMA and FMA approvals also took place in 2018. In addition to these outsourcing agreements, Vienna Insurance Group Holding has not outsourced any critical or important functions or business activities.

VIG Group

Outsourcing took place in the following areas, in particular, in the Group:

- IT area (in particular the operation and maintenance of operating modules, computing centre operation, application development services, data storage)
- Claims handling area

The four governance functions were individually outsourced by the operating insurance companies of the Group, in particular the internal audit and actuarial functions and related activities.

While governance functions in the Group were, with few exceptions, outsourced to other Group companies, critical or important activities in the IT and claims handling areas were outsourced both inside and outside the Group. The notification of local supervisory authorities about the outsourcing of critical or important functions or activities and the approval of such outsourcing by these authorities was done by the companies concerned in accordance with applicable national legal requirements.

Expected development and risks of the Group

SIGNIFICANT RISKS AND UNCERTAINTIES

The VIG risk management system is firmly anchored in the management culture of the Company and is based on a clearly defined, conservative risk policy, extensive risk expertise, a highly developed set of risk management tools, and risk-based Managing Board decisions.

The detailed risk report for VIG is provided in the notes to the consolidated financial statements on page 85. For information on the financial instruments used, please see the notes to the consolidated financial statements (Summary of significant accounting policies) and the risk report (starting on page 85).

EXPECTED DEVELOPMENT - OUTLOOK FOR 2019

AUSTRIA

The Austrian Institute of Economic Research (WIFO) expects the Eurozone to continue recording solid growth, although the 1.7% expected for 2019 is below the real GDP growth of 2.0% forecasted for Austria in 2019. WIFO is assuming that household income will rise – driven by rising wages and salaries and lower taxes, in particular by introduction of the family bonus – and will, in turn, increase private consumption (+1.7%). The unemployment rate as a percentage of the labour force will continue to fall, although at a slower rate. In addition to the labour market, the good economic conditions will also benefit the government budget. WIFO expects budget surpluses in 2019 and 2020 based on overall increases in tax revenues.

The Austrian Insurance Association (VVO) expects premiums to rise by 1.5% to around EUR 17.6 billion this year. Health insurance is expected to achieve again the largest increase of 3.5%, and property and casualty insurance is expected to grow by 3%. Life insurance premiums are expected to decrease by 2%.

CEE

The November 2018 forecast by the Vienna Institute for International Economic Studies (WIIW) continues to show robust growth in most Central and Eastern European countries. Tight labour markets are causing significant wage increases. As in Austria, this is having a positive effect on consumption, but could present a challenge for future growth in the medium term. With the exception of Croatia (2.6%), the Central and Eastern European (CEE) countries in the EU are expected to record real GDP growth rates of at least 3% in 2019. Slovakia, in particular, stands out for an expected growth rate of 4.1%, which is also an increase compared to 2018. According to WIIW, the average GDP growth rate of 3.4% expected for the CEE countries in the EU is almost the same as the growth of 3.5% expected for the Western Balkans in 2019.

As WIIW summarises in its analysis, the overall outlook remains positive for the region, although with a considerably higher level of risk due to, among other things, the intensification of the trade conflict between the US and China and a reduction in the EU budget after Brexit. WIIW confirms that the region in general is still on a path of convergence with Western Europe, although at a slower pace due to a weakening of the external environment.

Based on the forecasts currently available, VIG expects growth rates to be considerably higher in the CEE markets than in Western Europe, so that the insurance industry will continue to show dynamic growth in the CEE region in 2019.

VIENNA INSURANCE GROUP

As a market leader in Austria and the CEE region, Vienna Insurance Group with its more than 25,000 employees is in an excellent position to take advantage of the opportunities available in this region and the long-term growth options they offer. VIG remains committed to its proven business strategy of profitable growth. Based on VIG's values of diversity, customer proximity and responsibility, the Group plans to use its successful management principles to consolidate and further increase its market share. This includes both organic growth and growth by acquisitions, particularly if an opportunity arises to strategically expand the existing portfolio or take advantage of economies of scale. Vienna Insurance Group has set itself a goal of increasing its market share to a minimum of 10% in Poland, Hungary, Croatia and Serbia in the medium term. This goal was already achieved in one of these countries, Serbia, in 2016 as the result of an acquisition. VIG's acquisition of Gothaer TU raised its market share to around 9% in Poland.

The strategic measures and initiatives set by the Agenda 2020 work programme – business model optimisation, organisation and cooperation and ensuring future viability – helped accelerate the development of the Group in 2018. The Group continues to focus on efficiency improvements and making use of synergies, and is working systematically to reduce both losses and expenses in order to improve its combined ratio. In life insurance, efforts will also be made to further promote biometric risk coverage and the regular premium business.

For 2019, VIG plans to steadily grow its Group premium volume to EUR 9.9 billion and its result before taxes (including non-controlling interests) to between EUR 500 to 520 million. Based on current conditions and the positive macroeconomic development of the region, Vienna Insurance Group aims to continuously increase premiums to more than EUR 10.2 billion by 2020 and achieve a result before taxes (including non-controlling interests) in the range of EUR 530 to 550 million. For the combined ratio, VIG expects a sustainable improvement to around 95% by 2020.

Based on the feedback received from the investor survey in the summer of 2018, Management decided to implement a new dividend policy. The new policy is to distribute a dividend in the range of 30 to 50% of Group net profits. The goal is to continue aligning the dividend per share to the company's earnings performance.

Notes to the consolidated financial statements

PRINCIPALS OF SIGNIFICANT ACCOUNTING POLICIES

GENERAL INFORMATION

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe is one of the leading Austrian insurance groups in Central and Eastern Europe and thus is also the largest listed insurance group in Austria. Its registered office is located at Schottenring 30, 1010 Vienna. The ultimate parent company, Wiener Städtische Versicherungsverein, includes Vienna Insurance Group in its consolidated financial statements.

Group insurance companies offer insurance services in the life, health and property and casualty areas in 25 countries of Central and Eastern Europe.

PRINCIPALS OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied during preparation of the consolidated financial statements are presented below. The policies described were applied consistently during the accounting periods presented in these financial statements.

The consolidated financial statements were prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union, and the applicable provisions of § 245a (1) of the Austrian Commercial Code (Unternehmensgesetzbuch – UGB) and Chapter 7 of the Austrian Insurance Supervision Act (Versicherungsaufsichtsgesetz – VAG).

Preparing consolidated financial statements in accordance with the IFRS requires that estimates be made. In addition, application of the Company's accounting policies requires the Managing Board to make assumptions. Areas with greater leeway for discretion, highly complex areas, or areas involving assumptions and estimates that are of critical importance to the consolidated financial statements are listed in the notes on page 51.

Amounts were rounded to improve readability and, where not indicated otherwise, are shown in thousands of euros (EUR '000). Calculations, however, are done using exact amounts, including digits not shown, which may lead to rounding differences.

Changes in accounting policies

Except for the following changes, the Group has consistently applied the accounting policies indicated in all of the periods shown in these consolidated financial statements. Unless otherwise indicated, the standards relevant to VIG that are applicable for the first time have no or no material effect on these consolidated financial statements.

| All IFRS | Annual improvements (Cycle 2014–2016) |
|--------------------------|--|
| IFRS 15 | Revenue from contracts with customers |
| Clarification of IFRS 15 | Clarifications concerning revenue from contracts with customers |
| Amendments in IFRS 4 | Application of IFRS 9 Financial instruments in conjunction with IFRS 4 Insurance contracts |
| Amendments in IFRS 2 | Clarifications and measurement of share-based payments |
| Amendments to IAS 40 | Classification of property under construction |
| IFRIC 22 | Foreign currency transactions and advance consideration |

Standards applicable to VIG that are used for the first time in the Group Annual Report

The following standards have already been recognised by the European Union or are currently in the recognition process. Mandatory application, however, is not provided for until a future date.

| New standards and changes to current reportin | Applicable as of ¹ | |
|---|--|---|
| Those already adopted by the EU | | |
| IFRS 16 | Leases | 1.1.2019 |
| IFRS 9 | Financial instruments | 1.1.20182 |
| Amendments in IFRS 9 | Prepayment features with negative compensation | 1.1.2019 |
| IFRIC 23 | Uncertainty over income tax treatments | 1.1.2019 |
| Amendments in IAS 28 | Clarification for application of impairment requirements to long-term interests | 1.1.2019 |
| All IFRS | Annual improvements (Cycle 2015–2017) | 1.1.2019 |
| Amendments in IAS 19 | Remeasurement on a plan amendment, curtailment or settlement | 1.1.2019 |
| Those not yet adopted by the EU | | |
| IFRS 14 | Regulatory Deferral Accounts | EU decided this standard shall not be transferred into EU law |
| IFRS 17 | Insurance contracts | 1.1.20223 |
| Amendments according IFRS 10 and IAS 28 | Sale or contribution of assets between an investor and its associate or joint venture | First-time application deferred for an indefinite period |
| Amendments to various standards | Changes to the references to the framework concept in the IFRS standards | 1.1.2020 |
| Amendments in IFRS 3 | Definition of a business operation | 1.1.2020 |
| Amendments according IAS 1 and IAS 8 | Standardisation and clarification of the definition of materiality | 1.1.2020 |

¹ VIG is not planning early adoption of the provisions listed in the table.

² The first time adoption for insurance companies can be delayed to 1 January 2022. The deferral is still subject to a public consultation.

 $^{\rm 3}$ $\,$ The deferral to 1 January 2022 is still subject to a public consultation.

Unless indicated otherwise, either the Group does not expect the standards listed in the two tables to have a material effect, or the amendments are not relevant to the Group.

IFRS 16 - "LEASES"

The new standard supersedes the previous requirements of IAS 17 "Leases" and associated interpretations IFRIC 4, SIC 15 and SIC 27. The new requirements primarily concern the accounting presentation of leases by the lessee. The lessee now recognises a liability for the future lease payments to be made for each lease. At the same time, a right-of-use asset (RoU asset) is recognised in the amount of the present value of the future lease payments and amortised linearly over the contractually stipulated useful life. As a result, the previous distinction between operating and finance leases no longer applies. The distinction between an operating lease and finance lease remains for the lessor, and the list of criteria for deciding which kind of lease one is dealing with has been taken from IAS 17 without change.

With respect to first-time application of IFRS 16, one can choose to apply the standard using the full retrospective approach or modified retrospective approach (with or without adjusting the previous year). The Group chose to apply the standard for the first time on 1 January 2019 using the modified retrospective approach. This led to recognition of the right-of-use and a lease liability in the same amount in the balance sheet at the time of first application, so that there was no effect on shareholders' equity.

When applying IFRS 16, the Group also elected to apply the exemption for short-term leases (up to one year) and low value assets (new cost up to EUR 5,000).

A preliminary analysis was performed to estimate the leases during the financial year just ended. The preliminary analysis found a large number of leases. Operating leases were primarily found for the following assets in the Group:

- branch offices,
- office space,
- building rights,
- motor vehicles,
- advertising space and
- parking spaces.

Due to the large number of leases, management decided to use a project team to implement a Group-wide IT tool. The software will be used to calculate and amortise the rights-of-use and lease liabilities in the future in accordance with IFRS 16. The Group subsidiaries are currently entering leases relevant to IFRS 16 into the programme. The Group is currently assuming that the effect on the balance sheet as of 1 January 2019 before elimination of intragroup transactions will be less than EUR 500 million, but the reported data is still undergoing quality checks. Due to these checks, the precise effect on total balance sheet assets cannot be reliably estimated at this time.

Significant estimates and discretionary decisions exist in particular for the terms of leases with unlimited terms, and estimates for the exercise of purchase, extension and termination options. The estimates are the responsibility of the management of the reporting company. As a rule, past experience is used when assessing options and lease terms.

IFRS 9 - "FINANCIAL INSTRUMENTS" AND AMENDMENTS TO IFRS 4 - "INSURANCE CONTRACTS"

IFRS 9 includes requirements for the recognition, measurement and derecognition of financial instruments, and for hedge accounting, and supersedes IAS 39, which was previously relevant in these areas. The revision primarily concerns the classification and recognition of financial instruments. Financial assets are to be classified and measured in only two groups in the future – at amortised cost and at fair value. Classification and measurement depends on the business model and contractual cash flows (SPPI criterion). The new provisions also concern the accounting for impairment of financial assets. In addition to incurred losses (incurred loss model), expected losses are also recognised (expected credit loss model). Exceptions exist for trade receivables and lease receivables. New requirements were also provided for hedge accounting. The objective is to orient hedge accounting more to the economic risk management of the entity.

When IFRS 9 is applied, the previous classification for financial assets available for sale is no longer needed. In this category, fair value changes were recognised directly in equity in other comprehensive income. Unrealised gains and losses are primarily recognised in other comprehensive income and, in the case of disposals, reclassified to profit or loss. IFRS 9 makes a distinction between equity and debt instruments in the fair value measurement class. The distinction is mainly that both unrealised gains and losses and impairment of equity instruments (e.g. shares) are not recognised in profit or loss at any time. In the case of debt instruments (e.g. bonds, loans), the provisions in IAS 39 "Financial instruments available for sale" apply analogously. This amendment can be expected to lead to considerably higher volatility of profit for the period. Further amendments which are likely to have greater effects on the Group primarily concern the treatment of interest clauses in debt instruments and the treatment of impairment.

The amendments to IFRS 4 "Insurance contracts" allow insurance companies to defer application of the new IFRS 9 "Financial instruments" until 1 January 2022 (subject to endorsement of the standard by the EU). Business activities must primarily be connected with the insurance business in order to use the deferral. This is only the case if the share of the book value of all insurance liabilities exceeds 90% of the total liabilities of the Group, or the share is between 80 and 90% and the Group does not pursue any other significant activities other than the insurance business.

The Group performed the required calculations on the basis of 31 December 2015 and satisfies the criteria for deferral of IFRS 4 with a result of more than 90%. As a result, IFRS 9 will be applied at the same time as IFRS 17 (provided first-time application of IFRS 17 takes place on 1 January 2022). For associated companies and joint ventures that have applied IFRS 9 since 1 January 2018, the Group has chosen in accordance with IFRS 4 to include them in the consolidated interim financial statements without adjustment. IFRS 4 does not require periodic evaluation of the predominant business activity, only evaluation if there is a change in the entity's business activities. If the deferral is used, the change to IFRS 4 requires additional notes disclosures to be published during the period until application of IFRS 9.

The Group expects the changeover to IFRS 9 to have effects due to the new impairment model and interactions with IFRS 17. The classification of investments based on the SPPI criteria (Solely Payments of Principal and Interest) has already been implemented.

The Group expects, however, the introduction of IFRS 9 and 17 to lead to additional expenses.

IFRS 17 - "INSURANCE CONTRACTS"

The International Accounting Standards Board (IASB) issued IFRS 17, the accounting standard for insurance contracts, on 18 May 2017. Various international bodies have discussed numerous interpretation and implementation issues since the standard was issued. In November 2018, the IASB made a preliminary decision to defer the date of first application of IFRS 17 to 1 January 2022 and to extend the temporary exemption from applying IFRS 9 for insurance companies. IFRS 9 and IFRS 17 are therefore simultaneously applicable starting in 2022. The preliminary deferral of the date of first application confirms the uncertainty shown by the IASB's discussions about possible amendments to IFRS 17. The proposed deferral and other proposed amendments are subject to a public consultation that is expected to take place in 2019. Based on the discussions and IASB schedule, the European Financial Reporting Advisory Group (EFRAG) will work on a recommendation to the EU Commission concerning endorsement of IFRS 17 in EU law.

IFRS 4, which is still currently valid, is to be applied until IFRS 17 enters into effect. IFRS 4 allows local accounting practices to be used for insurance contracts in the consolidated balance sheet. The IASB imposes uniform accounting policies for insurance contracts for the first time in IFRS 17.

IFRS 17 provides three measurement models for measuring insurance contracts:

- Measurement is performed, as a rule, using the general measurement model (GMM) based on a prospective method. The model is based on the concept of contract fulfilment and uses current assumptions. When the GMM is used for measurement, future cash inflows and outflows are discounted and adjusted using a risk margin. First-time measurement of insurance contracts results in either a profit margin (contractual service margin – CSM) that is distributed over the term of the contract, or a loss component that is recognised immediately in the income statement. There are a number of exceptions and special provisions for the GMM that concern groups of investment contracts with discretionary participation features and reinsurance cessions as well as two other measurement models.
- A simpler measurement model the premium allocation approach (PAA) may be used for short-term contracts and low volatility insurance contracts. The simplified approach used by the PAA is similar to the unearned premium model currently used to account for property and casualty insurance, with the difference that the loss reserve is also accounted for using an expected present value and a risk margin.
- There is a mandatory measurement model for contracts that are eligible for profit participation and unit-linked and index-linked life insurance the variable fee approach (VFA). Measurement is, as a rule, performed according to the GMM, but the CSM is variable in the VFA due to the profit participation.

Measurement units are determined using the following steps:

- Portfolio: Insurance contracts are combined into portfolios
- Group: Portfolios are divided into groups
- Groups are divided according to underwriting year (annual cohorts)

For initial recognition, IFRS 17 requires insurance contracts to be combined into portfolios that comprise all insurance contracts that are subject to similar risks and managed together.

Each portfolio must be divided into at least the following groups:

- onerous contracts
- · contracts that have no significant possibility of becoming onerous
- other contracts

Here is a summary of the most important changes in the accounting for insurance contracts:

- the use of current assumptions for measuring underwriting provisions,
- introduction of CSM for the unrealised future profits of a group of insurance contracts,
- · elimination of savings components as income,
- the choice to report the effect of discounting cash flows with current interest rates in other comprehensive income instead of the income statement.

A preliminary study of the technical and substantive requirements of IFRS 17 was performed before the start of the Groupwide IFRS 17 project. After analysing the results of the preliminary study, a Group-wide project structure was established. Due to existing substantive uncertainties, it is not currently possible to quantify the effect on individual balance sheet and income statement items.

FOREIGN CURRENCY TRANSLATION

Foreign currency transactions

The separate financial statements of each Group subsidiary are prepared in the currency that generally prevails for the ordinary business activities of the company (functional currency). Transactions not concluded in the functional currency are recognised using the mean rate of exchange on the date of the transaction. Monetary assets and liabilities in foreign currency existing on the balance sheet date are translated to euros using the mean rate of exchange on the balance sheet date. Any resulting foreign currency gains and losses are recognised through profit or loss during the reporting period.

Translation of separate financial statements in foreign currencies

These consolidated financial statements present assets, liabilities, income and expenses in euros, the reporting currency of VIG. All assets and liabilities reported in the separate financial statements are translated to euros using the mean rate of exchange on the balance sheet date. Items in the income statement are translated using the average month-end mean rate of exchange during the reporting period. In the statement of cash flows, the mean rate of exchange on the balance sheet items, and the mean rate of exchange at the end of the period is used for income statement items. Unless otherwise indicated, all of the financial information presented in euros has been commercially rounded. Currency translation differences, including those that result from accounting using the equity method, are recognised directly in equity.

| Name | Currency | End-of-period exc | change rate | Average exchange rate | |
|---------------------------|----------|-------------------|-------------|-----------------------|----------|
| | | 31.12.2018 | 31.12.2017 | 2018 | 2017 |

ESTIMATES AND DISCRETIONARY DECISIONS

Preparation of the IFRS consolidated financial statements requires that the Managing Board make discretionary assessments and specify assumptions regarding future developments which could have a material effect on the recognition and value of assets and liabilities, the disclosure of other obligations on the balance sheet date and the reporting of income and expenses during the financial year.

| Estimation uncertainties | | Discretionary decisions | |
|---|---|-------------------------|--|
| Underwriting provisions | Details on page 63 | Method of consolidation | Details on page 53 and starting on page 69 |
| Provisions for pensions and similar obligations | Details on page 67 | Materiality | Details on page 53 |
| Other non-underwriting provisions | Details on page 67 | | |
| Financial instruments measured at fair value not based on stock market prices or other marked prices (Level 3) | Details on page 52 and starting on page 144 | | |
| Impairment of goodwill | Details on page 52 | | |
| Valuation allowances for receivables and other (accumulated) impairment losses | Details on page 52 | _ | |
| Value of deferred tax assets | Details on page 52 | _ | |

Please refer to the consolidated balance sheet on page 37 or to the corresponding disclosures in the notes to the consolidated balance sheet. Sensitivity analyses for assets and liabilities from insurance operations are presented in the risk report starting on page 97.

Provisions for pensions and similar obligations

The present value of an obligation depends on a large number of factors based on actuarial assumptions. The assumptions used to calculate the net liability (or assets) for obligations include a discount rate. Every change to these assumptions has an effect on the book value of the obligation.

The Group calculates the appropriate discount rate at a minimum at the end of each year. This is the rate used to calculate the present value of the future expected cash outflows needed to satisfy the obligation. The Group determines the discount rate using the interest rate on top quality industrial bonds that are denominated in the currency in which the benefits will be paid and have maturities matching those of the obligations.

Other important assumptions used to calculate obligations are based on market conditions. Further information on sensitivity analyses is provided in Note 12.1. Provisions for pensions and similar obligations starting on page 128. Details on the underlying assumptions can be found in the "Accounting policies for specific items in the consolidated financial statements – Provisions for pensions and similar obligations" section on page 67.

Other non-underwriting provisions

Provisions are recognised in accordance with the requirements of IAS 37.14. Non-underwriting provisions accordingly include estimates in connection with the amount recognised and an estimate of the probability of occurrence for settling the obligation.

Financial instruments recognised at fair value

Suitable valuation methods are used to calculate the fair value of financial instruments that are not traded in active markets. The assumptions used are based on market data available on the balance sheet date. To determine the fair value of many financial assets that are not traded in active markets, the Group uses present value methods based on appropriate interest rate models. Further information on the valuation process is provided in Note 22. Financial instruments and fair value measurement hierarchy on page 144. For information on the impairment of financial instruments, please see page 60.

Impairment of goodwill

The Group tests goodwill for impairment at least once a year in accordance with the method explained on page 54 of the "Impairment of non-financial assets" section. Estimates in this area primarily concern the projected earnings of the CGUs that the calculations are based on, and specific parameters, in particular the growth rates and discount rates.

| Sensitivities Additional impairment needed | Cash flows | Growth rate | Discount rate | Cash flows and discount rate |
|---|------------|-------------|---------------|---------------------------------|
| | -10% | -1%p | +1%p | -10% and +1%p |
| in EUR millions | | | | |
| Romania | | | | -33.5 |
| Baltic states | | | | -10.1 |
| Bulgaria | | | -8.3 | -37.1 |
| Albania incl. Kosovo | -2.0 | -0.5 | -2.2 | -5.1 |
| Bosnia-Herzegovina | -2.6 | -1.3 | -2.4 | -4.1 |
| | | | | |

Valuation allowances for receivables

The collectability of receivables is based on experience and is therefore subject to estimation uncertainty. Information on the recognition of potential impairment losses is provided on page 61.

Value of deferred tax assets

Income taxes must be estimated for each tax jurisdiction in which the Group operates. The current income tax expected for each taxable entity must be calculated and the temporary differences due to differences between the IFRS treatment and tax treatment of certain balance sheet items must be assessed. If temporary differences exist, as a rule they lead to the recognition of deferred tax assets and liabilities in the financial statements based on the tax rate for each country.

The Managing Board must make judgements when calculating current and deferred taxes. Deferred tax assets are only recognised to the extent that it is probable they can be utilised. The utilisation of deferred tax assets depends on the likelihood of achieving sufficient taxable income of a particular tax type for a particular tax jurisdiction, while taking into account any statutory restrictions concerning maximum loss carryforward periods. The Group considers the following factors when assessing the probability of being able to utilise deferred tax assets in the future:

- past results of operations,
- operating plans,
- loss carryforward periods,
- tax planning strategies and
- existing deferred tax liabilities.

Information on the existing group agreement for Austrian companies and some foreign companies is provided on page 63.

If actual events diverge from the estimates or the estimates must be adjusted in future periods, this could have an adverse effect on net assets, financial position and results of operations. If the assessment of the recoverability of deferred tax assets changes, the book value must be reduced or increased and the change recognised in the income statement or charged or credited to equity, depending on the treatment used when the deferred tax asset was originally recognised. Further information can be found in the section titled "Accounting policies for specific items in the consolidated financial statements – Taxes" starting on page 62 and in Note 6. Deferred taxes on page 117

Method of consolidation

Discretionary decisions by the Managing Board primarily concern determining the scope of consolidation for fully consolidated companies and at equity consolidated companies. Note that other discretionary decisions could also have material effects on the net assets and results of operations of the Group.

Companies that were of material importance at the time of first consolidation continue to be included in the scope of consolidation. In addition, two companies that offer special services or receive most of their revenues from outside the Group are included in the consolidated financial statements using full consolidation. Companies are not included in the scope of consolidation if the revenues from their business activities are primarily generated and charged within the Group and do not generate any significant profits.

Thresholds calculated based on previous quarterly financial statements and the latest annual financial statements are used to determine the current scope of consolidation.

The effect on the Group result due to all the companies in which the Group holds less than a 20% interest and that are not consolidated would be 1.3% (not including any consolidation effects).

Materiality

Under IAS 1.31, only material information is to be presented in the financial statements, even if a standard specifies certain requirements or minimum requirements. The IASB's aim in this paragraph was to create the foundation for clear, understandable financial reporting based on the most important information. Discretionary leeway exists when deciding whether information concerns material or immaterial disclosures. VIG introduced the use of a threshold for determining the materiality of notes disclosures in this Annual Report. The threshold is not applied if the Managing Board is of the opinion that information should be published in any case.

ACCOUNTING POLICIES FOR SPECIFIC ITEMS IN THE CONSOLIDATED FINANCIAL STATEMENTS

INTANGIBLE ASSETS (A)

Goodwill

Goodwill is accounted for in the functional currency of each entity. Goodwill is measured at cost less accumulated impairment losses. In the case of participations in associated companies, goodwill is included in the adjusted book value of the participation.

Other intangible assets

Purchased intangible assets are recognised on the balance sheet at cost less accumulated amortisation and impairment losses. No intangible assets were created by the companies in the scope of consolidation. Corporate asset SAP also essentially consists of a bundle of purchased software modules that are prepared for future use by in-house and third-party development work. Regular monitoring and assessment of the project ensures that the recognition criteria for capitalising these expenses are satisfied. With the exception of trademarks, all intangible assets have a finite useful life. The intangible assets are therefore amortised over their period of use. The useful lives of significant intangible assets are as follows:

| Average useful life in years | from | to |
|------------------------------|------|----|
| Software | 6 | 10 |

Software is amortised using the straight-line method. Software components are also checked on an event-driven basis to see whether they can still be used. If there is a high probability that certain IT systems or programme sections can no longer be used, or no longer be fully used, a write-down must be performed. Further information is provided in the notes to the consolidated balance sheet 1 Intangible assets starting on page 104.

Trademarks with unlimited useful lives were identified as part of the purchase price allocation during acquisition of the companies Asirom, BTA Baltic and Seesam Insurance. The indefinite useful life results from the fact that there is no foreseeable end to their economic life. The fair value of the Asirom trademark at the time was calculated as the average of the trademark values from the relief-from-royalty method and incremental cash flow method, and the fair value of the BTA Baltic and Seesam Insurance trademarks was calculated using the relief-from-royalty method. A "tax amortisation benefit" was taken into account in the relief-from-royalty method. The Asirom trademark had a book value of EUR 16,989,000 (EUR 18,043,000), the BTA Baltic trademark had a book value of EUR 37,000,000 (EUR 37,000,000) and the Seesam Insurance trademark had a book value of EUR 13,000,000 on 31 December 2018.

Impairment of non-financial assets

Non-financial assets are tested for impairment on an event-driven basis. Intangible assets with an indefinite useful life (goodwill and trademarks carried on the balance sheet) are tested when a triggering event occurs, including during the year, and at a minimum at the end of the financial year. The subsidiaries are combined into economic units (CGU groups) at the geographical country level for the test. The CGU groups used for impairment testing essentially correspond to the VIG operating segments. The trademarks were also individually tested for impairment using the relief-from-royalty method.

Goodwill impairment is only recognised if the recoverable amount for the CGU group is less than the book value of the assets attributable to the group. As a rule, the value in use is calculated using the Discounted Cash Flow method. In cases where the value in use is less than book value, fair value less selling costs is also calculated. Fair value less selling costs is calculated using trailing stock exchange multipliers for the property and casualty and health lines of business in all regions and for the life business outside Austria. For the life business in Austria the Market Consistent Embedded Value is used. If

one of the two values is more than book value then no write-down is performed, otherwise the value is written down to the larger of the values.

To calculate value in use, the cash flows available to shareholders for five budget years and the following perpetual annuity are discounted. All subsidiaries prepare detailed budgets in local currency for three years that are approved by the applicable supervisory boards and checked for plausibility on the Group level as part of the planning and control process. Currencies are translated to euros using the end of period rate on the 31 December. Extrapolation of the budget projections for a further two years and the perpetual annuity is performed using key parameters (combined ratios, premium growth, financial income) based on their past values and expected future market changes. The predicted cash flows for the perpetual annuity are assumed to continue forever.

All of the underwriting business assets are assigned to the CGU groups. In addition to goodwill and trademarks, these also include all insurance portfolios and customer bases, investments, receivables and other assets. Underwriting provisions and current liabilities are deducted from the book values. Assets held at the Group level but used by the operating companies are allocated to the CGU groups in the form of corporate assets. The cash flows of the CGU groups are accordingly adjusted for amortisation of the allocated corporate assets.

To calculate the discount rates, the capital asset pricing model (CAPM) is used to calculate a cost of equity capital. The risk-free interest rate (equal to the yield on German government bonds on the reporting date calculated using the Svensson method), country-specific inflation differentials and risk premiums, and sector-specific market risk are added to this. The base rate before inflation differentials was 0.95% (1.34%). The market risk of 6.55% (6.16%) was multiplied by a beta factor of 0.80 (0.96) that was calculated based on a specified peer group.

The long-term growth rates are calculated during the financial year based on the compound annual growth rate (CAGR) assuming that insurance penetration in the countries concerned starting in 2013 will converge in 50-70 years with the current situation in Germany. An inflation adjustment equal to half of the inflation included in the cost of equity was added to the CAGR.

| CGU groups | Discount rate | S | Country ris | sks | Long-term gro | wth rate |
|----------------------|---------------|-------|-------------|-----------|---------------|------------|
| | 2018 | 2017 | 2018 | 2017 | 2018 | 2017 |
| in % | | | | | | |
| Austria | 6.74 | 7.71 | 0.55 | 0.46 | 1.50 | 1.50 |
| Czech Republic | 6.88 | 7.88 | 0.98 | 0.81 | 3.91-4.63 | 3.94-4.31 |
| Slovakia | 7.37 | 8.23 | 1.18 | 0.98 | 4.89-5.30 | 4.96-5.24 |
| Poland | 7.63 | 8.56 | 1.18 | 0.98 | 5.01-5.62 | 5.30-5.68 |
| Romania | 9.56 | 10.46 | 3.06 | 2.54 | 5.40-7.28 | 5.46-7.67 |
| Baltic states | 7.63 | 8.44 | 1.44 | 1.19 | 4.88-5.49 | 5.14-5.51 |
| Hungary | 10.00 | 10.64 | 3.06 | 2.54 | 5.77-6.03 | 5.86-6.13 |
| Bulgaria | 8.82 | 9.21 | 2.64 | 2.19 | 6.29-6.63 | 6.17-6.49 |
| Georgia | 11.05 | 11.60 | 4.17 | 3.46 | 6.34 | 6.44 |
| Turkey | 22.58 | 16.05 | 5.00 | 2.88 | 10.44 | 7.41 |
| Germany | 6.19 | 7.25 | 0.00 | 0.00 | 1.50 | 1.50 |
| Liechtenstein | 6.19 | 7.25 | 0.00 | 0.00 | 1.50 | 1.50 |
| Albania incl. Kosovo | 13.11 | 13.25 | 6.25 | 5.19 | 6.72 | 6.74 |
| Bosnia-Herzegovina | 14.68 | 14.28 | 9.03 | 7.50 | 5.13-7.08 | 5.30-7.28 |
| Croatia | 9.71 | 10.21 | 4.17 | 3.46 | 4.93-6.26 | 4.98-6.26 |
| North Macedonia | 10.96 | 11.16 | 5.00 | 4.15 | 5.75 | 5.64 |
| Moldova | 18.05 | 17.61 | 9.03 | 7.50 | 9.22 | 9.16 |
| Serbia | 11.78 | 12.22 | 5.00 | 4.15 | 5.61-7.16 | 5.75-7.18 |
| Ukraine | 21.96 | 21.45 | 12.50 | 10.38 | 8.50-12.82 | 8.89-12.94 |
| Central Functions | 6.74–11.78 | 7.80 | 0.55-5.00 | 0.46-0.81 | 1.50-7.16 | 1.50-4.31 |

| Impairment and recoverable amounts for CGU groups | 2018 | | 2017 | |
|---|------------|-----------------------|------------|-----------------------|
| | Impairment | Recoverable amount | Impairment | Recoverable amount |
| in EUR millions | | | | |
| Romania | 50.1 | 325.6 | | |
| Turkey | 5.1 | 18.0 | | |
| Albania incl. Kosovo | | | 2.5 | 23.9 |
| Moldova | | | 5.9 | 4.3 |
| Ukraine | | | 11.1 | 27.8 |

Impairment of non-financial assets is recognised in other non-underwriting expenses in the income statement.

INVESTMENTS (B)

General information

In accordance with the relevant IFRS requirements, some Group assets and liabilities are carried at fair value in the consolidated financial statements. This concerns a significant portion of investments. The Group assigns all financial instruments measured at fair value, and assets and financial liabilities not measured at fair value – whose fair values are to be published in the notes to the financial statements – to one of the levels of the IFRS 13 measurement hierarchy. As a result of the decentralised organisational structure of the Group, the individual subsidiaries are responsible for this fair value categorisation. This takes account, in particular, of local knowledge of the quality of the individual fair values and any input parameters needed for model valuation.

Fair values are determined using the following hierarchy specified in IFRS 13:

- The determination of fair value for financial assets and liabilities is generally based on price quotations in active markets for identical assets or liabilities (Level 1).
- If a financial instrument is not listed and no market price quotations are available in active markets, fair value is
 determined using market price quotations for similar assets or market price quotations in inactive markets (Level 2).
 Standard valuation models with inputs that are observable in the market are used for Level 2 measurements. These
 models are primarily used for illiquid bonds (present value method) and structured securities.
- The fair value of certain financial instruments, in particular bonds from countries without active capital markets and land and buildings, is determined using valuation models with input factors that are generally unobservable in the market. These models use, for example, transactions in inactive markets, expert reports and the structure of cash flows (Level 3).

The table below lists the methods used and most important input factors for Levels 2 and 3. The calculated fair values can be used for recurring and non-recurring measurements.

| Pricing method | Used for | Fair Value | Input parameters |
|---|--|-------------------|---|
| Level 2 | | | Obervable |
| Present value method | Bonds; borrower's note loans; loans; securitised liabilities and subordinated liabilities | Theoretical price | Issuer, sector and rating-dependent yield curves |
| Hull-White present value method | Bonds; borrower's note loans; loans; securitised liabilities and subordinated liabilities with call options | Theoretical price | Maturity dependent implied volatilities; issuer, sector and rating-dependent yield curves |
| Libor market model present value method | Bonds and borrower's note loans with other embedded derivates | Theoretical price | Money market and swap curves; implied volatility surface; cap & floor volatilities; issuer, sector and rating- dependent yield curves |
| Present value method | Currency futures contracts | Theoretical price | Exchange rates; money market curves for the currencies concerned |
| Present value method | Interest rate/currency swaps | Theoretical price | Exchange rates; money market and swap curves for the currencies concerned |
| Option pricing models | Stock options | Theoretical price | Share prices on the valuation date; implied volatilities; yield curve |
| Level 3 | | | (Un-)observable |
| Option pricing models | Stock options | Theoretical price | Share prices on the valuation date; volatilities; yield curve |
| Market value method | Real estate | Appraisal value | Real estate-specific income and expense parameters; capitalisation rate; data on comparable transactions |
| Discounted cash flow model | Real estate | Appraisal value | Real estate-specific income and expense parameters; discount rate; indexes |
| Multiples approach | Shares | Theoretical price | Company-specific earnings figures; typical industry multipliers |
| Discounted cash flow model | Shares | Theoretical price | Company-specific earnings figures; discount rate |
| Share of capital | Shares | Book value | Company-specific equity according to separate financial statements |
| Amortised cost | Fixed income instruments (illiquid bonds, policy loans, loans) with no observable input data for comparable assets | Book value | Cost-price; redemption price; effective yield |

For further information, please see Note 22. Financial instruments and fair value measurement hierarchy on page 144.

The following table presents the relationships between balance-sheet items and classes of financial instruments according to IFRS 7, incl. the basis of the measurements:

| Balance sheet items, IAS 39 Categories and classes of financial instruments according to IFRS 7 | Measurement method |
|---|--------------------|
| Financial assets | |
| Loans and other investments | At amortised costs |
| Financial instruments held to maturity | At amortised costs |
| Financial instruments available for sale | At fair value |
| Financial instruments recognised at fair value through profit and loss* | At fair value |
| Investments for unit-linked and index-linked life insurance | At fair value |
| Financial liabilities | |
| Subordinated liabilities (other liabilities) | At amortised costs |
| iabilities to financial institutions (other liabilities) | At amortised costs |
| Financing liabilities (other liabilities) | At amortised costs |
| Derivative liabilities (other liabilities) | At fair value |

*Including held for trading

Land and buildings

Both self-used and investment properties are reported under land and buildings. Property that is both self-used and investment property is divided as soon as the self-used or investment portion exceeds 20%. If the 20% limit is not exceeded, the entire property is reported in the larger category (80:20 rule).

Costs incurred in later periods are only capitalised if they lead to a significant increase in future opportunities for use of the building (e.g. through building expansion or new building construction).

Self-used and investment buildings are both depreciated using the straight-line method over the expected useful life. The following useful lives are assumed when determining depreciation rates:

| Average useful life in years | from | to |
|------------------------------|------|----|
| Buildings | 31 | 50 |

SELF-USED LAND AND BUILDINGS

Self-used real estate is measured at cost minus accumulated depreciation and impairment losses. Cost comprises all costs incurred in putting the asset into its present location in its present condition.

For self-used property, imputed arm's length rental income is generally recognised as investment income, and an equivalent amount of rental expenses is recognised as material costs in the operating expenses.

INVESTMENT PROPERTY

Investment property consists of real estate that is held to earn rental income or for capital appreciation and not for the provision of services, administrative purposes or for sale in the ordinary course of business. Investment property is measured at cost minus accumulated depreciation and write-downs.

IMPAIRMENT OF LAND AND BUILDINGS

Real estate appraisals are performed at regular intervals for self-used real estate and investment property by sworn and judicially certified building construction and real estate appraisers. Market value is determined based on the capitalised earnings method, with the asset value method generally only being used for undeveloped property – provided it is not leased. The discounted cash flow method is used in exceptional cases.

If the fair value is below the book value (cost minus accumulated depreciation and write-downs), the asset is impaired. In this case, the book value is written down to fair value through profit or loss. The method used to test for impairment is also used to test for a reversal of impairment. On each balance sheet date, a test is performed for indications that a reversal of impairment has taken place. The book value after the reversal may not exceed the book value that would have existed (taking into account amortisation or depreciation) if no impairment had been recognised.

Impairment is reported in the financial result in the income statement and is shown starting on page 135. The fair values and level hierarchy according to IFRS 13 are shown in 22. Financial instruments and fair value measurement hierarchy starting on page 144.

Financial instruments

Financial instruments are divided into the following categories in accordance with the requirements of IAS 39:

- Loans and other receivables,
- Financial instruments held to maturity,
- Financial instruments available for sale,
- Financial instruments recognised at fair value through profit and loss and
- Financial instruments held for trading.

On initial recognition, the corresponding investments are measured at cost, which equals fair value at the time of acquisition. For subsequent measurement of financial instruments, two measurement methods are used.

LOANS, OTHER RECEIVABLES AND FINANCIAL INSTRUMENTS HELD TO MATURITY

Loans and other receivables and financial instruments held to maturity are subsequently measured at amortised cost. The amortised cost is determined using the effective interest rate of the asset in question. A write-down is recognised in profit or loss in the case of permanent impairment.

The current income recorded in the income statement is essentially interest income.

FINANCIAL INSTRUMENTS AVAILABLE FOR SALE

These financial instruments are non-derivative financial assets that are designated as available for sale and are not classified as loans and other receivables, held-to-maturity financial instruments or financial assets at fair value through profit or loss.

Financial instruments available for sale are measured at fair value. Fluctuations in value are recognised in other comprehensive income and reported in equity in other reserves. This does not include impairment, which is recognised in profit and loss. Upon disposal, the cumulative gains and losses recognised in other reserves in previous periods are transferred to the result for the period (recycling).

Spot transactions are accounted for at the settlement date.

FINANCIAL INSTRUMENTS RECOGNISED AT FAIR VALUE THROUGH PROFIT AND LOSS

Changes in fair value are recognised in profit or loss in the income statement. The financial instruments assigned to this category are predominantly structured investments ("hybrid financial instruments") that the Group has elected under IAS 39.11A and IAS 39.12 to assign to the category of "financial instruments at fair value through profit or loss". Structured investments are assigned to this category if the derivatives embedded in the host contract (as a rule securities or loans) are not closely related to the host contract so that otherwise the requirement under IAS 39 of isolating them from the host contract and measuring them separately at fair value would apply.

AMENDMENTS TO IAS 39 AND IFRS 7 - "RECLASSIFICATION OF FINANCIAL ASSETS"

In October 2008, the IASB published amendments to IAS 39 and IFRS 7 under the title "Reclassification of financial assets". The adjusted version of IAS 39 permits reclassification of non-derivative financial assets (except for financial instruments that were measured using the fair value option upon initial recognition) in the "held-for-trading" and "available-for-sale" categories.

The amendments to IAS 39 and IFRS 7 went into effect retroactively to 1 July 2008 and were applied prospectively from the time of reclassification. Reclassifications performed in VIG before 1 November 2008 used fair values as of 1 July 2008. Further details are provided on page 110 and page 112.

Derecognition of financial instruments is performed when the Group's contractual rights to their cash flows expire.

IMPAIRMENT OF FINANCIAL INSTRUMENTS

On each balance sheet date, the book values of financial assets not measured at fair value through profit or loss are tested for objective evidence of impairment. Such evidence could be, for example, the debtor experiencing significant financial difficulties, a high probability of insolvency proceedings against the debtor, the loss of an active market for the financial asset, a significant change in the technological, economic, legal or market environment of the issuer, or a permanent decrease in the fair value of the financial asset below amortised cost. The Managing Board has considerable discretion when quantifying the influence of information that could affect the creditworthiness, rating and/or earning power of a debtor.

Any impairment losses due to fair value lying below the book value are recognised in profit or loss.

If any changes to the fair value of available for sale financial instruments were previously recognised directly in equity, these changes must be eliminated from equity and recognised in profit or loss on the income statement. As a rule, impairment of equity instruments is to be recognised if the average fair value during the last six months was consistently less than 80% of the historical cost of acquisition and/or if the fair value as of the reporting date is less than 50% of the historical cost of acquisition.

INVESTMENTS FOR UNIT-LINKED AND INDEX-LINKED LIFE INSURANCE (C)

Investments for unit-linked and index-linked life insurance provide cover for unit-linked and index-linked life insurance underwriting provisions. The survival and surrender payments for these policies are linked to the performance of the associated investments for unit-linked and index-linked life insurance, with the income from these investments also credited in full to policyholders. As a result, policyholders bear the risk associated with the performance of the investments for unit-linked life insurance.

These investments are held in separate cover funds, and managed separately from the other investments of the Group. Since the changes in value of the investments for unit-linked and index-linked life insurance are equal to the changes in value of the underwriting provisions, these investments are valued in accordance with the requirements of IAS 39.9b. Investments for unit-linked and index-linked life insurance are therefore measured at fair value, and changes in value are recognised in the income statement.

REINSURERS' SHARE IN UNDERWRITING PROVISIONS (D)

The reinsurers' share in underwriting provisions is measured in accordance with contractual provisions.

The credit quality of each counterparty is taken into account when the reinsurers' share is measured. As a result of the good credit quality of the Group's reinsurers, no valuation allowances were needed for reinsurer shares as of the 31 December 2018 and 31 December 2017 balance sheet dates.

Information on the selection of reinsurers is provided in the "Financial instruments and risk management" section starting on page 82.

RECEIVABLES (E)

The receivables shown in the balance sheet relate in particular to the following receivables:

- Receivables from direct insurance business
 - from policyholders
 - from insurance intermediaries
 - from insurance companies
- Receivables from reinsurance business
- Other receivables

As a rule, receivables are reported at cost less impairment losses for losses already incurred but not yet known (e.g. death that is not yet known). In the case of receivables from policyholders, expected impairment losses from non-collectable premium receivables are shown on the liabilities side of the balance sheet under "Other underwriting provisions" (provisions for cancellations), or deducted from the premium receivable using a valuation allowance. The amounts included are shown in Note 5. Receivables on page 116.

TAXES (F)

Income tax expenses comprise actual taxes and deferred taxes. The income tax associated with transactions recognised directly in equity is also recognised directly in equity. The actual taxes for the individual VIG companies are calculated using the company's taxable income and the tax rate applicable in the country in question.

Deferred taxes are calculated using the balance sheet liability method for all temporary differences between the asset and liability values recognised in the IFRS consolidated financial statements and the individual company tax bases for these assets and liabilities. Under IAS 12.47, deferred taxes are measured using the tax rates applicable at the time of realisation. In addition, any probable tax benefits realisable from existing loss carryforwards are included in the calculation. Exceptions to this deferral calculation are differences from non-tax-deductible goodwill and any deferred tax differences linked to participations.

Deferred tax assets are not recognised if it is not probable that the tax benefits they contain can be realised. Deferred taxes are calculated using the following tax rates:

| Tax rates | 31.12.2018 | 31.12.2017 |
|----------------------|------------|------------|
| in % | | |
| Albania | 15.0 | 15.0 |
| Bosnia-Herzegovina | 10.0 | 10.0 |
| Bulgaria | 10.0 | 10.0 |
| Germany | 30.0 | 30.0 |
| Estonia ¹ | 0.0 | 0.0 |
| Georgia ² | 15.0 | 15.0 |
| Kosovo ³ | 0.0 | 0.0 |
| Croatia | 18.0 | 18.0 |
| Latvia ⁴ | 0.0 | 0.0 |
| Liechtenstein | 12.5 | 12.5 |
| Lithuania | 15.0 | 15.0 |
| North Macedonia | 10.0 | 10.0 |
| Moldova | 12.0 | 12.0 |
| Austria | 25.0 | 25.0 |
| Poland | 19.0 | 19.0 |
| Romania | 16.0 | 16.0 |
| Serbia | 15.0 | 15.0 |
| Slovakia | 21.0 | 21.0 |
| Czech Republic | 19.0 | 19.0 |
| Turkey | 20.0 | 20.0 |
| Ukraine | 18.0 | 18.0 |
| Hungary | 11.3 | 9.0 |

¹ Basically, the reinvested profits of locally domiciled companies are not subject to corporate income tax. Profit distributions by the companies are subject to a tax rate of 14% to 20%.

² As a rule, the reinvested profits of locally domiciled companies will not be subject to corporate income tax starting 1 January 2023. The planned implementation date was postponed from 1 January 2019 to 1 January 2023.

³ Insurance companies will be subject to 5% corporate income tax on their gross premiums.

⁴ Change in the tax system effective 1 January 2018: No tax on reinvested profits. Distributions are taxed at a rate of 20%.

Group taxation

Within the Group there is a corporate group of companies within the meaning of § 9 of the Austrian Corporate Income Tax Act (KStG), with Wiener Städtische Versicherungsverein as the parent company. The taxable earnings of group members are attributed to the head of the tax group. The head of the tax group has entered into agreements with each group member governing the allocation of positive and negative tax amounts for the purpose of allocating corporate income tax charges according to origin. If a group member earns positive income, 25% is allocated to the head of the tax group. In case of negative income, the group member receives lump-sum compensation equal to 22.5% of the tax loss. Since the tax allocation is 25% in the case of positive income, the group member should provide 10% of the tax benefit from group taxation resulting from inclusion of that group member in the group. Cash settlement of tax benefits is performed for a period of three years.

OTHER ASSETS (G)

Other assets are measured at cost less impairment losses. Depreciation is performed using the straight-line method over the expected useful life of the asset.

UNDERWRITING PROVISIONS (H)

Classification of insurance policies

Contracts under which a Group company assumes a significant insurance risk from another party (the policyholder), by agreeing to provide compensation to the policyholder if a specified uncertain future event (the insured event) negatively affects the policyholder are treated as insurance policies for the purposes of IFRS. A distinction is made between insurance risk and financial risk. Financial risk is the risk of a possible future change in specific interest rates, securities prices, price indices, interest rate indices, credit ratings, credit indices, or some other variable, provided that the variable is not specific to one counterparty in the case of a non-financial variable. In many cases, particularly in the life insurance area, insurance policies as defined in IFRS also transfer financial risk.

Policies under which only an insignificant insurance risk is transferred from the policyholder to the Group company are treated as financial instruments ("financial insurance policies") for IFRS reporting purposes. Such policies exist only to a minor extent in the personal insurance area.

Both insurance contracts and financial insurance policies can have contract terms that qualify as discretionary participation in net income ("profit participation", "profit-dependent premium refund"). Contractual rights are considered discretionary participation in net income if in addition to guaranteed benefits the policyholder also receives additional payments that are likely to constitute a significant portion of the total contractual payments and are contractually based on:

- the profit from a certain portfolio of policies or a certain type of policy, or
- the realised and/or unrealised investment income from a certain portfolio of assets held by the insurance company, or
- the profit or loss of the company, investment fund, or business unit (e.g. balance sheet unit) holding the contract.

Policies with discretionary net income participation exist in all VIG countries, primarily in the life insurance balance sheet unit, and to a secondary extent in the property and casualty and health insurance areas as well, and are treated as insurance

policies in accordance with IFRS 4. The net income participation in life insurance exists essentially in the form of participation in the adjusted net income of the balance sheet unit in question calculated according to national accounting requirements. Net income or profit participation amounts that have already been allocated or committed to policyholders are reported in the mathematical reserve. Amounts reported in the local annual financial statements which have been committed or allocated to policyholders in the future by means of net income participation are reported in the balance sheet in the provision for performance-based premium refunds.

In addition, the profit-related portion resulting from IFRS measurement differences as compared to local measurement requirements (deferred profit participation) is also reported in the provision for profit-related premium refunds. This primarily concerns Austrian and German policies that are eligible for profit participation, as the profit participation in these countries is governed by regulations. Deferred profit participation is not recognised in balance sheets in other countries, since policyholder participation is at the sole discretion of the company concerned. The rate used for calculating deferred profit participation is 80% of the difference between the value recognised in the local financial statements and the value recognised in the IFRS financial statements.

As permitted by IFRS 4, the option to present unrealised gains and losses with the same effects on balance sheet measurements of underwriting provisions, capitalised acquisition costs and purchased insurance portfolios as realised gains and losses has been applied (shadow accounting). The first step is to allocate unrealised gains on available-for-sale financial instruments to a deferred mathematical reserve to serve as security for contractually agreed insurance payments. The policyholder's share of the surplus from the remaining unrealised gains is then allocated to a provision for deferred profit participation. Any remaining asset balance is reported as deferred policyholder profit participation resulting from measurement differences. This deferred item is only recognised if it is highly probable, at the Group company level, that the item can be satisfied by future profits in which the policyholders participate.

RECOGNITION AND ACCOUNTING METHODS FOR INSURANCE POLICIES

Based on the election provided in IFRS 4, the values recognised in the consolidated financial statements prepared in accordance with applicable national law are carried over to the IFRS consolidated financial statements. The national provisions are only carried over, however, if they satisfy the minimum requirements of IFRS 4. Equalisation and catastrophe provisions are therefore not recognised. In principle, accounting rules were not changed to differ from national accounting requirements, except when parameters used to calculate underwriting provisions did not lead to adequate funding for future provisions. In such cases, the Group uses its own parameters, which are consistent with these principles. In individual cases, the provisions formed locally by an insurance company for outstanding claims are increased in the consolidated financial statements based on the corresponding analysis. Detailed information on the valuation of underwriting items is available in the remarks for each item.

ADEQUACY TEST FOR LIABILITIES ARISING FROM INSURANCE POLICIES

Liabilities from insurance policies are tested at each balance sheet date for adequacy of the provisions recognised in the financial statements.

If the value calculated based on up-to-date estimates of current valuation parameters, taking into account all future cash flows associated with the insurance policies, is higher than the provisions formed for liabilities from insurance policies, an increase in the provisions is recognised in profit or loss to eliminate the shortfall.

Provision for unearned premiums

Under the current version of IFRS 4, figures in annual financial statements prepared in accordance with national requirements may be used for the presentation of figures relating to insurance policies in the consolidated financial statements. In Austria, a cost discount of 15% (15%) is used when calculating unearned premiums in the property and casualty balance sheet unit (10% for motor third party liability insurance (2017 10%)), corresponding to EUR 28,534,000 (EUR 28,354,000). Acquisition expenses in excess of this figure are not capitalised in Austria. For foreign companies in the property and casualty line of business a portion of the acquisition expenses is generally recognised in the same proportion as the ratio of net earned premiums to written premiums. To ensure uniform presentation within the Group, these capitalised acquisition costs are also shown in the consolidated financial statements as a reduction in the provision for unearned premiums: EUR 301,880,000 (EUR 281,392,000).

Mathematical reserve

Life insurance mathematical reserves are calculated using the prospective method as the actuarial present value of obligations (including declared and allocated profit shares and an administrative cost reserve) minus the present value of all future premiums received. The calculation is based on such factors as expected mortality, costs and the discount rate.

Basically, the mathematical reserve and related premium rate are calculated using the same basis, which is applied uniformly for the entire rate and during the entire term of the policy. The appropriateness of the calculation basis is reviewed each year in accordance with IFRS 4 and applicable national accounting requirements. Please refer to section Adequacy test for liabilities arising from insurance policies on page 64. For information on the use of shadow accounting, please see page 64. Basically, the official mortality tables of each country are used for the life balance sheet unit. If current mortality expectations differ to the benefit of policyholders from the calculation used for the rate, leading to a corresponding insufficiency in the mathematical reserves, the reserves are increased appropriately in connection with the adequacy test of insurance liabilities.

In the life insurance balance sheet unit acquisition costs are taken into account through zillmerisation or another actuarial method as a reduction of mathematical reserves. The resulting negative mathematical reserves are either set to zero in accordance with national requirements or reported in the mathematical reserve item in the consolidated financial statements. The following average discount rates are used to calculate mathematical reserves:

As of 31 December 2018: 2.07% As of 31 December 2017: 2.18%

In Austria, the average discount rate for life insurance was 1.88% during the reporting period (2.08%).

In addition, the share of unrealised gains and losses from available-for-sale financial instruments serving as security for contractual obligations is shown in the mathematical reserve as part of the shadow accounting performed according to IFRS 4. Further information is provided in the section Classification of insurance policies beginning on page 63.

In the health insurance balance sheet unit, mathematical reserves are also calculated according to the prospective method as the difference between the actuarial present value of future policy payments minus the present value of future premiums.

The loss frequencies used to calculate the mathematical reserve derive primarily from analyses conducted on the Group's own insurance portfolio. As a rule, the mortality tables used correspond to published mortality tables. The following discount rates are used for the great majority of transactions when calculating mathematical reserves:

As of 31 December 2018: 2.42% As of 31 December 2017: 2.80%

Provision for outstanding claims

National insurance law and national regulations (in Austria, the Austrian Insurance Supervision Act (VAG)) require VIG companies to form provisions for outstanding claims. The provisions are calculated for payment obligations arising from claims, which have occurred up to the balance sheet date but whose basis or size has not yet been established, as well as all related claims settlement expenses expected to be incurred after the balance sheet date, and, as a rule, are formed at the individual policy level. These policy-level provisions are marked up by a flat-rate allowance for unexpected additional losses. Except for the provisions for pension obligations, no discounting is performed. Insurance losses that have occurred up to the balance sheet date but were not known at the time that the balance sheet was prepared ("IBNR"), and losses that have occurred but have not been reported or not reported in the correct amount ("IBNER"), are to be included in the provision (incurred but not reported claims provisions and provisions for as yet unidentified large losses). Separate provisions for claims settlement expenses are formed for internally incurred expenses attributable to claims settlement under the allocation according to origin principle. Collectible recourse claims are deducted from the provision. Where necessary, actuarial estimation methods are used to calculate the provisions. The methods are applied consistently, with both the methods and calculation parameters tested continuously for adequacy and adjusted if necessary. The provisions are affected by economic factors (e.g. inflation rate) and by legal and regulatory developments, which may be subject to change over time. The current revision of IFRS 4 provides for provisions formed in accordance with applicable national requirements to be carried over into the consolidated financial statements.

Provision for profit-unrelated premium refunds

The provisions for profit-unrelated premium refunds relate, in particular, to the property and casualty and health balance sheet units, and pertain to premium refunds in certain insurance classes that are contractually guaranteed to policyholders in the event that there are no claims or a low level of claims. These provisions are formed at the individual policy level. Since the provisions are predominantly short-term provisions, no discounting has been performed.

Provision for profit-related premium refunds

Profit shares that were dedicated to policyholders in local business plans, but have not been allocated or committed to individual policyholders as of the balance sheet date, are shown in the provision for profit-related premium refunds ("discretionary net income participation"). In addition, both the portion realised through profit and loss and the portion realised directly in equity that results from measurement differences between IFRS and local measurement requirements ("deferred profit participation") are reported in this item. Please see the section Classification of insurance policies starting on page 63.

Other underwriting provisions

The other underwriting provisions item primarily includes provisions for cancellations. Cancellation provisions are formed for the cancellation of premiums that have been written but not yet paid by the policyholder, and therefore represent a liabilitiesside allowance for receivables from policyholders. These provisions are formed based on the application of certain percentage rates to overdue premium receivables.

UNDERWRITING PROVISIONS FOR UNIT-LINKED AND INDEX-LINKED LIFE INSURANCE (I)

Underwriting provisions for unit-linked and index-linked life insurance represent obligations to policyholders that are linked to the performance and income of the corresponding investments. The measurement of these provisions corresponds to the measurement of the investments for unit-linked and index-linked life insurance, and is based on the fair value of the investment unit or index serving as a reference.

NON-UNDERWRITING PROVISIONS (J)

Provisions for pensions and similar obligations

PENSION OBLIGATIONS

Pension obligations are based on individual contractual obligations and collective agreements. The obligations are defined benefit obligations. The plans are based on average salary and/or the number of years of service with the company.

These obligations are accounted for in accordance with IAS 19. The present value of the defined benefit obligation (DBO) is calculated. Calculation of the DBO is performed using the projected unit credit method. In this method future payments calculated based on realistic assumptions are accrued linearly over the period in which the beneficiary acquires these entitlements. The necessary provision amount is calculated for the relevant balance sheet date using actuarial reports that have been provided for 31 December 2017 and 31 December 2018.

The calculations are based on the following assumptions:

| Pension assumptions | 31.12.2018 | 31.12.2017 |
|---|--------------|--------------|
| Interest rate | 1.50% | 1.50% |
| Pension increases | 2.00% | 2.00% |
| Salary increases | 2.00% | 2.00% |
| Employee turnover rate (age-dependent) | 0%–4% | 0%-4% |
| Retirement age, women (transitional arrangement) | 62+ | 62+ |
| Retirement age, men (transitional arrangement) | 62+ | 62+ |
| Life expectancy (for employees, in accordance with) | (AVÖ 2018-P) | (AVÖ 2008-P) |

The weighted average length of the DBO for pensions was 15.88 years in financial year 2018 (15.56 years). A portion of the direct pension obligations are administered as an occupational group insurance plan following conclusion of an insurance contract in accordance with § 93–98 VAG.

Other non-underwriting provisions

Other non-underwriting provisions are recognised if

- a legal or constructive obligation to a third party resulting from a past event exists,
- it is probable that this obligation will lead to an outflow of resources and
- a reliable estimate can be made of the amount of the obligation.

The provisions are recognised at the value representing the best possible estimate of the expenditure needed to fulfil the obligation. If the present value of the provision determined using a normal market rate of interest differs significantly from the nominal value, the present value of the obligation is recognised. The other non-underwriting provisions item also includes personnel provisions other than provisions for pensions and similar obligations. These relate primarily to provisions for anniversary benefits.

(SUBORDINATED) LIABILITIES (K)

As a rule, liabilities are measured at amortised cost. This also applies to liabilities arising from financial insurance policies. The fair value of financial liabilities is shown in 22. Financial instruments and fair value measurement hierarchy starting on page 144.

EARNED PREMIUMS (L)

As a rule, unearned premiums (provision for unearned premiums) are determined on a pro rata basis over time. No deferral of unit-linked and index-linked life insurance premiums is performed, since the full amount of the premiums written in the reporting period is included in the calculation of the underwriting provisions for unit-linked and index-linked life insurance.

EXPENSES FOR CLAIMS AND INSURANCE BENEFITS (M)

All payments to policyholders arising from loss events, claims settlement expenses directly related to loss events, and internal costs attributable to claims settlement under the allocation according to origin principle, are shown as expenses for claims and insurance benefits. Expenses for loss prevention are also reported in this item. Expenses for claims and insurance benefits are reduced by the income gained from using existing contractual and statutory avenues of recourse (this applies in particular to property and casualty insurance). Changes in the underwriting provisions are also reported in expenses for claims and insurance benefits.

ACQUISITION AND ADMINISTRATIVE EXPENSES (N)

This item includes Group personnel and materials expenses allocated according to the origin principle.

SCOPE AND METHODS OF CONSOLIDATION

Full consolidation of a subsidiary begins when control is gained and ends when control is lost. The consolidated financial statements include a total of 69 Austrian and 81 foreign companies.

Associated companies are companies over which the Group has a significant influence but does not exercise control. These companies are accounted for at equity. These consolidated financial statements include 5 Austrian and 16 foreign companies accounted for at equity. 114 Companies that have no material effect on the net assets, financial position and results of operations when considered individually or in aggregate have essentially been measured at fair value.

The materiality or immateriality of subsidiaries, associated companies and joint arrangements for the consolidated financial statements is checked using a variety of thresholds defined at the Group level. Profit before taxes or total assets, for example, could be checked for this purpose. If a company does not satisfy any size criteria, a second step is performed to check whether the companies that are not included are material when taken as a whole. If this is not the case, these companies are not included in the scope of consolidation.

Fully controlled investment funds ("special funds") were fully consolidated in accordance with the requirements of IFRS 10. These consolidated institutional funds are not separate corporate entities and therefore not structured entities as defined in IFRS 10. They are investment funds that have not been designed for public capital markets.

Due to a lack of control, mutual funds are not consolidated, even if a majority of voting rights are held. The ability of subsidiaries to transfer funds (in the form of dividends) to parent companies can be restricted by corporate law and regulations.

BUSINESS COMBINATIONS (IFRS 3)

Business combinations are recognised using the purchase method. Goodwill is recognised as the value of the consideration transferred and all non-controlling interests in the acquired company less the identifiable assets acquired and liabilities assumed. In any business combination, present non-controlling interests that entitle holders to a proportionate share of the entity's net assets in the event of a liquidation can be measured either at fair value or as part of the identifiable net assets. Unless another IFRS provides a different measurement method, all other components of non-controlling interests are measured at the corresponding share of the identifiable net assets. If the consideration is less than the net assets of the acquired subsidiary measured at fair value, the difference is checked again and recognised directly in the income statement. As a rule, the fair values calculated in accordance with IFRS 13 of all assets (incl. goodwill and other intangible assets) and liabilities are allocated to the country to which the purchased company is assigned.

Deferred tax assets acquired during a business combination and arising under IAS 12.66 et seqq. on the acquisition date are tested for impairment in accordance with IAS 12.37.

The Group considers the reported goodwill to reflect the value of the ability to make use of the insurance-specific expertise of the employees of the acquired companies. When a market is entered, it represents the ability to offer insurance products in a country and take advantage of the opportunities that exist there. In countries where the Group is already represented by one or more companies, the goodwill also represents the possibility of making use of potential synergies.

When real estate holding companies are acquired, they are checked to see whether they include business operations. If they do not, the purchase method is not used. In such cases, the acquisition costs, including transaction costs, are distributed among the acquired assets and assumed liabilities based on fair value. No deferred taxes are recognised in such cases (initial recognition exemption) and goodwill cannot arise.

All company acquisitions were performed with cash and cash equivalents. Note 26. Participations – Details on page 155 provides an overview of participations.

CHANGES IN THE SCOPE OF CONSOLIDATION

Change in the scope of consolidation

| Expansion of the scope of consolidation | acquisition/formation | Interest | First-time consolidation | Method |
|--|-----------------------|----------|--------------------------|------------------------|
| | Date | in % | Date | |
| VIG-AT Beteiligungen | 2017 | 100.00 | 1.1.2018 | full consolidation |
| SVZD GmbH | 2017 | 100.00 | 1.1.2018 | full consolidation |
| Vienna Osiguranje (formerly Merkur Osiguranje) | 2018 | 100.00 | 1.4.2018 | full consolidation |
| Seesam Insurance AS | 2018 | 100.00 | 31.12.2018 | full consolidation |
| "Compensa Services" SIA | 2016 | 100.00 | 1.1.2018 | full consolidation |
| UAB "Compensa Services" | 2016 | 100.00 | 1.1.2018 | full consolidation |
| Nußdorfer Straße 90–92 Projektentwicklung GmbH & Co KG | 2016 | 100.00 | 31.12.2018 | full consolidation |
| TECHBASE Science Park Vienna GmbH | 2018 | 100.00 | 31.12.2018 | full consolidation |
| WSV Beta Immoholding GmbH | 2015 | 100.00 | 1.1.2018 | full consolidation |
| WSV Vermögensverwaltung GmbH | 2012 | 100.00 | 1.1.2018 | full consolidation |
| FinServis Plus, s.r.o | 2018 | 100.00 | 21.11.2018 | consolidated at equity |

*Unless indicated otherwise, no goodwill exists.

| Deconsolidations | Reason for deconsolidation | Date | Segment |
|------------------|-------------------------------|----------|---------|
| S IMMO AG | Sale | 9.4.2018 | Austria |

Companies acquired

| Companies acquired during the reporting period, but not yet consolidated (no subject to closing at 31 December 2018) | Interest acquired |
|--|-------------------|
| in % | |
| Gothaer | 100.00 |
| Towarzystwo Ubezpieczen Wzajemnych "TUW" | 52.16 |

Due to the lack of closing for the transactions and lack of control over the companies, Gothaer and TUW "TUW" had not yet been added to the scope of consolidation on the balance sheet date.

Founded companies

| Founded companies | Interest | Established |
|-----------------------|----------|-------------|
| FinServis Plus, s.r.o | 100.00 | 21.11.2018 |

Information on the companies that are fully consolidated and included at equity in the consolidated financial statements of 31 December 2018 is provided in Note 26. Participations – Details on page 155.

Significant changes in minority interests

| Change in significant minority interests | Change | Change of interest | Change in consolidated shareholders' equity |
|--|------------|--------------------|--|
| | Date | in % | in EUR '000 |
| Progress | 31.12.2018 | 10.00 | 3,136 |

Effect of the changes in the scope of consolidation

| Balance sheet | Additions | Disposals |
|--|-----------|-----------|
| in EUR '000 | | |
| Intangible assets | 34,362 | |
| Investments (excl. shares in at-equity consolidated companies) | 125,367 | 55,890 |
| Shares in at equity consolidated companies | | 95,361 |
| Reinsurers' share in underwriting provisions | 11,120 | |
| Receivables (incl. tax receivables and advance payments out of income tax) | 11,799 | |
| Other assets (incl. deferred tax assets) | 3,372 | |
| Cash and cash equivalents | 106,482 | |
| Underwriting provisions | 131,228 | |
| Non-underwriting provisions | 525 | |
| Liabilities (incl. tax liabilities out of income tax) | 13,887 | |
| Other liabilities (incl. deferred tax liabilities) | 2,395 | |

The figures shown in the table above reflect the actual dates of first consolidation, as indicated in the Changes in the scope of consolidation section on page 70.

| Contribution to profit before taxes in reporting period | Additions | Disposals |
|---|-----------|-----------|
| in EUR '000 | | |
| Net earned premiums – retention | 11,274 | |
| Financial result excl. result from at equity consolidated companies | 1,905 | 7,516 |
| Result from shares in at equity consolidated companies | | 6,540 |
| Other income | 199 | |
| Expenses for claims and insurance benefits – retention | -8,825 | |
| Acquisition and administrative expenses | -15,344 | |
| Other expenses | -4,254 | |
| Result before taxes | -15,045 | 14,056 |

Inclusion of the first-time consolidated companies retroactively to 1 January 2018 would not cause any changes in balance sheet items. Inclusion of the first-time consolidated companies retroactively to 1 January 2018 would reduce the Group result before taxes and non-controlling interests by 0.70% (not including any consolidation effects).

Including the new companies in the scope of consolidation the number of employees increased by 719.

NON-PROFIT SOCIETIES

Non-profit societies build or renovate housing whose financing largely comes from housing construction subsidies that are provided for by subsidy laws and directives at the provincial level. Housing that is financed by housing construction subsidies is subject to special restrictions set down in the Austrian Non-Profit Housing Act (Wohnungsgemeinnützigkeitsgesetz – WGG) that govern annual distributions and access to the assets of the housing society.

As a result, the total amount of annual profit that can be distributed may not exceed an amount equal to the total paid-in share capital times the interest rate (currently 3.5%) applicable under § 14 (1) no. 3 WGG. In addition, when members leave a housing society or a housing society is dissolved, the members may not receive more than their paid-in capital contributions and their share of distributable profits. Any remaining assets are to be used for the purposes of non-profit housing. Reorganisation possibilities are also restricted. Merger agreements for merger of a housing society with other companies are considered legally invalid if the absorbing or newly formed company is not non-profit within the meaning of the WGG. Title to buildings, residential units and business units (co-ownership, condominium ownership) may only be transferred to the tenants or another building society within the meaning of the WGG.

Due to these restrictions, even though a shareholder can acquire control over a non-profit society by holding a majority of the shares, the shareholder will not have full power of disposal over the society's assets. As a result, the earnings contributed by the non-profit societies are presented separately in these consolidated financial statements as non-controlling interests in the Group result.

Vienna Insurance Group indirectly holds shares in the following consolidated non-profit societies:

- Neuland GmbH
- Sozialbau AG
- Urbanbau GmbH
- Erste Heimstätte GmbH
- Gemeinnützige Industrie-Wohnungsaktiengesellschaft
- Gemeinnützige Mürz-Ybbs Siedlungsanlagen-GmbH
- Schwarzatal GmbH
- Alpenländische Heimstätte GmbH
- Neue Heimat Oberösterreich GmbH

Government grants (must be repaid if the assets are not used for their intended purpose)

| Grants related to income – shown separately | 8,156 | 9,974 |
| Grants related to income – deducted from the related expense | 197 | 1,439 |

Accounting for non-profit societies

The interests in the nine companies and WWG Beteiligungen GmbH are fully consolidated and significant assets have been included in the consolidated balance sheet. These assets are primarily property with a book value of around EUR 3,773,319,000 (EUR 3,616,247,000). The share of the consolidated shareholders' equity attributable to the non-profit societies is reported separately under "non-controlling interests", since this part of the shareholders' equity is not within VIG's sphere of influence.

SEGMENT REPORTING

DETERMINATION OF REPORTABLE SEGMENTS

The segments were determined in accordance with IFRS 8 "Operating segments" based on internal reporting to the principal decision-maker. The individual markets, in which the Group operates, were identified as the operating segments. The Group Managing Board, as principal decision-maker, regularly evaluates earning power based on the segments and decides on the allocation of resources to the segments. The focus on countries is also reflected in the country responsibilities of the members of the VIG Managing Board. The countries Estonia, Latvia and Lithuania are combined in the Baltic States operating segment, and Albania and Kosovo are combined in the Albania incl. Kosovo operating segment when reporting to the Managing Board. The countries of Turkey and Georgia are also combined into one reporting segment.

The reportable segments were determined using the aggregation criteria in IFRS 8.12 and IFRS 8.14 and the quantitative thresholds defined in IFRS 8.13.

The following were identified as reportable segments:

- Austria (incl. the Wiener Städtische branches in Slovenia and Italy and the Wiener Städtische and Donau Versicherung branches in Italy)
- Czech Republic,
- Slovakia,
- Poland,
- Romania,
- Baltic states,
- Hungary,
- Bulgaria,
- Turkey/Georgia,
- Remaining CEE,
- Other Markets and
- Central Functions.

The Remaining CEE segment includes the countries of Albania incl. Kosovo (a branch of an Albanian company is located in Kosovo), Bosnia-Herzegovina, Croatia, North Macedonia, Moldova, Serbia and Ukraine. The segment was aggregated in accordance with the aggregation criteria in IFRS 8.14 and was not reported in an "all other segments" category in accordance with IFRS 8.16 in spite of falling below the thresholds. This segment is presented separately because of VIG's focus on the CEE region.

The Managing Board also feels that important information is provided by separately publishing financial information for Romania, the Baltic states, Hungary, Bulgaria and Turkey/Georgia in the segment reports, even though they fall below the thresholds. VIG's focus on the CEE region and the strong growth recorded in individual countries led to this decision.

The Other Markets reportable segment corresponds to the "all other segments" category in IFRS 8.16, and includes Germany and Liechtenstein.

Companies with management and coordination functions that cross regional boundaries and non-profit societies are included in the "Central Functions" segment.

BASIS OF THE REVENUES OF THE REPORTABLE SEGMENTS

Reportable segments (excl. Central Functions)

The scope of business operations includes private and corporate customer insurance business. The range of products includes, among other things, motor third party liability and own damage, accident, third party liability, fire and natural hazards, and travel insurance.

A large number of life and health insurance products are offered for individuals and groups. These include, for example, supplementary health insurance, nursing care insurance, endowment insurance, term life insurance and investmentoriented products. In accordance with the cornerstones of VIG, products are sold through all distribution channels in all markets. This means that insurance products are distributed, among others, by sales employees, banks, brokers and agents.

Central Functions

This segment includes VIG Holding, VIG Re, the VIG Fund, the non-profit societies, corporate IT service providers, intermediate holding companies and, since the 1st half of 2018, Wiener Re.

VIG Holding primarily focuses on managerial tasks for the Group. It also operates as an international reinsurer and in the international corporate business. The Group's own reinsurance company, VIG Re, is a successful provider of reinsurance for both VIG companies and external partners.

Information on major customers

The Group does not depend to a great extent on one single customer, as defined in IFRS 8.34. The 10 largest customer groups are responsible for 1.8% of the premiums written by the Group. Corporate customers that are under common control according to the information available to VIG are combined into customer groups.

GENERAL INFORMATION ON SEGMENT REPORTING

Like transactions with third parties, transfer prices between reportable segments are determined using market prices. Intragroup transactions between segments are eliminated in the consolidation column. The only exception is dividends and intercompany profits, which are eliminated in each segment.

PERFORMANCE MEASUREMENT FOR REPORTABLE SEGMENTS

A variety of performance indicators are used to determine the financial performance of the reportable segments. The IFRS contribution to earnings is used as an indicator in all cases. In the interests of comparability, the income statement by segments is appropriately reconciled with the consolidated income statement and only the main items are presented. The same applies to the balance statement by segments and consolidated balance sheet.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

FINANCIAL INSTRUMENTS

The Group invests in fixed-income securities (bonds, loans/credits), shares, real estate, participations and other investments, taking into account the overall risk position and the investment strategy provided for this purpose.

The investment strategy is laid down in the investment guidelines for each of the Group's insurance companies. Compliance is continuously monitored by the Asset Management and Asset Risk Management (ARM) departments and by the Internal Audit department on a sample basis. Investment guidelines are laid down centrally and must be followed by all Group companies. When determining exposure volumes and limits as part of establishing the strategic orientation of investments, the risk inherent in the specified categories and market risks are of fundamental importance.

The investment strategy principles may be summarised as follows:

- VIG practices a conservative investment policy designed for the long term.
- Vienna Insurance Group focuses on its asset mix as a way to ensure that cash flows match its long-term liability profile and to create sustainable increases in value through the use of correlation and diversification effects of the individual asset classes.
- Investment management depends on the asset class in question or on the objective within asset classes and is performed internally or by an outside manager.
- The currency profile of the investments should match as closely as possible the obligations to policyholders and other liabilities (currency matching).
- Risk management for securities is aimed at providing a transparent view of the risk exposure arising from price, interestrate, and currency fluctuations as they affect profitability and the value of investments, and at limiting these risks. Risks are limited by a limit system at position level and by a value-at-risk limit system for risk exposure at the portfolio level.
- Market developments are monitored continuously and the structure of the portfolio is actively managed, if necessary.

VIG's investment portfolio (with the look-through approach applied to consolidated institutional funds) includes holdings of around 66.34% in bonds (65.53%) and around 6.52% in loans (6.91%). The share in equities is around 3.70% (4.77%), in real estate around 16.07% (15.39%), in participations around 1.13% (1.31%) and in other around 6.24% (6.09%), in all cases based on the book value of the total investment portfolio.

Land and buildings

VIG's real estate portfolio had a book value of 5,965.7 million as of 31 December 2018 (fair value: EUR 7,256.4 million, incl. the book value of the non-profit societies, for more information see page 144) and a book value of EUR 5,684.6 million as of 31 December 2017 (fair value: EUR 6,867.4 million – incl. the book value of the non-profit societies, for more information see page 144).

The portfolio of directly held real estate and real estate held in the form of participations is used primarily to create highly inflation-resistant long-term positions for the insurance business, and to create hidden reserves. The real estate portfolio represents 16.07% (15.39%) of VIG's total investment portfolio.

The following table shows VIG's real estate investments as of 31 December 2018 and 31 December 2017, broken down by type of use for the Austria and Central Functions segments and the totals for all other segments.

| Use of real estate | % of the real esta | % of the real estate portfolio | | |

*Mainly held as investment property

At equity consolidated companies

VIG's shares in at equity consolidated companies had a book value of EUR 221.3 million as of 31 December 2018 and a book value of EUR 298.1 million as of 31 December 2017. Shares in at equity consolidated companies therefore represented 0.61% (0.83%) of the book value of the total investment portfolio as of 31 December 2018.

Loans

VIG loans had a book value of EUR 2,455.3 million as of 31 December 2018 and a book value of EUR 2,588.7 million as of 31 December 2017. Investments in loans are less important in the CEE region. A portfolio analysis and maturity structure of VIG loans are presented in Note 2.3 Loans and other investments starting on page 109.

Bonds

Bonds represented 66.34% (65.53%) of VIG's total investments as of 31 December 2018. VIG manages its bond portfolio using estimates of changes in interest rates, spreads and credit quality, taking into account limits related to individual issuers, credit quality, maturities, countries, currencies and issue volume. VIG is currently not planning any investment strategy changes with respect to its bond portfolio. In VIG's investment model, the bonds serve primarily to ensure stable earnings over the long term. Derivative products are only used to reduce risks or make efficient portfolio management easier. Relevant investment guidelines expressly govern the use of derivatives for bond portfolios managed by third parties such as investment funds.

Shares

As of 31 December 2018, VIG's share investments (including those contained in the funds) represented 3.70% (4.77%) of the book value of the total investment portfolio. In accordance with the investment guidelines for Austria, management is carried out using a top-down approach, subject to the constraint that diversification be used to minimise the market risk of the shares. The overall proportion of shares is very small for Group companies in the CEE countries.

RISK MANAGEMENT

Vienna Insurance Group's core competence is dealing professionally with risk. The Group's primary business is assuming risks from its customers using a variety of insurance policies. The insurance business consists of consciously assuming diverse risks and managing them profitably. One of the primary responsibilities of risk management is to ensure that the obligations assumed under insurance policies can be satisfied at all times.

In general, all Group companies are responsible for managing their own risks. The VIG corporate Risk Management department provides guidelines in all major areas for these companies. The requirements set in the investments and reinsurance areas are particularly strict.

The primary requirement for effective risk management is a risk management system that is consistent throughout the Group and a risk policy and risk strategy set by management. The objective of such risk management is not complete avoidance of risk but rather a conscious acceptance of desired risks and the implementation of measures to monitor and possibly even reduce existing risks based on economic factors. The risk-return ratio is therefore a key measure that must be optimised in order to guarantee adequate security for the policyholder and the insurer itself while giving due consideration to the need to create value.

Risk management responsibilities in VIG are bundled together in independent organisational units and by a well-established risk and control culture, each individual employee contributes to successful management of risk. Transparent, verifiable decisions and processes within a company are very important aspects of its risk culture.

Risk strategy

The strategic orientation of the Company is based on a business strategy, capital strategy and a comprehensive risk strategy. The risk strategy specifies appropriate risk management measures for significant risks and is based on the following principles that are applicable Group-wide:

RISKS THAT ARE NOT ACCEPTED

- Risks from the insurance business are not accepted if they cannot be adequately measured. This includes, in particular, the areas of third party liability insurance for genetic engineering and atomic energy.
- With respect to investments, risks are not accepted if insufficient know-how is available to measure the risks, e.g. weather derivatives or forward transactions for foodstuffs, or if they could generate potentially unlimited losses.

RISKS ACCEPTED WITH RESTRICTIONS

- Operational risks must be avoided as far as possible, but have to be accepted to a certain extent as they cannot be fully excluded, or the costs for avoiding them exceed the expected losses.
- Observe and act in accordance with the prudent businessman rule in connection with investments.

RISK-MINIMISING MEASURES

- Establish functional risk governance by maintaining and promoting a high level of risk awareness.
- Reinsurance is a key instrument for hedging against large losses (tail risks), particularly in the property and casualty area.
- Limit market risk taking into account underwriting obligations.

Organisation of the risk management system

The risk management organisation is well integrated into VIG's organisational structure. All departments that assume responsibilities in the risk management system report either to the Managing Board or an individual member of the Managing Board. A short overview of the risk management organisation is provided in the chart below before the responsibilities and roles of the units involved are described.

MANAGING BOARD

The Managing Board has overarching responsibility for risk management. This centralised approach is also shown by the reporting lines of the corporate departments in which the Solvency II governance functions (Risk Management, Actuarial, Internal Audit and Compliance functions) are located. Judit Havasi is the contact person for risk management matters in the Managing Board.

The Managing Board as a whole is also responsible for the following areas related to risk management:

- Set up and promote risk management
- Define and communicate the risk strategy, including risk tolerances and risk appetite
- Approve corporate risk management guidelines
- Take the risk situation into account in strategic decisions

RISK COMMITTEE

The VIG Managing Board established the Risk Committee to ensure regular discussions of current matters relating to risk management across functional areas within the organisation and an exchange of information on the risk situation between the members of the committee (representatives of the units involved in risk management and the Compliance function) and the Managing Board. The Risk Committee meetings take place at least quarterly and are chaired by Managing Board member Judit Havasi. The Risk Committee reports to the Managing Board after its meetings.

ENTERPRISE RISK MANAGEMENT (ERM)

The Enterprise Risk Management department reports to the Managing Board and is responsible for Group-wide risk management. The head of the department performs the Risk Management function and reports to the Managing Board. Judit Havasi is the contact person in the Managing Board.

ERM provides a Group-wide aggregation solution with extensive reporting and partial modelling approaches for calculating solvency capital. Calculation of the solvency capital requirement during the year, analysis of risk-bearing capacity using proprietary analysis tools and reviewing the internal control system are other important activities performed by the department.

The department also assists the Managing Board with updating the corporate risk strategy, improvements to the risk organisation and further corporate risk management topics.

ASSET-RISK MANAGEMENT (ARM)

The ARM department reports to Managing Board member Judit Havasi. The primary responsibility of the department is to analyse, assess and monitor risks associated with investments, in particular with respect to the Group's solvency result and financial result. For this purpose, the department specifies Group-wide requirements for risk assessment and implements a central system for investment management and risk monitoring. The department is also responsible for maintaining an internal rating approach for banks.

ASSET MANAGEMENT

The Asset Management department reports to Managing Board member Elisabeth Stadler. One of the key responsibilities of the department is to define a strategic orientation for the investments of each VIG insurance company and for the Group as a whole, and to specify an investment strategy and investment process aimed at ensuring that current income is as high as possible, but also as secure as possible, while simultaneously taking advantage of opportunities to increase the value of investments. Guidelines and limits are used to manage investments in the Group. Regular reports are also provided for investments, limits and income.

ACTUARIAL DEPARTMENT

The Actuarial department reports to the Managing Board. Managing Board member Franz Fuchs is the contact person. The head of the department performs the Actuarial function required by Solvency II. The department is therefore responsible, in particular, for the duties related to the Actuarial function. The Actuarial department also calculates the embedded value for the life and health insurance businesses and prepares profitability analyses and company valuations. The department assists actuarial collaboration and functional networking.

REINSURANCE

The Reinsurance department reports to Managing Board member Peter Höfinger. The department coordinates and assists all Group companies and their reinsurance departments with reinsurance matters in the non-life business (property and

casualty, third party liability and accident insurance) by preparing and applying guidelines. The department also administers Group-wide reinsurance programmes in the non-life lines of business. The primary objective is to create a safety net to provide continuous protection for all of the companies in the Group against the negative effects of catastrophes, individual large losses and negative changes in entire insurance portfolios.

CORPORATE AND LARGE CUSTOMER BUSINESS

The Corporate and Large Customer Business department reports to Managing Board member Peter Höfinger and underwrites insurance contracts for large Austrian and international customers. The department also assists subsidiaries with resources and know-how. The aim is to achieve a uniform underwriting philosophy and approach in all Group companies that perform such business.

PLANNING & CONTROLLING

The Planning & Controlling department is an important part of the integrated risk management approach and reports to Managing Board member Judit Havasi. The department coordinates business planning over a 3-year horizon. The standardised reports include key figure and variance analyses for planning, forecasts and ongoing performance of VIG Holding and other Group companies. Regular monthly premium reports, quarterly reports for each company (aggregated at the country and Group level) and cost reports are prepared.

INTERNAL AUDIT

The Internal Audit department reports to the Managing Board. Managing Board Chairwoman Elisabeth Stadler is the contact person in the Managing Board. The Internal Audit department systematically monitors operating and business processes, the internal control system of all operational business areas, including compliance with legal requirements, and the functionality and adequacy of risk management. The Internal Audit department operates continuously and reports directly to the Managing Board. The head of the department performs the Internal Audit function required by Solvency II.

GROUP IT

The Group IT department reports directly to Managing Board member Judit Havasi. The department is responsible for IT management at the Group level (IT strategy, IT governance, IT security, IT Group projects, etc.), for assisting Group companies with large IT projects, and for developing Group-wide guidelines and common standards. The Austrian business organisation assists Group IT with this by providing outside IT and telephony services.

Risk management processes

Many risk management processes have been established in the individual departments of the risk management organisation to cover the entire risk management cycle from risk identification to risk assessment, risk control and risk monitoring. These processes are governed by a number of internal guidelines. This ensures that VIG's risk exposure is appropriately recorded and taken into account when business decisions are made.

RISK IDENTIFICATION

The risk management process begins with the identification of risks. This is performed using a standardised process that is supplemented by ad hoc analyses. A comprehensive reporting process ensures that newly identified risks and the effects of extraordinary events are appropriately included in the risk profile.

RISK ASSESSMENT

A number of assessment methods are used to assess identified risks. Assessment is primarily based on internal models and the standard model and is performed annually and during the year. If the standard formula is used for assessment, an appropriateness check is also performed. The total risk is determined by aggregating the assessed risks, taking into account diversification effects between the risks. The results of the own risk and solvency assessment, the embedded value for the life and health insurance businesses, findings from the S&P capital model and value-at-risk calculations for the investments area are also taken into account in the risk assessment.

RISK CONTROL

The risk strategy, planning, reinsurance programme, risk budgets and risk-bearing capacity are the most important elements of risk control.

The Managing Board reviews the risk strategy each year and makes any modifications needed. The ERM department assists the Managing Board with this.

The Group Controlling department is responsible for performance of an annual planning process and subsequently for monitoring day-to-day business development of the Group insurance companies. Regular reports are used for this purpose, including variance analyses and forecast accounts for the financial year. The planning horizon is three years. The planning data is used in the ORSA and forms a starting basis for calculating future expected solvency.

The Reinsurance department coordinates the Group-wide reinsurance programme and manages the annual renewal process for natural catastrophe coverage. The ERM department assists the Reinsurance department in validating the external natural catastrophe models used and evaluating the effectiveness of reinsurance coverage using the internal non-life model.

The Asset Risk Management department specifies quarterly risk budgets for investments. These budgets are then also used to limit the value-at-risk for the investments.

RISK MONITORING

The solvency corridor defined at the Group level and the Group-wide limit system for risk-bearing capacity form the basis for continuous monitoring of the solvency situation of the Group and subsidiaries.

Compliance with the securities guidelines, risk budgets and key figures is also continuously checked and monitored. Monitoring is performed by means of periodic fair value measurements, value-at-risk calculations and detailed sensitivity analyses and stress tests and determining the solvency capital requirement during the year.

Liquidity risk is managed and monitored by matching the investment portfolio to insurance obligations. Operational and strategic risks which might be caused by deficiencies or errors in business processes, controls and projects, or changes in the business environment, are also continuously monitored by the internal control system.

Periodic risk monitoring is documented, for example, in the quarterly reports provided to the Managing Board following the meetings of the Risk Committee and forms the starting point for any further analyses or corrective control measures.

Risk categories

Because of its activities, VIG is exposed to a large number of financial and non-financial risks. The overall risk of the Group can be divided into the following risk categories:

MARKET RISK

Market risk is the risk of losses due to changes in market prices. Changes in value occur, for example, due to changes in yield curves, share prices, exchange rates and the value of real estate and participations.

CREDIT RISK

Credit risk quantifies the potential loss due to a deterioration of the situation of a counterparty against which claims exist.

UNDERWRITING RISKS

Vienna Insurance Group's core business consists of the transfer of risk from policyholders to the insurance company. Underwriting risks in the areas of life insurance, health insurance and non-life insurance are primarily the result of changes in insurance-specific parameters, such as loss frequency, loss amount or mortality, as well as lapse rates and lapse costs.

OPERATIONAL RISKS

Operational risks may result from deficiencies or errors in business processes, controls or projects caused by technology, staff, organisation or external factors.

REPUTATION RISK

Reputation risk is the risk of negative changes in business due to damage to a company's reputation.

LIQUIDITY RISK

This category includes the risk of VIG not having sufficient assets that can be liquidated at short notice to satisfy its payment obligations.

STRATEGIC RISKS

Strategic risks can arise due to changes in the economic environment, case law, or the regulatory environment.

Managing significant risks

In addition to the risks in the property and casualty balance sheet unit and real estate investments that are modelled using the partial internal model, the following risks must be noted due to their great importance for VIG:

- the interest rate risk as part of market risk, which primarily results from sales of long-term guarantee products,
- the asset default risk inherent in investments, which can be assigned to credit risk and indirectly to market risk,
- life insurance lapse risk, which can occur due to an increase in cancellation rates.

MARKET RISK

Vienna Insurance Group is exposed to market risk, that is, the risk of suffering losses as a result of changes to market parameters. For VIG, interest rates, issuer spreads and share prices are the most relevant parameters for market risk. Ignoring investments held for the account of and at the risk of policyholders, Vienna Insurance Group's investments consist largely of fixed-income securities. The majority of these securities are denominated in euros and Czech koruna. Consequently, interest rate fluctuations and exchange rate changes in these currencies primarily have an effect on the value of these financial assets.

The management of investments is aimed at providing coverage for insured risks that is appropriate for the insurance business and the maturities of VIG liabilities.

Market risk affecting earnings is controlled by calculating value-at-risk at regular intervals based on the "Investment and Risk Strategy" guideline for securities and comparing it to the limit relative to the risk budget. Value-at-risk is determined using a variance/covariance calculation. VIG statistically estimates the variances and covariances from market data.

Depending on the purpose of the application, VIG performs value-at-risk calculations for different sub-portfolios. Confidence levels vary between 95.0% and 99.5%, and the holding period varies from 20 to 250 days. Due to the nature of the portfolio, interest rate and spread components make the largest contributions to value-at-risk. As a plausibility check of the calculations, the value-at-risk for the most important sub-portfolios is determined using both the parametric method described above and the historical calculation method.

The following table shows the value-at-risk (at a 99% confidence level) for VIG financial instruments that are measured as available for sale or at fair value through profit or loss (incl. held for trading).

| Value-at-Risk | 31.12.2018 | 31.12.2017 |
|-----------------------|------------|------------|
| in EUR millions | | |
| 10-day holding period | 222.1 | 292.6 |
| 20-day holding period | 314.2 | 413.8 |
| 60-day holding period | 544.1 | 716.8 |

Market risk is divided into interest rate, spread, share price, currency, real estate and concentration risk. For VIG, interest rates, spreads and share prices are the most relevant parameters for market risk.

Interest rate risk

The main source of interest rate risk for VIG is the sizeable portfolio of policies with guaranteed minimum interest rates, which includes pension and endowment insurance, and the resulting investments. For existing life insurance policies, VIG guarantees a minimum interest rate averaging around 2.07% p.a. (2.18% p.a.). If interest rates fall below the guaranteed average minimum rate for a longer duration of time, VIG could find itself forced in the future to use its capital to subsidise reserves for these products and consequently increase them through profit or loss as a result of the adequacy test.

Spread risk

Spread risk arises from all assets and liabilities whose values depend on changes in the size of credit spreads over the riskless yield curve. Duration and the creditworthiness of the debtor are the main factors determining the amount of spread risk. Diversification and a uniform limit system for investments in fixed-interest instruments are used to limit this risk at the portfolio level.

Share price risk

Among other things, Vienna Insurance Group's share investments include participations in a number of Austrian companies and equity positions in other companies whose shares trade primarily on the Vienna Stock Exchange or stock exchanges in the Eurozone or CEE region. A deterioration of the current economic situation could result in the share portfolio losing value.

Shares serve to increase earnings over the long term, provide diversification and compensate for long-term erosion in value due to inflation. VIG assesses share price risk by considering diversification within the overall portfolio and correlation with other securities exposed to price risk. Risk diversification within VIG's share portfolio is mainly achieved by geographic diversification primarily in the home markets of the Group and in the Eurozone. Share investments are predominantly made by the Austrian companies.

Currency risk

To diversify its portfolio, the investment area also makes use of international capital markets and, to a very small extent, foreign currencies. VIG's high degree of involvement in the CEE region results in currency risks at the Group level in spite of matching local currency investments made at the local level.

Concentration risk

Internal guidelines and VIG's limit system are used to keep concentrations within the desired safety margin. Consultation across business lines provides for a comprehensive view of all significant risks.

CAPITAL MARKET SCENARIO ANALYSIS

This analysis is carried out annually for all VIG companies in order to check the risk capacity of the investments. The following table shows the stress parameters and the effects on IFRS regulatory capital of each scenario for 31 December 2018 (not including deferred taxes, deferred profit participation or deferred mathematical reserve).

| Reduction in market value | Scenario 0 | Scenario 1 | Scenario 2 | Scenario 3 | Scenario 4 | Scenario 5 |
|---|------------|------------|------------|------------|------------|------------|
| of shares | 0% | -20% | -10% | -20% | -20% | 0% |
| of bonds | 0% | -5% | -3% | -5% | 0% | -5% |
| of real estate | 0% | -5% | -10% | 0% | -10% | -10% |
| Market value of assets less liabilities (in EUR millions) | 7,643.0 | 5,470.2 | 5,861.6 | 5,837.1 | 6,549.2 | 5,463.2 |

In scenario 1, the fair value of shares, bonds and real estate all decrease sharply at the same time – ceteris paribus. The fair value of the assets is always still significantly higher than the value of the liabilities after stress.

CREDIT RISK FROM INVESTMENTS

When managing risks related to credit quality, a distinction must be made between liquid and tradable risks (e.g. exchangelisted bonds) and bilateral risks, such as, for example, time deposits, OTC derivatives, loans, private placements and securities accounts/depositories. The risk is monitored by means of ratings and limited by diversification limits at the portfolio level.

Consideration is only given to those issuers or contracting parties whose credit quality or reliability can be assessed by VIG, whether on the basis of analyses performed by the Group, credit assessments/ratings from recognised sources, provision of security (e.g. guarantor's liability) or the possibility of recourse to reliable mechanisms for safeguarding investments.

Under the investment guidelines of the material Group companies, bond investments (which represent the largest share of investments) are made almost entirely in the investment grade range. The goal is to achieve the greatest possible diversification among individual issuers, to avoid accumulation risks, to ensure good average creditworthiness, to control foreign currency effects and to make the majority of investments in mid to long-term maturities in order to reflect the maturity profile of the liabilities as efficiently as possible.

Use of ratings

The "second best rating" method specified under Solvency II is used as a rating method. The latest (issue or issuer) rating from each of the three major rating agencies is used to determine the second best rating.

If the latest rating is an issuer rating, and this rating cannot be directly used due to a difference in quality of the security (e.g. senior unsecured debt rating and a lower tier 2 bond), the rating is adjusted downwards appropriately. The adjustment is one notch down for lower tier 2 bonds and two notches down for upper tier 2 or tier 1 bonds.

This results in up to three valid ratings for each bond. These ratings are then ranked according to increasing probability of default and the rating with the second-lowest probability of default taken as the "second best rating". If the ratings in first and second place have the same probability of default, these two ratings are the "second best rating". In cases where a rating has only been assigned by one rating agency, due to a lack of other information, this rating is used as the "second best rating".

CREDIT RISK FROM REINSURANCE

VIG cedes a portion of assumed risks to reinsurance companies. This transfer of risk to reinsurers does not, however, relieve VIG of its obligations to policy holders. VIG is exposed to the risk of reinsurer insolvency. VIG therefore designs its reinsurance programme carefully and monitors reinsurer rating changes.

UNDERWRITING RISKS

Underwriting risks are divided into life insurance, non-life insurance and health insurance (incl. accident insurance) and are managed by the International Actuarial department, a team of actuaries. This department subjects all insurance solutions to in-depth actuarial analysis covering all lines of insurance business (life, health, and property and casualty).

The Actuarial function in the International Actuarial department coordinates the Group-wide determination of underwriting provisions to prepare the economic balance sheet in accordance with Solvency II.

Life underwriting risk and health underwriting risk similar to life

Life underwriting risk includes lapse risk, cost risk, disability risk, morbidity risk, longevity risk, mortality risk, disaster risk and audit risk. VIG's main risks in this area are lapse risk and cost risk, as well as biometric risks, such as life expectancy, occupational disability, illness and the need for nursing care.

To account for these underwriting risks, VIG has formed provisions for future insurance payments. Vienna Insurance Group calculates its underwriting provisions using recognised actuarial methods and assumptions. These assumptions include estimates of the long-term interest rate trend, returns on investments, the allocation of investments between equities, interest-bearing instruments and other categories, profit participations, mortality and morbidity rates, lapse rates and

future costs. The Group monitors actual experience relating to these assumptions and adjusts its long-term assumptions where changes of a long-term nature occur.

To minimise lapse risk, VIG uses an effective complaint management department, qualified advisors and customer loyalty programmes to increase customer satisfaction and avoid cancellations. Policyholder cancellation behaviour is continuously monitored so that targeted measures can be taken if unfavourable changes occur.

VIG uses regular analyses, targeted product design and detailed underwriting guidelines to address these risks. A variety of reinsurance contracts also exist that help to reduce the general level of risk. A broadly diversified product portfolio in all life and composite companies and a well-mixed customer base in the CEE region minimise risk concentrations.

Non-life underwriting risk and health underwriting risk similar to non-life

Risk in the non-life sector is divided into premium risk, reserve risk, lapse risk and catastrophe risk. Property and casualty underwriting risks are primarily managed using actuarial models for setting rates and monitoring the progress of claims, as well as requirements for the assumption of insurance risks.

Health underwriting risk is primarily concentrated in the Austrian companies. In the CEE markets, motor third party liability has a high volume compared to the other lines of business. This risk concentration was consciously accepted in order to enter these markets. VIG's strong market position and above-average growth prospects in the CEE region will help growth in the other lines of business, thereby reducing the concentration in motor third party liability.

The environmental catastrophes that have been becoming increasingly common in recent years, such as floods, mudslides, landslides and storms may have been brought about by general climate change. The number of claims caused in this way may continue to rise in the future.

VIG forms provisions for claims and claims settlement expenses and regularly monitors them in order to effectively cover the risk associated with the insurance business. This risk is also significantly reduced by ceding reinsurance.

LIQUIDITY RISK

Efficient asset liability management can be used to prevent liquidity shortages. Investments and obligations are analysed regularly to identify liquidity needs. These analyses, together with clear investment requirements (limit systems) and a conservative investment policy, help to appropriately manage liquidity risk. The Treasury/Capital Market department performs regular monitoring of cash flows and prepares quarterly reports on insurance company liquidity changes. The reports from the companies include the cash flows from operating activities, investing activities and financing activities. The department evaluates and analyses the data.

To ensure that every company continues to have adequate liquidity in the future, Group guidelines specify liquidity management standards that must be observed by every company. Among other things, these standards require a regular examination of current and future cash inflows and outflows.

The derivative liabilities do not represent a risk for VIG's liquidity, since the expected cash flows are covered by the underlying instrument.

The financing liabilities are largely due to the non-profit societies (see page 144). Since the properties of the non-profit societies are almost fully rented, no liquidity risk is seen in connection with servicing the financing liabilities.

OTHER RISKS

VIG's business activities result in other risks, primarily non-financial risks that are assessed and managed as part of risk management. These include, in particular, operational risks, as well as reputation risks and strategic risks.

In addition, a comprehensive internal control system (ICS) ensures that adequate risk control infrastructure has been set up for non-financial operational risks and is regularly checked for appropriateness and effectiveness. The ICS itself is comprised of all measures and control activities used to minimise risks – particularly for the areas of accounting and compliance, but also for other operational risks. It extends from specially established processes, organisational units such as accounting and controlling, all the way to guidelines, regulations and individual controls within processes, such as automated audits or use of the "four-eyes" principle.

Aspects of the legal tax framework affecting earnings

Changes to tax law may negatively affect the attractiveness of certain VIG products that currently enjoy tax advantages. For example, the introduction of laws to reduce the tax advantages of the Group's retirement benefit products or other life insurance products could considerably diminish the attractiveness of those products.

Regulatory environment

VIG is subject to domestic and foreign (insurance) supervisory regulations. These regulations govern such matters as:

- Capital requirements of insurance companies and groups
- Admissibility of investments as security for underwriting provisions
- Licences of the different VIG companies
- Marketing activities and the sale of insurance policies and
- Cancellation rights of policy holders

Changes to the statutory framework may make restructuring necessary, thus resulting in increased costs.

Developments in Central and Eastern Europe

The expansion and development of business operations in the countries of Central and Eastern Europe is a core component of VIG's strategy. It has a very strong presence in these countries. The prescribed risk guidelines ensure consistent risk management in all CEE countries in the Group.

Concentration risk

Concentration risk is due to the strategic partnership with Erste Group Bank and VIG consciously accepts this risk. Exposure is regularly assessed and monitored by the risk management processes that have been established.

Risks due to mergers and acquisitions

In the past, VIG acquired a number of companies in Central and Eastern Europe or acquired participations in these companies. Mergers of Group companies are considered if the synergies that can be achieved outweigh the benefits of multiple market presences. Mergers and acquisitions often bring challenges in terms of corporate management and financing, such as:

- the need to integrate the infrastructure of the acquired or merged company, including management information systems, and risk management and controlling systems,
- handling unsettled matters of a legal or regulatory nature and associated legal and compliance risks resulting from the merger or acquisition,
- integration of marketing, customer support and product ranges, and
- integration of different corporate and management cultures.

When performing mergers, a number of additional risks must be taken into account in the strategy, in particular process and organisational risks.

The sensitivities are based on the same management rules and policyholder behaviour as the base case. Each sensitivity is calculated separately. If two events occur simultaneously, the effect is not necessarily equal to the sum of the individual sensitivities.

Provisions in the property and casualty line of business GENERAL INFORMATION

If claims are asserted by or against policyholders, all amounts that a company in VIG's property and casualty line of business pays or expects to have to pay to the claimant are referred to as losses, and the costs of investigating, adjusting and processing these claims are referred to as "claims settlement expenses". VIG has formed provisions by lines of business, extent of cover and year for each Group company to pay for losses and claims settlement expenses due to claims under its property and casualty insurance policies.

Losses and claims settlement expenses can be divided into two categories: reserves for known but still outstanding claims, and reserves for claims that have been incurred but have not yet been reported, or the correct amount has not been reported ("IBNR", "IBNER"). Provisions for outstanding claims are based on estimates of future payments, including claims settlement expenses, for these claims. These estimates are made on a case-by-case basis in accordance with facts and circumstances ascertainable at the time the provision is formed.

The estimates reflect the well-founded judgement of Group adjusters based on general practices for forming insurance provisions and a knowledge of the nature and value of each type of claim. These provisions are adjusted regularly during normal processing and represent the expected eventual costs necessary to finally settle all pending reported claims, taking into account inflation, interest rates and other social and economic factors that could affect the amount of provisions that are required.

Historical developments in distribution patterns and claims payments, the level of reported and still outstanding claims and the nature of the extent of cover are also taken into account. In addition, court decisions and economic conditions can also affect the estimate of provisions and the eventual size of claims.

IBNR and IBNER provisions are formed to offset the expected costs of losses that have been incurred but not yet reported to the individual Group companies. These provisions, just like the provisions for reported claims, are formed to pay the

expected costs, including claims settlement expenses, necessary to finally settle these claims. Because, by definition, the extent of these losses is still unknown when the provisions are formed, the Group calculates its IBNR and IBNER liabilities based on historical claims experience, adjusted for current developments in claims-related factors. These provisions are based on estimates made using actuarial and statistical forecasts of the expected costs to finally settle these claims. The analyses are based on the facts and circumstances known at the time and on expectations regarding changes in legal and/or economic factors that determine the level of loss, such as case law, the inflation rate and labour costs. These provisions are regularly reviewed and revised once additional information is known and claims are actually reported. The time needed to learn of these claims and settle them is an important factor that must be taken into account when forming provisions.

Claims which are easy to settle, such as property damage under motor insurance, are reported within a few days or weeks and are normally settled within a year.

More complicated claims, such as personal injury under motor or general liability insurance, typically require longer settlement times (on average four to six years, in some cases considerably longer). Difficult claims, where settlement regularly depends on the results of often protracted litigation, also lead to substantially longer settlement times, especially in the liability, casualty, building and professional liability lines of business.

The final costs of the claims and claims settlement expenses depend on a number of variable circumstances. Between the time a claim is reported and final settlement, changing circumstances may require that the provisions that were formed be revised upwards or downwards. For example, changes in the law, the outcome of litigation and changes in medical costs, costs for materials for car and house repair and hourly wage rates, loss frequency and loss amount can have a substantial effect on the costs of claims. These factors may result in actual developments differing from expectations — sometimes substantially. Loss reserve estimates are regularly reviewed and updated, using the most recent information available to the Managing Board. Any changes to provision estimates are reflected in the operating result. VIG's conservative policy toward provisions is shown, for example, by the fact that liquidation of loss reserves has generally led to a profit. Based on the Group's internal procedures and the information currently available to it, management believes that the Group's provisions in the property and casualty insurance area are adequate. However, forming loss reserves is by nature an uncertain process and therefore no guarantee can be given that in the end losses will not differ from the Group's initial estimates.

CHANGES IN CLAIMS PAYMENTS AND GROSS LOSS RESERVE

The following tables show claims payments for individual years of occurrence and VIG's direct loss reserves at the end of each year indicated. The provisions reflect the amount of expected losses, based on claims that occurred in the current and all previous loss years and had not yet been paid as of the balance sheet date, including IBNR and IBNER.

Interpreting the information contained in this table requires caution, because each amount contains the effects of all changes from the previous periods. The circumstances and trends that affected liability in the past could possibly recur in the future and therefore no conclusions can be drawn from the information given in this table as to future results.

Reinsurance

VIG limits its potential liability arising from the insurance business by passing on, to the extent necessary, a portion of the assumed risks to the international reinsurance market. Some of the risks of Group companies are reinsured within VIG and these risks are in turn ceded to reinsurers at the Group level.

REINSURANCE GUIDELINES

The reinsurance guidelines are jointly determined each year by the corporate Reinsurance department and the member of the Managing Board responsible for reinsurance during the development of the reinsurance strategy for the next financial year. They require each Group company to provide, in consultation with the corporate Reinsurance department, reinsurance coverage that is appropriate for its local company. These guidelines govern the following points.

REINSURANCE IS A PREREQUISITE FOR THE ACCEPTANCE OF INSURANCE COVERAGE

Underwriting departments may only make a binding commitment to insure a risk if sufficient reinsurance coverage has already been assured.

RETENTION

It is Group-wide policy that no more than EUR 50 million for the first two natural disaster events and EUR 20 million for each additional event can be placed at risk on a PML (probable maximum loss) basis. The maximum Group-wide retention per individual loss is less than EUR 10 million.

SELECTION OF REINSURERS – DIVERSIFICATION

VIG and its Group companies divide their reinsurance coverage among many different international reinsurance companies that VIG feels have appropriate credit quality, so as to minimise the risk arising from one reinsurer's inability to pay (credit risk). The monetary limit per reinsurer is set individually for each subsidiary.

SELECTION OF REINSURERS - RATINGS

For lines of business where claims settlement takes a long time, in particular for motor third party liability, general liability and aviation, VIG uses reinsurers with outstanding ratings (at least a Standard & Poor's rating of A, preferably a rating of AA or higher), which in all likelihood will also continue to exist over the long term. Even for lines of business with claims that are settled quickly (for example, natural catastrophes, fire, technology, transportation, storm, burglary, household, water pipes, motor own damage), where the number of reinsurers is greater, the preferred rating is Standard & Poor's "A" or higher. Only in a few cases – and for limited periods of time – are reinsurers with lower ratings accepted.

DESIGN OF REINSURANCE PROGRAMMES

If it can be justified economically, any Group company can purchase reinsurance coverage individually from external reinsurers. If individual reinsurance policies can only be purchased by a Group company at uneconomical terms, VIG strives, as far as possible, to jointly place reinsurance contracts covering risks from natural catastrophes, property lines of business, casualty, transport, aviation and motor liability. If necessary, intra-Group assumptions of reinsurance are also passed on as retrocession in the reinsurance market for safety reasons. The guidelines for Wiener Städtische reinsurance coverage are presented below. Retentions for all other companies in the Group are below those of Wiener Städtische.

REINSURANCE COVERAGE USING THE EXAMPLE OF WIENER STÄDTISCHE

Natural catastrophes

Wiener Städtische provides insurance for damage caused by natural catastrophes such as storms, hail, flooding or earthquakes. Wiener Städtische AG uses reinsurance coverage to limit its retention for natural disasters to EUR 16.5 million for the first loss event and EUR 5.0 million for each additional event.

Private customer business

The private customer business consists of essentially stable insurance portfolios having calculable results that are characterised above all by a stable claims frequency. Thus, such recurrent claims are only reinsured in exposed lines of business, for example storm insurance, with a targeted use of proportional reinsurance to reduce the effects on the retention. The effects on the retention of the small number of expected major losses are covered by non-proportional reinsurance. Even in this operating segment, Wiener Städtische's maximum net loss is between EUR 1 million and EUR 2 million, depending on the line of business.

Management and control LIQUIDITY MANAGEMENT

VIG manages its liquidity using guidelines approved by the Managing Board of VIG Holding. As a rule, VIG Holding and each subsidiary are responsible for their own liquidity planning. As the Group parent company, VIG Holding is responsible for allocating capital for the Group as a whole. This allows capital to be efficiently distributed within the Group. It also allows VIG Holding to ensure that the target levels of liquidity and capital resources are available both at the Group level and in the individual operating units.

Most of the liquidity for day-to-day operations comes from premiums received from primary insurance, regular income from investments and proceeds from the sale of investments. These inflows are offset by payments for property and casualty insurance claims, and benefit payments for life and health insurance. The remaining net liquidity is used to cover acquisition and operating costs.

The maturity pattern of the insurance business provides a natural liquidity buffer. Unlike the premiums received, VIG guarantees insurance coverage for a certain period of time, and no cash outflow occurs during this period until an insured event occurs. The liquidity buffer is invested during this period and generates investment income. A portion is held in the form of liquid investments to ensure that it can be quickly converted into cash to pay claims. In addition, the bond portfolio, in particular, is structured so that the proceeds from maturing bonds are received on the dates it is anticipated they will be needed. External influence factors, such as capital market developments and the interest rate level, affect the liquidity situation by improving or restricting the ability to sell the investment portfolio at market value.

The time, frequency and size of insured claims are also important for the liquidity situation of property and casualty insurance. The number of policy extensions also plays a role.

The liquidity needs for life insurance are generally affected by the difference between actual mortality experience and the assumptions used to calculate underwriting provisions. Market returns or minimum interest rates and the behaviour of life insurance customers, such as the number of policies surrendered or terminated, also have an effect on VIG liquidity needs.

CAPITAL MANAGEMENT

In the interests of our shareholders and insurance customers, our goal is to ensure that VIG has adequate capital resources at all times and that all operating insurance companies fulfil their respective minimum regulatory capital requirements. Due to its successful business strategy, VIG has traditionally had very good capital resources. Maintaining this good capital base in the future is also important to us, both to allow us to take advantage of profitable growth opportunities and to cushion the effects of large loss events.

Standard & Poor's rating

VIG also places great importance on permanently maintaining a strong credit rating with Standard & Poor's (S&P). VIG is regularly rated by S&P. S&P has its own capital model for assessing the relationship between the risk capital required by a company and the capital resources available to it. In August 2018, S&P confirmed VIG's A+ rating with a "stable" outlook.

The subordinated bonds issued in 2013 (EUR 500 million, tier 2, first call date 9 October 2023), 2015 (EUR 400 million, tier 2, first call date 2 March 2026) and 2017 (EUR 200 million, tier 2, first call date 13 April 2027) have been rated A- by S&P. The hybrid bond issued in 2008 (outstanding volume EUR 198 million, restricted tier 1) was repaid on the first call date of 12 September 2018.

According to the S&P rating report of 30 August 2018, VIG's capital resources exceed the requirements for the AAA level. This means that VIG has a very good credit rating when compared to similar insurance companies and outstanding capital resources. When performing regular capital planning, VIG takes account of the effects on its rating, with the goal of strengthening it over the long term.

Active capital management

VIG uses the criteria above to monitor its capital positions and takes appropriate measures to further improve its capital structure and strengthen its capital and solvency situation over the long term. VIG has set itself a goal of holding the solvency ratio at the current level in all of the insurance companies in the Group in spite of planned growth. A comfort zone of 170-230% has been specified at the Group level.

Capital management focuses on subordinated long-term liabilities with equity-like characteristics. VIG Treasury continuously monitors capital market developments, with particular attention to developments concerning bonds with equity-like characteristics from the European insurance sector. New capital instruments developing in the capital market for insurance companies are examined for applicability to VIG.

Capital resources

As of 31 December 2018, share capital of EUR 132,887,468.20 was registered in the commercial register, divided into 128,000,000 no-par value bearer ordinary shares with voting rights. VIG Holding held no own shares on 31 December 2018 (2017: none). In addition, VIG Holding can, according to the authorisation by the shareholders, increase its shareholders' equity by issuing common or preferred shares. The individual authorisations are listed in Note 8. Consolidated shareholders' equity starting on page 119.

VIG had a reviewed solvency ratio of 238.6% as of 31 December 2018 (31 December 2017: 220.3%).

Long-term debt financing

VIG had subordinated bonds with a wide range of maturities outstanding as of 31 December 2018. Detailed information on the VIG bond programme is available in Note 9. Subordinated liabilities starting on page 122. As shown by the maturities, VIG's focus is on subordinated liabilities that are eligible capital. General capital market conditions and other circumstances that affect the financial services sector as a whole or the Group in particular could have an adverse effect on the cost and availability of debt financing. The goal, therefore, is to actively manage the Group's capital structure to keep refinancing risks as low as possible.

Notes to the consolidated financial statements

NOTES TO THE CONSOLIDATED BALANCE SHEET - ASSETS

1. INTANGIBLE ASSETS

| Composition | 31.12.2018 | 31.12.2017 |

| Book value as of 31.12. | 1,475,206 | 1,537,694 |
| Cumulative impairment as of 31.12. | 424,751 | 368,823 |
| Acquisition costs | 1,899,957 | 1,906,517 |

The impairments for the current reporting period related to the Romania and Turkey CGU groups.

Due to the increase in the yields on Romanian government bonds in the 2nd quarter of 2018, VIG had the plans for its Romanian subsidiaries updated. They indicated a deterioration of results in one area, which is why an impairment test was performed for the Romanian CGU group for the 1st half of 2018. The resulting necessary impairment of EUR 50.1 million was recognised as an expense in financial year 2018.

The goodwill impairment in the Turkey CGU group is due to political uncertainty and associated increases in inflation and exchange rate fluctuations.

The impairments in the previous year concerned the Ukraine, Moldova and Albania incl. Kosovo CGU groups.

| Cumulative depreciation as of 31.12. | 753,229 | 720,629 |
| Acquisition costs | 1,116,067 | 1,055,450 |

Corporate assets were included in the impairment testing for 31 December 2018. This is discussed starting on page 54.

The change in the scope of consolidation was the result of first-time consolidation of the companies Vienna osiguranje (Bosnia-Herzegovina), Seesam Insurance AS and UAB "Compensa Services".

Please see the section Accounting policies for specific items in the consolidated financial statements starting on page 54 for information on the assumptions used for impairment testing. The impairment in the previous year was based on a risk assessment of possible regulatory requirements with respect to the future usability of existing systems.

2. INVESTMENTS

| Composition | 31.12.2018 | 31.12.2017 |
|--|------------|------------|
| in EUR '000 | | |
| Land and buildings | 5,965,666 | 5,684,598 |

| Rental income | 555,708 | 535,230 |
| Contingent rental income from operating lease | | 205 |
| From investment property | 555,639 | 535,025 |
| Operating expenses for rented investment property | 156,548 | 159,951 |
| Operating expenses for vacant investment property | 7,271 | 7,183 |

The changes in the scope of consolidation are the result of first-time inclusion of Nußdorfer Straße 90-92 (EUR +42,701,000) and TECHBASE GmbH (EUR +30,771,000).

The impairment is primarily due to fair value lying below book value of land and buildings, as shown by appraisal reports.

*Including held for trading

The changes recognised directly in equity for the financial instruments available for sale category were mainly due to the effect of the yield curve on fixed-interest securities.

The reclassifications shown for the available for sale and recognised at fair value through profit and loss (incl. held for trading) categories are generally reclassifications from and to investments for unit-linked and index-linked life insurance.

| AAA | 69,916 | 67,635 |
| AA | 2,086,919 | 249,424 |
| A | 488,488 | 2,530,306 |
| BBB | 58,735 | 60,442 |
| BB and lower | 213,442 | 195,886 |
| No rating | 18,501 | 23,756 |
| Total | 2,936,001 | 3,127,449 |

Financial instruments in the "Financial instruments held to maturity" category that were reclassified as "Financial instruments available for sale" in 2008 had a fair value of EUR 1,393,784,000 as of the reclassification date. The Group made use of the provisions on "reclassification of financial assets" in IAS 39.50 et seqq. due to financial market developments in the 2nd half of 2008. Since the required information is not available and the cost to obtain the information would be excessively high, it would not be possible to determine the book values if reclassification had not been performed.

Financial instruments available for sale

| Composition | Fair value | |
|--|------------|------------|
| Financial instruments available for sale | 31.12.2018 | 31.12.2017 |
| in EUR '000 | | |
| Bonds | 21,011,150 | 20,311,546 |
| Government bonds | 10,232,590 | 10,003,103 |
| Covered bonds | 1,456,623 | 1,469,643 |
| Corporate bonds | 5,135,065 | 4,607,261 |
| Bonds from banks | 3,363,881 | 3,318,729 |
| Subordinated bonds | 822,991 | 912,810 |
| Shares and other participations* | 670,377 | 833,539 |
| Investment funds | 1,800,166 | 2,075,218 |
| Equity funds | 824,276 | 1,010,258 |
| Pension funds | 694,327 | 790,526 |
| Alternative funds | 5,670 | 4,005 |
| Real estate funds | 77,278 | 72,094 |
| Balanced funds | 198,615 | 198,335 |
| Total | 23,481,693 | 23,220,303 |

*Includes shares in non-consolidated subsidiaries and other participations of EUR 203,314,000 (EUR 191,943,000).

| Unrealised gains and losses | 31.12.2018 | | | 31.12.2017 | | |
|--|------------|---------------------|----------------------|------------|---------------------|----------------------|
| Financial instruments available for sale | Fair value | Unrealised gains | Unrealised losses | Fair value | Unrealised gains | Unrealised losses |
| in EUR '000 | | | | | | |
| Bonds | 21,011,150 | 1,962,804 | -163,389 | 20,311,546 | 2,364,081 | -88,165 |
| Shares and other participations | 670,377 | 144,066 | -30,084 | 833,539 | 300,458 | -12,462 |
| Investment funds | 1,800,166 | 82,457 | -162,621 | 2,075,218 | 191,372 | -34,813 |
| Total | 23,481,693 | 2,189,327 | -356,094 | 23,220,303 | 2,855,911 | -135,440 |

In the case of the financial instruments available for sale category, the balance sheet value equals fair value. Unrealised gains and losses represent the difference between amortised cost and fair value.

6. DEFERRED TAXES

The deferred tax assets and liabilities reported relate to temporary differences in the balance sheet items listed in the table below. (The differences were measured using the applicable tax rates.) It should be noted that deferred taxes, as far as permissible, are offset at the taxpayer level, and, accordingly, the different balances are shown either as assets or liabilities on the balance sheet.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that the deferred tax assets can be used. Deferred tax assets are examined each balance sheet date and reduced to the extent that it is no longer probable that the associated tax benefits can be realised.

| Composition | 31.12.2018 | | 31.12.2017 | |
|------------------------------------|------------|-------------|------------|-------------|
| | Assets | Liabilities | Assets | Liabilities |
| in EUR '000 | | | | |
| Intangible assets | 10,475 | 11,902 | 15,158 | 8,052 |
| Investments | 91,960 | 252,862 | 78,957 | 312,149 |
| Receivables and other assets | 29,752 | 16,316 | 21,428 | 16,785 |
| Accumulated losses carried forward | 47,777 | 0 | 69,872 | 0 |
| Tax-exempt reserves | 0 | 12,142 | 0 | 13,223 |
| Underwriting provisions | 110,891 | 167,919 | 130,382 | 177,094 |
| Non-underwriting provisions | 91,075 | 4,339 | 91,296 | 10,656 |
| Liabilities and other liabilities | 18,654 | 26,534 | 15,705 | 21,139 |
| Sum before valuation allowance | 400,584 | 492,014 | 422,798 | 559,098 |
| Valuation allowance for DTA | -17,205 | | -37,958 | <u> </u> |
| Total before netting | 383,379 | 492,014 | 384,840 | 559,098 |
| Netting | -288,180 | -288,180 | -304,034 | -304,034 |
| Net balance | 95,199 | 203,834 | 80,806 | 255,064 |

Deferred tax assets from seven-year amortisation of participations to going concern value were recognised in the amount of EUR 14,599,000 (EUR 12,539,000). Deferred tax liabilities and deferred tax assets of consolidated taxable entities in the tax group collected by the same tax authority were netted, resulting in a deferred tax liability of EUR 91,125,000 (EUR 129,615,000). In accordance with IAS 12.39, deferred tax liabilities were not reported for temporary differences from interests in subsidiaries since they would not be reversed in the foreseeable future. The difference between the book value for tax purposes and the IFRS shareholders' equity is EUR 1,781,957,000 (EUR 1,786,779,000). Deferred taxes for undistributed subsidiary profits of EUR 13,496,000 (EUR 10,281,000) were also not reported, because a decision to distribute the profits had not yet been made.

EUR 22,968,000 (EUR 37,499,000) in deferred taxes on loss carryforwards were not recognised.

7. OTHER ASSETS

| Composition | 31.12.2018 | 31.12.2017 |

| Other assets | 57,706 | 68,235 |
| Asset-side accruals | 213,966 | 203,692 |
| Total | 427,488 | 389,160 |

NOTES TO THE CONSOLIDATED BALANCE SHEET – LIABILITIES AND SHAREHOLDERS' EQUITY

8. CONSOLIDATED SHAREHOLDERS' EQUITY

The share capital and other capital reserves items include contributions to share capital made by VIG shareholders. Other capital reserves report the share of contributions paid that is in excess of the share capital. The capital reserves are reduced by external costs directly related to corporate actions affecting equity after taking tax effects into account.

Retained earnings are the earnings that Group companies have earned since joining VIG. These are reduced by the dividends distributed by the Group parent company. Amounts resulting from changes in the scope of consolidation are also recognised. If changes are made to accounting policies, the adjustments for earlier periods that are not included in the financial statements are recognised in the opening balance sheet value of retained earnings for the earliest period presented.

Other reserves consist of unrealised gains and losses from the measurement of available for sale financial instruments, and actuarial gains and losses that are directly recognised in comprehensive income in accordance with IAS 19. Unrealised gains and losses from the at equity measurement of associated companies, and translation differences resulting from currency translation for foreign subsidiaries are also reported in other reserves. In addition, measurement gains or losses from cash flow hedges are also recognised.

Non-controlling interests are also shown as part of shareholders' equity. These consist of shares held by third parties in the equity of consolidated subsidiaries that are not directly or indirectly fully owned by VIG.

Hybrid bonds

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe called the hybrid capital bond with ISIN AT0000A09SA8 effective 12 September 2018 for early repayment at its redemption amount of 100% of nominal value plus all accrued interest up to (but not including) the repayment date.

All approvals were granted by the Austrian Financial Market Authority. Erste Group Bank AG, Am Belvedere 1, 1100 Vienna, acted as the paying agent.

Non-controlling interests

| Composition of non-controlling interests | 31.12.2018 | 31.12.2017 |
|---|------------|------------|
| in EUR '000 | | |
| Other non-controlling interests | 107,712 | 115,944 |
| Unrealised gains and losses | 5,874 | 9,184 |
| Share in the result of the period | 7,560 | 7,052 |
| Other | 94,278 | 99,708 |
| Non-controlling interests in non-profit societies | 1,180,511 | 1,095,994 |
| Share in the result of the period | 91,468 | 67,943 |
| Other | 1,089,043 | 1,028,051 |
| Total | 1,288,223 | 1,211,938 |

Please see page 72 for information on accounting and measurement for the non-profit societies.

Earnings per share

Under IAS 33.10, basic earnings per share are to be calculated by dividing profit or loss attributable to common shareholders of the parent entity (the numerator) by the weighted average number of common shares outstanding (the denominator) during the period.

| Earnings per share | | 2018 | 2017 |
|---|----------|-------------|-------------|
| Result of the period | EUR '000 | 367,952 | 372,591 |
| Other non-controlling interests in net result of the period | EUR '000 | -7,560 | -7,052 |
| Non-controlling interests in the result of the period of non-profit societies | EUR '000 | -91,468 | -67,943 |
| Result of the period less non-controlling interests | EUR '000 | 268,924 | 297,596 |
| Interest expenses for hybrid capital | EUR '000 | 8,300 | 11,881 |
| Number of shares at closing date | units | 128,000,000 | 128,000,000 |
| Earnings per share* | EUR | 2.04 | 2.23 |

*The calculation of these figures includes the proportional interest expenses for hybrid capital. The undiluted result per share equals the diluted result per share (in EUR).

Since there were no potential dilution effects in either the current or previous reporting period, the basic earnings per share equal the diluted earnings per share.

Detailed information on capital management is available in the "Management and control" section on page 102.

Consolidated shareholders' equity

SHARE CAPITAL AND VOTING RIGHTS

The Company has share capital of EUR 132,887,468.20. It is divided into 128,000,000 no-par value ordinary bearer shares with voting rights, with each share representing an equal portion of the share capital. The number of shares issued remains unchanged since the previous financial year.

The Managing Board is not aware of any restrictions on voting rights or the transfer of shares. Employees who hold shares exercise their voting rights without a proxy during General Meetings.

The Managing Board must have at least three and no more than seven members. The Supervisory Board has at least three and at most ten members (shareholder representatives). Wiener Städtische Versicherungsverein, which directly and indirectly holds around 71.49% (71.26%) of the share capital, has the right to appoint up to one third of the members of the Supervisory Board if, and so long as, it holds 50% or less of the Company's voting shares. General Meeting resolutions are adopted by a simple majority, unless a different majority is required by law or the articles of association.

No shares have special rights of control. See the section indicated above for information on the rights of the shareholder Wiener Städtische Versicherungsverein.

As of the balance sheet date, the Company was not party to any material agreements that would come into effect, change or terminate if control of the Company were to change due to a takeover bid, in particular, no agreements that would affect participations held in insurance companies. Existing agreements that would come into effect if control of the Company were to change due to a takeover bid, in other (non-insurance) companies.

No compensation agreements exist between the Company and its Managing Board members, Supervisory Board members or employees covering the case of a public takeover bid.

ANTICIPATORY RESOLUTIONS

The Managing Board is authorised to increase the share capital of the Company by a nominal amount of EUR 66,443,734.10 by issuing 64,000,000 no-par value bearer or registered shares in one or more tranches on or before 11 May 2022 against cash or in-kind contributions. The terms of the shares, the exclusion of shareholder pre-emption rights, and other terms and conditions of the share issue are decided by the Managing Board, subject to Supervisory Board approval. Preferred shares without voting rights may also be issued, with rights equivalent to those of existing preferred shares. The issue prices of common and preferred shares may differ.

The general meeting of 12 May 2017 authorised the Managing Board to issue, subject to Supervisory Board approval, one or more tranches of bearer convertible bonds with a total nominal value of up to EUR 2,000,000,000.00 on or before 11 May 2022, with or without exclusion of shareholder pre-emptive rights, and to grant the holders of convertible bonds conversion rights for up to 30,000,000 no-par value bearer shares with voting rights in accordance with the convertible bond terms set by the Managing Board.

The share capital has consequently been raised in accordance with § 159 (2) no. 1 of the Austrian Stock Corporation Act (AktG) by a contingent capital increase of up to EUR 31,145,500.36 through the issue of up to 30,000,000 no-par value bearer shares with voting rights. The contingent capital increase will only be implemented to the extent that holders of convertible bonds issued on the basis of the General Meeting resolution of 12 May 2017 exercise the subscription or exchange rights they were granted. The Managing Board has not adopted any resolutions to date concerning the issuance of convertible bonds based on the authorisation granted on 12 May 2017.

The general meeting of 12 May 2017 further authorised the Managing Board to issue, subject to Supervisory Board approval, one or more tranches of bearer income bonds with a total nominal value of up to EUR 2,000,000,000.00 on or before 11 May 2022, with or without exclusion of shareholder pre-emptive rights. The Managing Board has not adopted any resolutions to date regarding the issuance of income bonds based on this authorisation.

The General Meeting of 12 May 2017 authorised the Managing Board to acquire the Company's own no-par value bearer shares in accordance with § 65 (1) nos. 4 and 8 and (1a) and (1b) AktG to the maximum extent permissible by law during a period of 30 months following the date the General Meeting resolution was adopted. The amount paid upon repurchase of the Company's own shares may not be more than a maximum of 50% below, or more than a maximum of 10% above, the average unweighted stock exchange closing price on the 10 stock exchange trading days preceding the repurchase. The Managing Board may choose to make the purchase on the stock exchange, through a public offer or in any other legally permissible and expedient manner.

The General Meeting of 12 May 2017 also authorised the Managing Board to use own shares

- for issuing shares to employees and senior management of the Company or to employees, senior management and managing board members of companies affiliated with the Company;
- for servicing convertible bonds issued based on the resolution adopted by the General Meeting of 12 May 2017;
- for sales in accordance with § 65 (1b) AktG on the stock market or through a public offer. The Managing Board is
 also authorised for a period of a maximum of five years after adoption of the resolution to dispose of the acquired
 own shares in some other way without or with partial or full exclusion of shareholder pre-emptive rights. The written
 report on the reasons for exclusion of shareholder pre-emptive rights was submitted to the General Meeting.

The Managing Board has not made use of these authorisations to date. The Company held none of its own shares on the balance sheet date.

| Payout 2018 for the financial year 2017 | Per share | Total |
|---|-----------|-------------|
| in EUR | | |
| Ordinary shares | 0.90 | 115,200,000 |

Proposed appropriation of profits

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe (VIG Holding) ended financial year 2018 with net retained profit of EUR 233,117,387.05. The following allocation of profits will be proposed in the Annual General Meeting:

The 128 million shares shall receive a dividend of EUR 1.00 per share. The payment date for this dividend will be 29 May 2019, the record date 28 May 2019, and the ex-dividend date 27 May 2019.

A total of EUR 128,000,000.00 will therefore be distributed. The net retained profit of EUR 105,117,387.05 remaining for financial year 2018 after distribution of the dividend is to be carried forward.

9. SUBORDINATED LIABILITIES

VIG Holding subordinated liabilities

Interest on supplementary capital bonds is only paid out to the extent that the interest is covered by the company's national annual profit. The interest is, however, always included as an expense.

On 9 October 2013 the Company issued a subordinated bond with a total nominal value of EUR 500,000,000.00 and a term of 30 years. VIG Holding can call the bond in full for the first time on 9 October 2023 and on each following coupon date. The subordinated bond bears interest at a fixed rate of 5.50% p.a. during the first ten years of its term and variable interest after that. The subordinate bond satisfies the tier 2 requirements of Solvency II. The bonds are traded on the Vienna Stock Exchange.

On 2 March 2015 the Company issued a subordinated bond with a total nominal value of EUR 400,000,000.00 and a term of 31 years. VIG Holding can call the bond in full for the first time on 2 March 2026 and on each following coupon date. The subordinated bond bears interest at a fixed rate of 3.75% p.a. during the first eleven years of its term and variable interest after that. The subordinate bond satisfies the tier 2 requirements of Solvency II. The bond is listed on the Luxembourg Stock Exchange.

The EUR 200,000,000.00 subordinated bond was privately placed with international institutional investors. The subordinated bond has a term of 30 years and VIG can call it for the first time after 10 years. It satisfies the tier 2 requirements of Solvency II and qualifies as capital based on the requirements of the S&P rating agency. The subordinated bond bears interest at a fixed rate of 3.75% p.a. during the first ten years of its term and variable interest after that. Inclusion for trading in the Third Market of the Vienna Stock Exchange took place on 13 April 2017.

¹ The right to ordinary and extraordinary cancellation by the holder is excluded. Regular cancellation by the issuer is first allowed effective 9 October 2023.

² The right to ordinary and extraordinary cancellation by the holder is excluded. Regular cancellation by the issuer is first allowed effective 2 March 2026.

³ The right to ordinary and extraordinary cancellation by the holder is excluded. Regular cancellation by the issuer is first allowed after 10 years

⁴ This may be determined, in whole or in part, with 5 years' notice effective as of 1 July 2009 by the holders and by Donau Versicherung, and effective as of 31 December of each following year.

⁵ This may be terminated, in whole or in part, with 5 years' notice effective as of 1 July 2009 by the holders and by Donau Versicherung, and effective as of 1 July of each following year.

⁶ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to payment being made early. Due to cancellations, EUR 3,750,000 will be repaid starting with 2021.

⁷ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to payment being made early. No cancellations have been made for the next 5 years.

⁸ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to payment being made early. Due to cancellations, EUR 350,000 will be repaid in 2019 and EUR 70,000 thereafter.

⁹ This can only be cancelled subject to not less than 5 years' notice, unless Austrian insurance regulators agree to repayment being made early. No cancellations were made for the next 5 years.

¹⁰ The right to ordinary and extraordinary cancellation by the holder is excluded. No provision has been made for regular cancellation by the issuer.

¹¹ This can only be cancelled subject to not less than five years' notice.

10. UNDERWRITING PROVISIONS - GROSS

| Composition | 31.12.2018 | 31.12.2017 |

The plan assets consist of the following:

| Structure of investments in the mathematical reserve for occupational group insurance | 31.12.2018 | 31.12.2017 |
|---|------------|------------|
| in % | | |
| Wiener Städtische and VIG Holding | 100.00 | 100.00 |
| Fixed-interest securities | 89.87 | 80.71 |
| Loans | 1.59 | 4.94 |
| Bank deposits | 6.80 | 14.35 |
| Shares, supplementary capital, profit participation rights, participation capital | 1.74 | 0.00 |
| Donau Versicherung | 100.00 | 100.00 |
| Fixed-interest securities | 98.03 | 95.58 |
| Bank deposits | 0.09 | 4.42 |
| Shares, supplementary capital, profit participation rights, participation capital | 1.88 | 0.00 |

The asset allocation of the actuarial reserve for occupational group insurance is structured according to the maturity of the liabilities.

Pension contributions are expected to be EUR 15,351,000 in financial year 2019 (ACTUAL in 2018: EUR 15,184,000 incl. transfers).

Sensitivity analysis

| Pension sensitivity analysis | Variation | DBO | Change |
|------------------------------|-----------|-------------|--------|
| | in % | in EUR '000 | in % |
| Base parameters | | 854,166 | |
| Interest rate | +0.5 | 783,923 | -8.22 |
| | -0.5 | 916,968 | 7.35 |
| Future salary increases | +0.5 | 856,872 | 0.32 |
| | -0.5 | 836,182 | -2.11 |
| Future pension increases | +0.5 | 903,575 | 5.78 |
| | -0.5 | 794,140 | -7.03 |
| Employee turnover | +2.5 | 803,976 | -5.88 |
| | -2.5 | 851,243 | -0.34 |
| Mortality | +5.0 | 830,955 | -2.72 |
| | -5.0 | 861,735 | 0.89 |

METHOD FOR PERFORMING SENSITIVITY ANALYSIS

Parameter variations were calculated. Mortality is increased or decreased proportionally.

| Pension cash flow | Expected payments |
|-------------------|-------------------|

| Liabilities to financial institutions | 1,230,601 | 1,201,031 |
| Other liabilities | 2,169,237 | 2,052,163 |
| Total | 4,276,662 | 4,032,102 |

| Composition of other liabilities | 31.12.2018 | 31.12.2017 |
|--|------------|------------|
| in EUR '000 | | |
| Tax liabilities (excl. income taxes), levies and fees | 92,104 | 86,149 |
| Liabilities for social security | 17,152 | 16,424 |
| Property management, building contract and property transfer liabilities | 34,596 | 31,625 |
| Liabilities to employees and employee-related liabilities | 101,679 | 97,071 |
| Liabilities for unpaid incoming invoices | 88,929 | 79,531 |
| Interest payable for subordinated liabilities | 32,158 | 32,160 |
| Liabilities from sureties | 33,334 | 22,238 |
| Financing liabilities | 1,521,880 | 1,481,081 |
| Liabilities from public funding | 105,143 | 100,018 |
| Other liabilities | 142,262 | 105,866 |
| thereof liabilities from charges for services | 103,901 | 71,267 |
| Total | 2,169,237 | 2,052,163 |

*Includes lease liabilities, derivative liabilities and other financing liabilities

The financing liabilities reported are primarily from the non-profit societies and mainly consist of municipal financing loans for non-profit housing projects.

| Maturity structure | | 31.12.2018 | | | |
|--------------------------------------|--------------|------------------|-----------|-----------|--|
| | Underwriting | Non-underwriting | Total | Total | |
| in EUR '000 | | | | | |
| up to one year | 830,046 | 667,583 | 1,497,629 | 1,333,158 | |
| more than one year up to five years | 34,005 | 535,908 | 569,913 | 565,100 | |
| more than five years up to ten years | 11,236 | 510,608 | 521,844 | 489,898 | |
| more than ten years | 1,537 | 1,685,739 | 1,687,276 | 1,643,946 | |
| Total | 876,824 | 3,399,838 | 4,276,662 | 4,032,102 | |

14. CONTINGENT LIABILITIES AND RECEIVABLES

Litigation relating to coverage

In their capacity as insurance companies, the Group companies are involved in a number of court proceedings as defendants or have been threatened with litigation. In addition, there are proceedings in which the Group companies are not involved as parties, but may be affected by the outcome of such lawsuits due to agreements with other insurers concerning participation in claims. In the opinion of the Group, adequate provisions proportionate to the amount in dispute have been established for all claims in accordance with the law.

| Off-balance sheet claims | 31.12.2018 | 31.12.2017 |
|--------------------------|------------|------------|
| in EUR '000 | | |
| Contingent receivables | 19,465 | 15,359 |

The off-balance sheet claims for the individual financial years were primarily related to guarantees from agencies and retentions.

| Off-balance sheet commitments | 31.12.2018 | 31.12.2017 |
|-------------------------------------|------------|------------|
| in EUR '000 | | |
| Liabilities and assumed liabilities | 23,471 | 23,311 |
| Letters of comfort | 387 | 435 |
| Guarantee bond | 9,213 | 0 |
| Litigation | 0 | 11,033 |

The off-balance sheet commitments for the individual financial years were primarily related to loans of participations and liabilities for social housing, as well as completion bonds in the current financial year. There were additional risks in the previous year related to potential court cases due to the change in the law in Poland.

No off-balance sheet financing structures using special purpose structured entities or other similar corporate structures exist.

Litigation

The Group is involved in a number of legal disputes in connection with its normal business activities. Taking into account the provisions formed for these legal actions, management is of the opinion that they will not have a significant effect on the business or consolidated financial position.

*Including held for trading

Interest expenses and other expenses result from items on the liabilities side of the balance sheet or from business operations and therefore cannot be directly allocated to an investment class.

17. RESULT FROM SHARES IN AT EQUITY CONSOLIDATED COMPANIES

| Composition | 2018 | 2017 |
|----------------|--------|--------|
| in EUR '000 | | |
| Income | 34,453 | 42,754 |
| Current result | 34,453 | 42,754 |

18. OTHER INCOME AND EXPENSES

| Composition | 2018 | 2017 |
|------------------|---------|---------|
| in EUR '000 | | |
| Other income | 131,493 | 223,149 |
| Underwriting | 60,730 | 148,465 |
| Non-underwriting | 70,763 | 74,684 |
| Other expenses | 325,204 | 301,572 |
| Underwriting | 192,759 | 156,931 |
| Non-underwriting | 132,445 | 144,641 |

| Details of other income | 2018 | 2017 |
|---|---------|---------|
| in EUR '000 | | |
| Other income | 131,493 | 223,149 |
| thereof compensation for services performed | 8,723 | 7,270 |
| thereof release of other provisions | 15,991 | 20,551 |
| thereof fees of all kinds | 20,087 | 25,069 |
| thereof exchange rate gains | 30,852 | 94,429 |
| thereof reversal of allowances for receivables and receipt of payment for written-off receivables | 13,427 | 22,494 |

The decrease in exchange rate gains compared to the previous year was mainly caused by fluctuations in the Swiss franc and euro exchange rate. This exchange rate effect is neutral with respect to the Group result, since an offsetting change takes place in the underwriting result.

| Details of other expenses | 2018 | 2017 |
|--|---------|---------|
| in EUR '000 | | |
| Other expenses | 325,204 | 301,572 |
| thereof adjustments (not including investments) | 38,918 | 44,967 |
| thereof write-downs of the insurance portfolio and customer base | 7,081 | 19,919 |
| thereof brokering expenses | 20,832 | 22,259 |
| thereof underwriting taxes | 31,040 | 26,074 |
| thereof exchange rate losses | 45,940 | 42,896 |
| thereof other contributions and fees | 15,244 | 15,254 |
| thereof expenses for government-imposed contributions | 26,091 | 23,837 |
| thereof impairment of goodwill and trademarks | 55,222 | 27,262 |

*The impairment in the current reporting year mainly concern the CGU groups of Romania and Turkey. The impairment in the previous year mainly concerns the CGU group Ukraine, Moldova and Albania incl. Kosovo as well as the Asirom trademark.

19. EXPENSES FOR CLAIMS AND INSURANCE BENEFITS

| Composition | 2018 | 2017 |
|--|-----------|-----------|
| in EUR '000 | | |
| Expenses for claims and insurance benefits – gross | 7,374,913 | 7,366,621 |
| Payments for claims and insurance benefits | 6,953,408 | 6,635,605 |
| Changes in the provision for outstanding claims | 271,254 | 288,240 |
| Change in mathematical reserve | -92,942 | 322,131 |
| Change in other underwriting provisions | 2,738 | -13,597 |
| Expenses for profit-related and profit-unrelated premium refunds | 240,455 | 134,242 |
| Expenses for claims and insurance benefits – reinsurers' share | -427,906 | -494,033 |
| Payments for claims and insurance benefits | -368,010 | -396,592 |
| Changes in the provision for outstanding claims | -55,291 | -91,695 |
| Change in mathematical reserve | 870 | 2,481 |
| Change in other underwriting provisions | -1,035 | 48 |
| Expenses for profit-unrelated premium refunds | -4,440 | -8,275 |
| Expenses for claims and insurance benefits – retention | 6,947,007 | 6,872,588 |
| Payments for claims and insurance benefits | 6,585,398 | 6,239,013 |
| Changes in the provision for outstanding claims | 215,963 | 196,545 |
| Change in mathematical reserve | -92,072 | 324,612 |
| Change in other underwriting provisions | 1,703 | -13,549 |
| Expenses for profit-related and profit-unrelated premium refunds | 236,015 | 125,967 |

20. ACQUISITION AND ADMINISTRATIVE EXPENSES

¹ Including held for trading

² Not including lease liabilities and derivative liabilities

The book values were generally used for the fair value of the financial liabilities (except for subordinated liabilities), which were primarily due to the non-profit societies, as no market exists for property subject to the Austrian Non-Profit Housing Act (WGG). The same applies to their financing loans and bonds, whose terms are determined by the special nature of the non-profit sector and consequently are not available in this form to companies outside this sector. As a result, no market can be found for these forms of financing either.

Measurement process

The measurement process aims to determine fair value using price quotations that are publicly available in active markets or valuations based on recognised economic models using observable inputs. If public price quotations and observable market data are not available for a financial asset, the asset is generally measured using valuation reports prepared by appraisers (e.g. expert reports). The organisational units responsible for appraisal of investments are independent of the units that assume the risk exposure of the investments, thereby ensuring separation of functions and responsibilities.

As a rule, the aim is to use the same price within the Group to value a particular security on each valuation date. In practice, however, situations occur when the cost of process compliance would be inappropriate. For example, the local provisions in some countries (in which the Group operates) require the insurance companies there to use prices on the local stock exchange to value certain investments. In this case, if the same security is held by other Group companies, these companies might use another price source for valuation.

Institutional funds are another example where uniform valuation can only be achieved at an inordinately high cost. The Austrian companies hold varying amounts of institutional funds that are required under the IFRS to be included in the consolidated financial statements. However, the valuation logic of an institutional fund requires the fund value (NAV) on a particular date to be calculated using the (in general, closing) prices on the previous day. In this case, a security that is both held in an institutional fund and directly held will be valued using different prices.

The following items are measured at fair value:

- Financial instruments available for sale,
- Financial instruments recognised at fair value through profit and loss (incl. held for trading),
- Derivative financial instruments (assets/liabilities), and
- Investments for unit-linked and index-linked life insurance.

Balance sheet items that are not reported at fair value are subject to non-recurring measurement at fair value. These items are measured at fair value when events occur that indicate that the book value might no longer be recoverable (impairment). The following items are not reported at fair value:

- Financial instruments held to maturity,
- Shares in at equity consolidated companies,
- Land and buildings (self-used and investment property),
- Loans, and
- Receivables.

REAL ESTATE VALUATION

The following valuation methods are used to calculate the fair value of real estate in the Group:

- the capitalised earnings method,
- asset value method (only for property and to determine maintenance expenses), and
- discounted cash flow method.

Each time valuation is performed, the methods are verified, which allows the fair value of a property to be calculated. The Group mainly uses the capitalised earnings method. In rare cases, the asset value method or discounted cash flow method is also used, provided it can be used to determine the highest and best use value for the property type.

Capitalised earnings method

In this method, the value of a property is determined by using an appropriate interest rate to capitalise expected or received future gross profits over the expected useful life. The net operating income is calculated by deducting actual operating, maintenance and administrative expenses (management expenses). An allowance for lost rental income and any liquidation proceeds and costs are also taken into account. The rate used to calculate capitalised earnings is based on the achievable return on investment. Net operating income minus the return on the land is capitalised at this rate over the remaining useful life to calculate the capitalised earnings value of the physical facilities. This is added to the land value to calculate the total capitalised earnings value of the property.

Asset value method

The asset value method is comprised of the land value, building value, the value of outdoor facilities and the value of existing annexes and represents a market-oriented method. This method is, as a rule, used to determine the value of undeveloped property. Land value is generally determined using the residual value method, with a premium or discount for overuse/underuse applied since 2018 instead of a development discount. A usable area study is performed to determine whether overuse or underuse exists.

Discounted cash flow method

The discounted cash flow method is a valuation method that discounts cash flows during the forecast phase (phase I) back to the valuation date. Discounting is performed using a rate for a comparable risky investment with property- and market-specific premiums. The gross profit for the year plus vacancy rental (at current market rent) minus non-allocable management costs equals the net operating income for the year. The method allows precise analysis of the individual years of the initial forecast phase so that investments and vacancies can be assigned to individual years and accounted for in advance. In phase II, the proceeds from a fictitious disposal at the end of the forecast phase (max. 10 years) are calculated by capitalising future cash flows. The rate used for this calculation is the rate for a comparably risky investment plus market-and property-specific premiums, less the expected increase in value.

OTHER DISCLOSURES ABOUT THE VALUATION PROCESS

The use of different pricing models and assumptions can lead to differing results for fair value. Changes in the estimates and assumptions used to determine the fair value of assets in cases where no market price quotations are available may necessitate a write-up or write-down of the book value of the assets in question and recognition of the corresponding income or expense on the income statement.

Certain investments whose fair value is normally not measured repeatedly are measured a single time at fair value when events or changes in circumstances indicate that the book value might no longer be recoverable. If financial assets are measured at fair value when impairment is recognised or fair value minus selling costs is used as a measurement basis in accordance with IFRS 5, a disclosure to this effect is included in Note 16. Financial result excl. result from at equity consolidated companies starting on page 135 or Note 18. Other income and expenses on page 141.

Reclassification of financial instruments

The Group companies regularly review the validity of the last fair value classification performed on each valuation date. A reclassification is performed, for example, if needed inputs are no longer directly observable in the market.

Reclassifications between Level 1 and 2 primarily occur if liquidity, trading frequency or trading activity of the particular financial instrument once again, or no longer allows one to conclude an active market exists. For example, the market maker for a security changes frequently, with corresponding changes on liquidity. A similar example is when shares are included in (or removed from) an index that acts as a benchmark for many funds. The classification can also change in this case. As a result of the decentralised organisation of the Group, the classifications are generally reviewed by the local companies at the end of the period. Any reclassifications are presented as if they had taken place at the end of the period.

| Reclassification of financial instruments | 2018 | | | | | |
|--|--------------------------------|---|---|---|--------------------|--|
| | Between Level 1 and Level 2 | | | | Level 2 to Level 3 | |
| Number | | | | | | |
| Financial instruments available for sale | 122 | 0 | 1 | 3 | 53 | |
| Financial instruments recognised at fair value through profit and loss | 5 | 0 | 0 | 0 | 9 | |
| Total | 127 | 0 | 1 | 3 | 62 | |

*Including held for trading

Reclassifications from Level 1 to Level 3 took place based on the non-availability of prices or comparable financial instruments used for measurement. The reclassifications from Level 3 to Level 2 were performed due to consolidation effects between the measurement hierarchies. Financial instruments whose unobservable input factors now have a greater influence on fair value than the observable factors were reclassified from Level 2 to Level 3.

| Reclassification of financial instruments | 2017 | | | | | |
|---|--------------------------------|--------------------|--------------------|--------------------|--------------------|--|
| | Between Level 1 and Level 2 | Level 3 to Level 1 | Level 1 to Level 3 | Level 3 to Level 2 | Level 2 to Level 3 | |
| Number | | | | | | |
| Financial instruments available for sale | 22 | 5 | 10 | 7 | 8 | |
| Financial instruments recognised at fair value through profit and loss* | 2 | 0 | 3 | 0 | 0 | |
| Total | 24 | 5 | 13 | 7 | 8 | |

*Including held for trading

The reclassifications between Level 1 and Level 2 are primarily due to changes in liquidity, trading frequency and trading activity. The reclassifications to Level 3 were performed due to consolidation effects between the measurement hierarchies, and reclassifications from Level 3 to Level 1 in the financial instruments available for sale category were performed for the same reason.

Hierarchy for financial instruments measured at fair value

| Measurement hierarchy | Level 1 Level 2 | | Level 1 Level 2 Lev | | Level 2 | | Level 2 Level 3 | |

| Investments for unit-linked and index-linked life insurance | 8,048,622 | 9,061,073 | | | | | | |

*Including held for trading

The unrealised effect on the result (net profit or loss) from Level 3 financial instruments that are still in the portfolio and whose fair value is recognised in the income statement was EUR 5,917,000 during the reporting year (EUR -11,153,000).

Unobservable input factors

| Asset class | Measurement methods | Unobservable input factors | Range |
|--|---------------------------------|----------------------------|--------------------------|
| Real estate | Market value | Capitalisation rate | 1%-7% |
| | | Rental income | EUR 3,000–EUR 3,702,000 |
| | | Land prices | EUR 0EUR 6,000 |
| | Discounted Cash flow | Capitalisation rate | 4.00%-9.09% |
| | | Rental income | EUR 88,000-EUR 4,090,000 |
| Financial instruments available for sale | Hull-White present value method | Rating-dependent spreads | 0.13%-5.32% |

Sensitivities

With respect to the value of shares measured using a Level 3 method (multiples approach), the Group assumes that alternative inputs and alternative methods do not lead to significant changes in value.

The most important bonds measured using a level 3 method in the financial instruments available for sale category are held by the Austrian, Czech and Polish companies and show the following sensitivities:

| Financial instruments available for sale – loans | Fair Value |
|--|------------|
| in EUR '000 | |
| Fair value at 31.12.2018 | 330,571 |
| Rating-dependent spread +50bp | -6,902 |
| Effect on the statement of comprehensive income | -6,902 |

The following sensitivities result from calculations using the Solvency II partial internal model:

| Real estate | Fair Value |
|---------------------------|------------|
| in EUR '000 | |
| Fair value at 31.12.2018 | 2,764,679 |
| Rental income -5% | 2,665,085 |
| Rental income +5% | 2,866,822 |
| Capitalisation rate -50bp | 2,908,553 |
| Capitalisation rate +50bp | 2,642,801 |
| Land prices -5% | 2,732,174 |
| Land prices +5% | 2,799,107 |

Since real estate is measured at cost in the VIG balance sheet, negative sensitivities would only affect the income statement if property value fell below book value. Other comprehensive income was therefore unaffected.

Reconciliation of financial assets and liabilities

| Compensation paid to active Managing Board members | 5,031 | 4,511 |
| Total | 14,318 | 9,704 |

Compensation plan for members of the Managing Board

Managing Board compensation takes into account the importance of the Group and the responsibility that goes with it, the economic situation of the Company, and the appropriateness of the remuneration in the market environment.

The variable portion of the compensation emphasises the need for sustainability and achieving it fully depends critically on an analysis of the sustainable performance of the Company that extends beyond a single reporting year.

The performance-related compensation is limited. The maximum performance-related compensation that the Managing Board can receive by overachieving the traditional targets in financial year 2018 is around 60% of fixed salary. Bonus compensation can also be earned for appropriate target achievement. In total, the members of the Managing Board can earn variable compensation equal to a maximum of around 80% to 105% of their fixed compensation in this way.

Large parts of performance-related compensation are only paid after a delay. The delay for the 2018 financial year extends to 2022. The deferred portions are awarded based on the sustainable performance of the Group.

The Managing Board is not entitled to performance-related compensation if performance fails to meet certain thresholds. Even if the targets are fully met in a given financial year, because of the focus on sustainability, the full variable compensation is only awarded if the Group also achieves sustainable performance in the three following years.

The main performance criteria for variable compensation in 2018 were the combined ratio, premium growth, result before taxes and – as a non-financial objective – the promotion of social responsibility in practice, and for bonus compensation those were country-specific targets and requirements related to cooperations.

Managing Board compensation does not include stock options or similar instruments.

The standard employment contract for a member of the Managing Board of the Company includes – depending, among other things, on the length of time with the Group – a pension equal to a maximum of 40% of the measurement base if the member remains on the Managing Board until the age of 65 (the measurement base is equal to the standard fixed compensation). This pension amount can be increased in individual cases if work continues past the maximum pension age, since a pension is not drawn during this period.

A pension is normally received only if a Managing Board Member's position is not extended and the member is not at fault for the lack of extension, or the Managing Board Member retires due to illness or age.

The contracts for individual Managing Board members who have been active in the Group for a long time provide for a severance payment structured in accordance with the provisions of the Austrian Employee Act (Angestelltengesetz), as amended in 2003, in combination with applicable industry-specific provisions. This allows these Managing Board Members to receive a severance payment equal to two to twelve months' compensation, depending on the period of service, with a supplement of 50% if the member retires or leaves after a long-term illness. A Managing Board Member who leaves by their own choice, without agreement with the Company, before retirement is possible, or leaves due to their own fault, is not entitled to severance payment.

The provisions of the Austrian Employee and Employment Provisions Act apply to the remaining Managing Board Member's contracts.

Managing Board Members are provided with a company car for both business and personal use. The members of the Managing Board received EUR 5,031,000 (EUR 4,511,000) from the Company during the reporting period for their services. The members of the Managing Board received EUR 803,000 (EUR 608,000) from subsidiaries during the reporting period.

Former members of the Managing Board received EUR 1,650,000 (EUR 719,000). Former members of the Managing Board received EUR 728,000 (EUR 347,000) from subsidiaries during the reporting period.

The Managing Board had five members in January 2018 and six members starting in February 2018.

24. AUDITING FEES AND AUDITING SERVICES

| Composition | 2018 | 2017 |
|--|-------|-------|

¹ Country names in parentheses are added if there is more than one company with the same abbreviated name and it is not clear from the context which one is intended. The context is assumed to be clear, for example, if the name is used in a description of activities taking place within a country.

Please see section Scope and methods of consolidation starting on page 69 for information on changes in the scope of consolidation.

The information required under § 265 (2) no. 4 of the Austrian Commercial Code (UGB) is provided in the overview of participations in the separate financial statements.

27. RELATED PARTIES

Related parties

Related parties are the affiliated companies, joint ventures and associated companies listed in Note 26. Participations – Details starting on page 155. In addition, the members of the Managing Board and Supervisory Board of VIG Holding also qualify as related parties. Wiener Städtische Versicherungsverein directly and indirectly holds around 71.49% (around 71.26%), and therefore a majority of the voting rights of VIG. Based on this controlling interest, it and the members of its managing board and supervisory board are therefore also related parties.

Supervisory Board and Managing Board compensation and notes on the compensation plan for Managing Board members are provided in Note 23. Number of employees and personnel expenses starting on page 151.

Members of the Managing Board and Supervisory Board did not receive any advances or loans and had no loans outstanding during the reporting periods.

There were also no guarantees outstanding for members of the Managing Board or Supervisory Board during the reporting periods.

Transactions with related companies

Transactions with non-consolidated affiliated and associated companies mainly relate to financing and charges for services.

Transactions with Wiener Städtische Versicherungsverein

Wiener Städtische Versicherungsverein is VIG's principal shareholder. It has the legal form of a mutual insurance association that has spun off its insurance operations under the Austrian Insurance Supervision Act (VAG) and consequently has no insurance business operations. Due to the outsourcing to Wiener Städtische Versicherung AG that took place at that time,

its only responsibilities are those as a majority shareholder of VIG Holding, so that intercompany charges within the Group are of minor importance. They are based on service agreements between VIG Holding and Wiener Städtische Versicherungsverein for intercompany charges for internal audit services, Group accounting, provision of staff and office leases based on the arm's length principle.

28. OBLIGATIONS UNDER LEASES

| Payments recorded as expenses | 31.12.2018 |
|--|------------|
| in EUR '000 | |
| Minimum lease payments from operating leases | 35,480 |
| Payments received from subletting under operating leases | |
| Lease payments from finance leases | 1,587 |
| Total | 35,737 |

28.1. Operating leases

The Group's lease obligations are primarily due to leases of company vehicles and real estate.

| Maturity structure of minimum lease payments – lessee | 31.12.2018 |
|---|------------|
| in EUR '000 | |
| up to one year | 37,963 |
| more than one year up to five years | 42,788 |
| more than five years | 156,266 |
| Total | 237,017 |

| Maturity structure of minimum lease payments – lessor | 31.12.2018 |
|---|------------|
| in EUR '000 | |
| up to one year | 152,360 |
| more than one year up to five years | 100,218 |
| more than five years | 120,512 |
| Total | 373,090 |

The lessor minimum lease payments mainly concern building leases.

28.2. Finance leases

The Group has no material finance leases, either as a lessor or lessee.

29. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

Group company InterRisk invests in TUW "TUW" insurance association

VIG is investing in the Towarzystwo Ubezpieczeń Wzajemnych "TUW" insurance association via its Polish Group company InterRisk. Group company InterRisk expects around an additional EUR 70 million in premiums from reinsurance business with TUW "TUW".

Vienna Insurance Group concludes acquisition of Gothaer TU in Poland

VIG has acquired 100 per cent of the shares of Gothaer Towarzystwo Ubezpieczeń (Gothaer TU). The transaction was concluded on 28 February 2019 after approval by the local authorities. The company generated a stable premium volume of around EUR 170 million in 2018.

ADDITIONAL DISCLOSURES IN ACCORDANCE WITH THE AUSTRIAN INSURANCE SUPERVISION ACT (VAG)

PROFIT PARTICIPATION IN AUSTRIA

Life insurance

Under the FMA regulation of 6 October 2015 on profit participation in the life insurance sector (LV-GBV), the expenses for profit-related premium refunds and policyholder profit participation plus any direct credits have to be at least 85% of the measurement basis. The measurement basis within the meaning of § 4(1) LV-GBV is calculated as follows for life insurance policies eligible for profit participation:

| Life measurement basis | 31.12.2018 | 31.12.2017 |
|---|------------|------------|
| in EUR '000 | | |
| Net earned premiums – retention | 866,142 | 915,322 |
| Income and expenses for investments and interest expenses | 394,413 | 390,963 |
| Expenses for claims and insurance benefits – retention | -1,023,601 | -1,116,539 |
| Acquisition and administrative expenses | -130,316 | -132,179 |
| Other underwriting and non-underwriting income and expenses | -8,259 | -996 |
| Taxes | -6,641 | -1,041 |
| Total | 91,738 | 55,530 |

Health insurance

According to § 1 of the FMA regulation on profit participation in the health insurance sector (KV-GBV) of 15 October 2015, the regulation is applicable to policies whose actuarial bases were submitted after 30 June 2007 and whose terms provide for profit participation. The expenses for profit-related premium refunds plus any direct credits have to be at least 85% of the measurement basis for the health insurance policies concerned. The measurement basis within the meaning of § 3 (1) KV-GBV is calculated as follows for health insurance policies eligible for profit participation:

| Health measurement basis | 31.12.2018 | 31.12.2017 |
|---|------------|------------|
| in EUR '000 | | |
| Net earned premiums – retention | 8,339 | 8,473 |
| Income and expenses for investments and interest expenses | 651 | 566 |
| Expenses for claims and insurance benefits – retention | -7,861 | -7,111 |
| Acquisition and administrative expenses | -1,018 | -1,137 |
| Other underwriting and non-underwriting income and expenses | -198 | -139 |
| Taxes | -3 | -7 |
| Total | -90 | 645 |

Corporate governance report

Transparency and stakeholder trust are important to us. Observance of and compliance with the provisions of the Austrian Code of Corporate Governance therefore play an important role in Vienna Insurance Group.

The Austrian Code of Corporate Governance was introduced in 2002 and is regularly updated according to legislation and current trends. It is the standard for proper corporate governance and control in Austria. Provisions of the Code contribute to strengthening the trust in the Austrian capital market. The report that companies are required to publish on compliance with these provisions requires a high level of transparency.

Vienna Insurance Group is committed to the application of and compliance with the January 2018 version of the Austrian Code of Corporate Governance. § 243c UGB and § 267b UGB (Consolidated Corporate Governance Report) were also applied when preparing this report.

The Austrian Code of Corporate Governance is available to the public both on the VIG website at www.vig.com/ir and the website of the Austrian Working Group for Corporate Governance at www.corporate-governance.at.

Vienna Insurance Group sees corporate governance as a continuously changing process that responds to new conditions and current trends for the benefit of the Group as well as for its stakeholders. The goal of all corporate governance measures is to ensure responsible corporate management aimed at long-term growth while maintaining effective corporate control at the same time.

Vienna Insurance Group Managing Board, Supervisory Board and employees consider observance of and compliance with the rules of the Austrian Code of Corporate Governance to be highly important for the practical implementation of corporate governance. All information on the members, procedures and remuneration of the Managing Board and Supervisory Board are clearly organised and presented below.

The rules of the Austrian Code of Corporate Governance are divided into the following three categories:

- Rules based on mandatory legal requirements ("Legal Requirement")
- Rules that must be observed. Non-compliance with these rules must be declared and explained in order to comply with the Code ("Comply or Explain")
- Non-compliance with rules which are merely recommendations do not need to be disclosed or explained ("Recommendation")

Vienna Insurance Group complies with all of the rules of the Austrian Code of Corporate Governance.

VIG's scope of consolidation also includes capital marketoriented subsidiaries that are required by the legal systems applicable to them to prepare and publish corporate governance reports. These include: Ray Sigorta (Turkey) and Makedonija (North Macedonia). The corporate governance reports are included in the annual reports of these companies and can be accessed through their respective websites: www.raysigorta.com.tr (About > Investor Relations), www.insumak.mk (website link: http://insumak.mk/ finansiski-izvestai.php). Any areas of deviation – and the explanation(s) – are indicated in the corporate governance reports of these companies.

Vienna Insurance Group's shareholder structure is available at www.vig.com/ir.

MEMBERS OF THE MANAGING BOARD AND THEIR RESPONSIBILITIES

The Vienna Insurance Group Managing Board consists of the following six members as of 31 December 2018:

Elisabeth Stadler General Manager, Chairwoman of the Managing Board Year of birth: 1961 Date first appointed: 1 January 2016 End of current term of office: 30 June 2023

Franz Fuchs Year of birth: 1953 Date first appointed: 1 October 2009 End of current term of office: 30 June 2020

Elisabeth Stadler studied actuarial mathematics at the Vienna Technical University and began her career in the Austrian insurance industry as Board member and chairwoman. In May 2014, she was awarded the professional title of professor by Federal Minister Gabriele Heinisch-Hosek for her merits for the insurance industry. She held the position of General Manager at Donau Versicherung from September 2014 to March 2016, and has been CEO of Vienna Insurance Group since 2016.

Areas of responsibility: Management of the VIG Group, Strategic Questions, General Secretariat, European Affairs, Group Communication & Marketing, Group Sponsoring, Human Resources, Group Development and Strategy, Asset Management, Treasury/Capital Market, Affiliated companies department, Bancassurance

Country responsibilities: Austria, Czech Republic

Supervisory board positions or comparable positions in other Austrian and foreign companies outside the Group: Institute of Science and Technology Austria, Austrian Red Cross

Elisabeth Stadler is also active in the Supervisory Boards of significant¹ Vienna Insurance Group companies: Wiener Städtische (Austria), Donau Versicherung (Austria), Kooperativa (Czech Republic), ČPP (Czech Republic), PČS² (Czech Republic), Compensa Non-Life (Poland), InterRisk (Poland).

Franz Fuchs began his career in the insurance industry as an actuary. He held leading management positions in other international companies as a specialist in the life insurance area and pension funds before joining VIG. From 2003 until early 2014, Franz Fuchs was Chairman of the Managing Board of Compensa Non-Life and Compensa Life in Poland. He has been Chairman of the Managing Board of VIG Polska since 2003. He was first appointed to the Vienna Insurance Group Managing Board on 1 October 2009.

Areas of responsibility: Performance management motor vehicle insurance

Country responsibilities: Moldova, Poland, Romania, Ukraine

Supervisory board positions or comparable positions in other Austrian and foreign companies outside the Group: C-QUADRAT Investment AG

Franz Fuchs is also active in the Supervisory Boards of significant¹ Vienna Insurance Group companies: Kooperativa (Czech Republic), ČPP (Czech Republic), PČS² (Czech Republic), Compensa Non-Life (Poland), InterRisk (Poland).

¹ Vienna Insurance Group considers all companies that contribute at least 2% of written premiums and at least 2% in profit before taxes to be "significant".

² The planned merger of PČS and Kooperativa was officially concluded at the beginning of January 2019.

Judit Havasi Year of birth: 1975 First appointed on: 1 January 2016 End of current term of office: 30 June 2023

Liane Hirner, CFO Year of birth: 1968 First appointed on: 1 February 2018 End of current term of office: 31 January 2023

Judit Havasi studied law and has been working for the Group since 2000. She began her career in the internal audit department of UNION Biztosító, and became the head of this department in 2003. Before her appointment to the Managing Board of Wiener Städtische in 2009, Judit Havasi was a substitute Member of the Managing Board of Wiener Städtische and a Member of the Managing Board of UNION Biztosító in Hungary. Judit Havasi was Deputy General Manager of Wiener Städtische from July 2013 until the end of 2015. She was also a substitute Member of the Vienna Insurance Group Managing Board starting in 2011. She has been a Member of the Vienna Insurance Group Managing Board since January 2016.

Areas of responsibility: Planning & Controlling, Legal department, Group IT, Data Management & Processes, Performance management personal, Asset Risk Management

Country responsibilities: Hungary

Supervisory board positions or comparable positions in other Austrian and foreign companies outside the Group: Erste&Steiermärkische Bank d.d., Die Zweite Wiener Vereins-Sparcasse, "Volkstheater" Gesellschaft m.b.H., "Volkstheater" - Privatstiftung

Judit Havasi is also active in the Supervisory Boards of significant¹ Vienna Insurance Group companies: Wiener Städtische (Austria), Donau Versicherung (Austria), Kooperativa (Slovakia).

Liane Hirner studied business administration in Graz. Before joining Vienna Insurance Group, she worked at PwC Austria's audit department where she started in 1993, and when she left, Liane Hirner was partner in the insurance area. In addition to her work as an auditor, Liane Hirner has also been involved in many professional associations, such as the IFRS Working Group of the Austrian Insurance Association and the Insurance Working Party of Accountancy Europe in Brussels. Liane Hirner was appointed to the Vienna Insurance Group Managing Board on 1 February 2018. She assumed the position of CFO on 1 July 2018.

Areas of responsibility: Finance and accounting

Country responsibilities: Germany, Belarus

¹ Vienna Insurance Group considers all companies that contribute at least 2% of written premiums and at least 2% in profit before taxes to be "significant".

Peter Höfinger Year of birth: 1971 Date first appointed: 1 January 2009 End of current term of office: 30 June 2023

Peter Thirring Year of birth: 1957 Date first appointed: 1 July 2018 End of current term of office: 30 June 2023

Peter Höfinger studied law at the University of Vienna and the University of Louvain-la-Neuve (Belgium). Peter Höfinger has been a member of the Vienna Insurance Group Managing Board since 1 January 2009. Prior to that, he was a director of the Managing Board at Donau Versicherung, responsible for sales and marketing. He joined this company in 2003. Previously, he held positions as managing board chairman and managing board member outside the Group in Hungary, the Czech Republic and Poland.

Areas of responsibility: Corporate and large customer business, Vienna International Underwriters (VIU), Group reinsurance

Country responsibilities: Albania and Kosovo, Bosnia-Herzegovina, Bulgaria, Croatia, North Macedonia, Montenegro, Serbia, Baltic states

Peter Thirring studied law at the University of Vienna. He has used his more than 30 years of insurance experience in the Generali insurance group. He was General Manager of Donau Versicherung from March 2016 to the end of June 2018. Peter Thirring was appointed to the Vienna Insurance Group Managing Board on 1 July 2018.

Areas of responsibility: Group external income reinsurance

Country responsibilities: Georgia, Liechtenstein, Slovakia, Turkey

Peter Thirring is also active in the Supervisory Boards of significant¹ Vienna Insurance Group companies: Kooperativa (Slovakia).

The Managing Board as a whole is responsible for Enterprise Risk Management, Actuarial department, Group Compliance, Internal Audit, Investor Relations.

In addition, Gábor Lehel (year of birth 1977) was appointed as a substitute member of the Managing Board for financial year 2018 and may become a full Member if a current Member of the Managing Board can no longer perform his or her duties.

Changes during and after the end of the financial year

Martin Simhandl (year of birth 1961) was a Member of the Vienna Insurance Group Managing Board in financial year 2018 from 1 January 2018 to 30 June 2018 and left the Managing Board at the end of his term of office on 30 June 2018.

¹ Vienna Insurance Group considers all companies that contribute at least 2% of written premiums and at least 2% in profit before taxes to be "significant".

Gábor Lehel (year of birth 1977) and Gerhard Lahner (year of birth 1977) have been appointed as substitute Members of the Managing Board for financial year 2019 and may become full Members if a current Member of the Managing Board can no longer perform his or her duties.

MEMBERS OF THE SUPERVISORY BOARD

The Supervisory Board had the following ten members as of 31 December 2018:

Günter Geyer Chairman

Year of birth: 1943 Date first appointed: 2014 End of current term of office: 2019

Günter Geyer joined Wiener Städtische in 1974 and was appointed to the Managing Board in 1988. In 2001, he became General Manager and Chairman of the Managing Board of Wiener Städtische. The Company's entry into the CEE market, with the establishment of the Kooperativa insurance companies in Bratislava and Prague and expansion into other CEE countries to become a major international insurance group, began under his leadership. Günter Geyer receives many national and international awards for his involvement in these countries. For example, he received an honorary doctorate degree from the University of Economics in Bratislava for his contribution to the development of the insurance industry in the Republic of Slovakia. Günter Geyer resigned from his position as Chairman of the Managing Board of Vienna Insurance Group on 31 May 2012. He has held the position of Chairman of the Supervisory Board of Wiener Städtische since 2009 and Chairman of the Supervisory Board of Vienna Insurance Group since 2014. He is also the Chairman of the Managing Board of Wiener Städtische Wechselseitiger Versicherungsverein, the principal shareholder of Vienna Insurance Group.

Rudolf Ertl

1st Deputy Chairman

Year of birth: 1946

Date first appointed: 2014

End of current term of office: 2019

Rudolf Ertl is Doctor of Laws and has been with the Group since 1972. He was a Member of the Managing Board of Wiener Städtische until the end of 2008 and a Member of the Managing Board of Donau Versicherung until June 2009. He is a Member of the Managing Board of Wiener Städtische Wechselseitiger Versicherungsverein, the principal shareholder of VIG. The insurance expertise he has accumulated over many years, and his knowledge of the CEE region make Rudolf Ertl a major asset to the Company as 1st Deputy Chairman of the Supervisory Board.

Maria Kubitschek 2nd Deputy Chairwoman

Year of birth: 1962

Date first appointed: 2014 End of current term of office: 2019

After completing her studies in social sciences and economics at the University of Vienna, Maria Kubitschek began working for the Vienna Chamber of Labour in 1988. After holding a variety of management positions, she had been head of the Economic Division at the Vienna Chamber of Labour starting in 2001, with an interruption from 2011 until 2013 as head of the cabinet for the Austrian Federal Ministry for Transport, Innovation and Technology. She has been Deputy Director of the Vienna Federal Chamber of Labour since 2016, responsible, among other things, for coordinating the digitalisation strategy of the Federal Chamber of Labour, and head of the European office in Brussels. She is also a member of the managing board of the Austrian Institute of Economic Research (WIFO).

Bernhard Backovsky

Year of birth: 1943

Date first appointed: 2002

End of current term of office: 2019

Provost Bernhard Backovsky was ordained a priest in 1967 and elected the 66th provost of the Klosterneuburg Monastery in December 1995 – a position he still holds today. Under his leadership, the business operations of the monastery were reformed and a general renovation of the monastery was completed successfully in 2014. From 2002 until 2017, he was also Abbot General of the Austrian Congregation of the Canons Regular, and from 2010 to 2016 he was Abbot Primate of the International Confederation of the Canons Regular of St. Augustine. In addition to numerous other honours, at the end of 2010 he received the Grand Decoration of Honour in Silver for Services to the Republic of Austria for supporting the Foundation for Street Children in Romania.

Martina Dobringer

Year of birth: 1947 Date first appointed: 2011 End of current term of office: 2019 Martina Dobringer held various management positions in the Coface group starting in 1989 and brings her extensive knowledge of the international insurance industry with her. As Chairwoman of the Managing Board of Coface Central Europe Holding AG, she laid the cornerstone for Coface's successful expansion into this region. From 2001 to 2011, she was General Manager and Chairwoman of the Managing Board of Coface Austria Holding AG. In 2011, she was awarded the Grand Decoration of Honour in Silver for Services to the Republic of Austria, and in 2006 she became the first Austrian businesswoman to receive the highest French honour ("Chevalier dans l'ordre de la Légion").

Gerhard Fabisch

Year of birth: 1960 Date first appointed: 2017 End of current term of office: 2019

Gerhard Fabisch studied business administration and economics. He joined the Steiermärkische Bank und Sparkassen AG in 1985 and was made a member of the Managing Board in 2001 and Chairman of the Managing Board in 2004. Steiermärkische Bank und Sparkassen AG has a number of affiliated companies abroad, including in Croatia, Serbia and Bosnia-Herzegovina. Gerhard Fabisch is a member of the Board of Directors of ESBG (European Savings and Retail Banking Group) and WSBI (World Savings Banks Institute). He has been President of the Austrian Sparkassenverband since 2014.

Heinz Öhler

Year of birth: 1945 Date first appointed: 2002 End of current term of office: 2019

Heinz Öhler joined the Tiroler Gebietskrankenkasse in 1970, where he initially held a position as head of the Finance Department and later held an executive position until 2011. In this position he managed country-wide projects and represented regional health insurance funds in a variety of ministerial committees, among other things. In March 2007, he was awarded the Grand Decoration of Honour in Gold for Services to the Republic of Austria for his work related to Austrian social security. He has held many positions in the sports world, including being appointed as a Member of the Tyrolean State Sports Council in November 2016.

Georg Riedl

Year of birth: 1959 Date first appointed: 2014 End of current term of office: 2019 After completing his legal studies at the University of Vienna, Georg Riedl has worked as an independent lawyer since 1991. His areas of expertise include company and tax law, mergers & acquisitions, as well as private foundation law and contract law, at which his activities cover national and international transactions.

Gabriele Semmelrock-Werzer

Year of birth: 1958

Date first appointed: 2017

End of current term of office: 2019

After holding positions at the Austrian branches of Chase Manhattan Bank AG and Crèdit Lyonnais AG, Gabriele Semmelrock-Werzer worked for Erste Group Bank AG in a variety of areas starting in 1995. She headed the Group Investor Relations department from 1999 to 2010, and in addition to international communications also actively assisted the expansion of the Erste Group into the CEE region and spent time in Prague and Bucharest. Since 2011, she has been Chairwoman of the Managing Board of Kärntner Sparkasse AG, which also holds a 70% interest in Sparkasse d.d. in Slovenia.

Gertrude Tumpel-Gugerell

Year of birth: 1952 Date first appointed: 2012

End of current term of office: 2019

Gertrude Tumpel-Gugerell was Vice Governor of the National Bank of Austria (OeNB) from 1998 to 2003 and member of the Board of Directors from 1997 to 2003. Gertrude Tumpel-Gugerell also has many years of international experience, at the European level in particular. She was the Austrian Vice Governor to the International Monetary Fund and a member of the Economic and Financial Committee – the most important economic policy advisory committee of the European Union. Gertrude Tumpel-Gugerell was responsible for the Economics and Financial Markets divisions at the National Bank of Austria. From 2003 to 2011, she was a member of the Executive Board of the European Central Bank.

SUPERVISORY BOARD INDEPENDENCE

In accordance with Rule 53 of the Austrian Code of Corporate Governance, the Supervisory Board of VIG has established the following criteria defining independence:

 The Supervisory Board Member has not been a Member of the Managing Board or a senior manager of the Company or subsidiary of the Company in the last five years.

- The Supervisory Board Member does not have a business relationship with the Company or a subsidiary of the Company that is of such significance for the Supervisory Board Member that it affects his or her activities on the Supervisory Board to the detriment of the Company. This also applies to business relationships with companies, in which the Supervisory Board Member has a considerable economic interest. The approval of individual transactions by the Supervisory Board in accordance with § 95 (5)(12) of the Austrian Stock Corporation Act (AktG) or § 15 (2)(I) of the Articles of Association does not automatically lead to a classification of non-independence. For the purpose of clarification, it is expressly noted that purchase or existence of insurance policies with the Company has no adverse effect on independence.
- The Supervisory Board Member has not been an auditor of the Company's financial statements, or held an ownership interest in or been an employee of the auditing company executing such audits in the last three years.
- The Supervisory Board Member is not a member of the Managing Board of another company that has a member of the Company's Managing Board on its Supervisory Board.
- The Supervisory Board Member is not a close family member (direct descendant, spouse, partner, parent, uncle, aunt, brother, sister, niece, nephew) of a Member of the Managing Board or individuals holding one of the positions described above.

The Supervisory Board as a whole is considered to be independent if at least 50% of the members elected by the Annual General Meeting satisfy the criteria above for the independence of a Supervisory Board Member.

Each Member of the Supervisory Board has declared whether they can be considered independent based on the criteria specified by the Supervisory Board. All Supervisory Board Members were independent on 31 December 2018 based on the criteria indicated.

No Supervisory Board Member holds more than 10% of the Company's shares.

The following Supervisory Board Members exercised supervisory mandates or comparable positions in other Austrian or foreign listed companies as of 31 December 2018:

Martina Dobringer

Praktiker AG

Georg Riedl

AT&S Austria Technologie und Systemtechnik AG

Gertrude Tumpel-Gugerell

Commerzbank AG OMV AG

PROCEDURES FOLLOWED BY THE MANAGING BOARD AND BY THE SUPERVISORY BOARD AND ITS COMMITTEES

Managing Board

The Managing Board manages the business of the Company under the leadership of its Chairperson and within the constraints of the law, articles of association, procedural rules of the Managing Board and procedural rules of the Supervisory Board.

The Managing Board meets when needed (generally each week or every two weeks) to discuss current business developments and makes the necessary decisions and resolutions during these meetings. The Managing Board Members continuously exchange information with each other and the heads of various departments.

Supervisory Board

The Supervisory Board performs all activities defined under the law, articles of association and the procedural rules of the Supervisory Board. In order to ensure effectiveness and efficiency of its activities and procedures, the Supervisory Board examines its procedures regularly, but at least once a year in the form of a self-evaluation. The Supervisory Board's evaluation of its activities in 2018 found that its organisational structure and procedures were satisfactory in terms of efficiency and in compliance with the law. It found no need for change or desire for change in the practices followed to date.

The Supervisory Board and its committees, Chairpersons and Deputy Chairpersons continuously monitor and regularly examine Company management as well as the activities of the Managing Board in terms of managing and monitoring the Group. Detailed presentations and discussions during meetings of the Supervisory Board and its committees are used for this purpose, as are thorough and, in some cases, in-depth discussions with the Members of the Managing Board who provide detailed explanations and supporting documentation relating to the management and financial position of the Company and the Group. Strategy, business development (overall and in individual regions), risk management, the internal control system, internal audit activities and reinsurance – at the VIG Holding level as well as at Group level – are also discussed during these meetings.

The Supervisory Board and the Audit Committee also directly engage with the financial statements auditor and the consolidated financial statements auditor in order to familiarise themselves with the accounting process and audit progress, and to inquire whether the audit has produced any important findings. Provision was made for exchanges between the Members of the Audit Committee and the (consolidated) financial statement auditor in such meetings without the presence of the Managing Board, but no Member of the Audit Committee took advantage of this opportunity during the reporting year. During the meetings about annual and consolidated financial statements, the audit reports are discussed and debated with the audit managers in detail both with the Audit Committee and with the entire Supervisory Board. The Audit Committee examined the Company's Solvency and Financial Condition Report (SFCR) and reported its findings to the Supervisory Board. The Supervisory Board found no grounds for objection.

The internal audit department provides quarterly reports to the Audit Committee. If necessary, the head of internal audit provides detailed explanations of individual issues and audit focal points. The head of internal audit also submits the annual audit plan to the Audit Committee for approval. The Managing Board explains the organisation and effectiveness of the internal control system, internal audit and the risk management system to the Audit Committee at least once a year, and provides the Audit Committee with a written report on this subject so that it can confirm the efficiency of the systems. The Audit Committee also examines the report and assessment of the functioning of the risk management system prepared by the (consolidated) financial statements auditor and reports its findings to the Supervisory Board.

The Audit Committee and Supervisory Board as a whole also received the 2018 sustainability report (consolidated non-financial report) from the Managing Board, and reviewed and carefully examined it. At least once a year, the Managing Board presents the Supervisory Board with the measures to be taken by the Group in order to prevent corruption, and the Supervisory Board discusses those.

When preparing nominations to the Annual General Meeting regarding the election of new Supervisory Board Members, the latter takes the professional and personal requirements set by law and the Austrian Corporate Governance Code into account which a Supervisory Board Member must satisfy and observe.

The Audit Committee and Supervisory Board also strictly ensure that all of the requirements and conditions provided under the law and the Austrian Corporate Governance Code are fully satisfied when preparing the general meeting proposal on selection of the (consolidated) financial statements auditor. As a public-interest entity, Vienna Insurance Group complies with the special additional rules for external and internal rotation applicable to insurance companies and the special tendering process. In addition, after the audit of the consolidated financial statements has been completed, the Supervisory Board is provided with a list showing the total audit expenses of all Group companies. This list provides a separate breakdown of expenses relating to the consolidated financial statements auditor, the members of the network to which the consolidated financial statements auditor pertains. The same goes for other financial statement auditors who work for the Group.

The Supervisory Board established five committees to increase its efficiency and to address complex matters: Committee for Urgent Matters (Working Committee), Audit Committee (Accounts Committee), Committee for Managing Board Matters (Personnel Committee), Strategy Committee and Nomination Committee.

SUPERVISORY BOARD COMMITTEES

COMMITTEE FOR URGENT MATTERS (WORKING COMMITTEE)

The Committee for Urgent Matters (Working Committee) decides on matters that require approval of the Supervisory Board, but cannot be deferred to the next ordinary Supervisory Board meeting because of particular urgency.

Günter Geyer (Chairman)

Substitute: Gertrude Tumpel-Gugerell

Rudolf Ertl

Substitute: Martina Dobringer

Georg Riedl

Substitute: Maria Kubitschek

AUDIT COMMITTEE (ACCOUNTS COMMITTEE)

The Audit Committee (Accounts Committee) is responsible for the duties assigned to it by law and is, in particular, responsible for the duties assigned in § 92 (4a)(4) of the Austrian Stock Corporation Act (AktG), § 123 (9) of the Austrian Insurance Supervision Act (VAG) and Regulation (EU) No. 537/2014, namely:

1. To monitor the accounting process and provide recommendations or suggestions to ensure its reliability;

2. To monitor the effectiveness of the Company's internal control system and the internal audit function and risk management system;

3. Monitor the audit of the financial statements and consolidated financial statements taking into account findings and conclusions in reports published by the supervisory authority for financial statement auditors in accordance with § 4 (2)(12) of the Austrian Auditor Supervision Act (APAG);

4. Check and monitor the independence of the financial statement auditor (consolidated financial statement auditor), in particular with respect to the additional services provided for the audited company; Art. 5 of Regulation (EU) No. 537/2014 and § 271a (6) UGB apply;

5. To report the results of the financial statement audit to the Supervisory Board and explain how the financial statement audit has contributed to the reliability of the financial reports and the role of the Audit Committee in this;

6. To audit the annual financial statements and prepare their approval, examine the proposal for appropriation of profits, the management report, the solvency and financial condition report and corporate governance report, and present a report on the audit findings to the Supervisory Board;

7. Audit the consolidated financial statements and Group management report, the solvency and financial condition

report at Group level and the corporate governance report at consolidated level, and report the results of the audit to the Supervisory Board;

8. To perform the procedure to elect the financial statement auditor (consolidated financial statement auditor) taking into account the appropriateness of the fees in accordance with Art. 4 of Regulation (EU) No. 537/2014 and the rotation periods in Art. 17 of Regulation (EU) No. 537/2014, and recommend appointment of a financial statement auditor (consolidated financial statement auditor) to the Supervisory Board in accordance with Art. 16 of Regulation (EU) No. 537/2014.

Furthermore, in a meeting (another meeting, in addition to the meeting required by law), the Audit Committee (Accounts Committee) specifies how the two-way communication between the (consolidated) financial statements auditor and the Audit Committee (Accounts Committee) has to take place, while making provision for exchanges to take place between the Audit Committee (Accounts Committee) and the (consolidated) financial statements auditor without the presence of the Managing Board.

All members of the Audit Committee are experienced financial experts with knowledge and practical experience in finance, accounting and reporting that satisfy the requirements of the Company.

Gertrude Tumpel-Gugerell (Chairwoman)

1st substitute: Gabriele Semmelrock-Werzer 2nd substitute: Heinz Öhler

Georg Riedl (Deputy Chairman) 1st substitute: Gabriele Semmelrock-Werzer 2nd substitute: Heinz Öhler

Martina Dobringer

Substitute: Heinz Öhler

Rudolf Ertl

1st substitute: Gabriele Semmelrock-Werzer 2nd substitute: Heinz Öhler

Günter Geyer

1st substitute: Gabriele Semmelrock-Werzer 2nd substitute: Heinz Öhler

Substitute: Heinz Öhler

COMMITTEE FOR MANAGING BOARD MATTERS (PERSONNEL COMMITTEE)

The Committee for Managing Board Matters (Personnel Committee) deals with personnel matters of the Managing Board. The Committee for Managing Board Matters therefore decides on employment contract terms with Members of the Managing Board and their compensation and examines remuneration policies at regular intervals.

Günter Geyer (Chairman) Rudolf Ertl Georg Riedl

STRATEGY COMMITTEE

The Strategy Committee cooperates with the Managing Board and, when appropriate, with experts that it consults in order to prepare fundamental decisions that will subsequently be decided upon by the entire Supervisory Board.

Günter Geyer (Chairman)

Substitute: Gertrude Tumpel-Gugerell

Rudolf Ertl

Substitute: Martina Dobringer

Georg Riedl

Substitute: Gabriele Semmelrock-Werzer

NOMINATION COMMITTEE

The Nomination Committee submits proposals to the Supervisory Board to fill positions that become available on the Managing Board and handles issues regarding successor planning.

Günter Geyer Rudolf Ertl Georg Riedl Martina Dobringer

In 2014, the Supervisory Board gave its consent to VIG Holding and other companies of the Group that allowed them to use the legal services of Georg Riedl, Supervisory Board Member, and engage him or his law firm to act as a representative and provide advisory services on a project-related basis under normal market terms. Georg Riedl is a lawyer who has performed consultancy services for the Group, for which he received fees totalling (net) EUR 46,081.64 plus cash expenses and 20% VAT (of which EUR 31,470.83 plus cash expenses and 20% VAT were for VIG Holding) in the 2018 financial year. Supervisory Board Members Gerhard Fabisch and Gabriele Semmelrock-Werzer are members of the managing boards of companies with which distribution agreements were concluded under normal market and industry terms and conditions. The Company did not enter into any other agreements with Supervisory Board Members in 2018 that would have required the approval of the Supervisory Board.

NUMBER OF MEETINGS OF THE SUPERVISORY BOARD AND ITS COMMITTEES IN THE FINANCIAL YEAR 2018

One regular general meeting and four Supervisory Board meetings distributed across the financial year were held in 2018. Four meetings of the Audit Committee were also held. The financial statement and consolidated financial statement auditor, KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft (KPMG), attended three Audit Committee meetings and the Supervisory Board meeting in 2018 that addressed the audit of the 2017 annual financial statements and the 2017 consolidated financial statements as well as formal approval of the 2017 annual financial statements, and also attended the Annual General Meeting. The Committee for Urgent Matters (Working Committee) was contacted once in writing in 2018. Two meetings of the Committee for Managing Board Matters (Human Resources Committee) were held in 2018. The Nomination Committee and Strategy Committee did not meet in 2018. Strategic matters were handled by the Supervisory Board as a whole.

No Member of the Supervisory Board attended less than half of the Supervisory Board meetings.

MANAGING BOARD AND SUPERVISORY BOARD COMPENSATION

The Company compensation guidelines are based on the provisions of Solvency II and include standards intended to prevent the compensation rules from creating incentives to assume excessive risk and to avoid conflicts of interest to the extent possible. The Company guidelines include further provisions for key positions – in particular variable compensation for these positions – that are generally aimed at promoting

sustainability and careful dealing with risks. The Company guidelines apply to both insurance and reinsurance companies within the Group and therefore apply to all significant subsidiaries included in the consolidation scope.

Compensation plan for Managing Board Members of the Company

Managing Board compensation takes into account the importance of the Group and the responsibility that goes with it, the economic situation of the Company, and the appropriateness of the remuneration in the market environment.

The variable portion of the compensation emphasises the need for sustainability and achieving it fully depends significantly on the sustainable performance of the Company that extends beyond a single reporting year.

The performance-related compensation is limited. The maximum performance-related compensation that the Managing Board can receive by overachieving the traditional targets in financial year 2018 is around 60% of fixed salary. Special bonus compensation can also be earned for appropriate special target achievement. In total, the Members of the Managing Board can earn variable compensation equal to a maximum of around 80% to around 105% of their fixed compensation in this way.

Large parts of performance-related compensation are only paid after a delay. The delay for the 2018 reporting year extends to 2022. The deferred portions are awarded based on the sustainable performance of the Group.

The Managing Board is not entitled to performance-related compensation if performance fails to meet certain thresholds. Even if the targets are fully met in a given reporting year, because of the focus on sustainability, the full variable compensation is only awarded if the Group also achieves sustainable performance in the three following years.

The main performance criteria for variable compensation in 2018 were the combined ratio, premium growth, result before taxes and – as a non-financial objective – the promotion of social responsibility in practice, and for special bonus compensation those were country-specific targets and requirements related to cooperations.

Managing Board compensation does not include stock options or similar instruments.

In 2018, active Managing Board Members received the following for their services to the Company and as managers of affiliated companies during the reporting period:

| | 2018 | | | | | | | |
|--|---------|-------|--------|---------------------|----------|-----------------------|-----------------------|-------|
| | Stadler | Fuchs | Havasi | Hirner ¹ | Höfinger | Simhandl ² | Thirring ³ | Total |

*Mr Gröll left the Managing Board on 30 June 2017.

The standard employment contract for a Member of the Managing Board of the Company includes – depending, among other things, on the length of time with the Group – a pension equal to a maximum of 40% of the measurement base if the Member remains on the Managing Board until the age of 65 (the measurement base is equal to the standard fixed compensation). This pension amount can be increased in individual cases if work continues past the maximum pension age, since a pension is not drawn during this period.

A pension is normally received only if a Managing Board Member's position is not extended and the Member is not at fault for the lack of extension, or the Managing Board Member retires due to illness or age.

The contracts for individual Managing Board Members who have been active in the Group for a long time are entitled to a severance payment structured in accordance with the provisions of the Austrian Employee Act (Angestelltengesetz), as amended in 2003, in combination with applicable industry-specific provisions. This allows these Managing Board Members to receive a severance payment equal to two to twelve months' compensation, depending on the period of service, with a supplement of 50% if the Member retires or leaves after a long-term illness. A Managing Board Member who leaves by their own choice, without agreement with the Company, before retirement is possible, or leaves due to their own fault, is not entitled to severance payment.

The provisions of the Austrian Employee and Employment Provisions Act apply to the remaining Managing Board Member's contracts. Managing Board Members are provided with a company car for both business and personal use.

Compensation plan for the Supervisory Board Members

In accordance with the resolutions adopted by the 27th ordinary General Meeting on 25 May 2018, the Supervisory Board Members elected by the General Meeting are entitled to receive compensation in the form of a payment remitted monthly in advance. Supervisory Board Members who withdraw from their positions before the end of a month still receive full compensation for the month in question. In addition to this compensation, Supervisory Board Members are entitled to receive an attendance allowance for participating in Supervisory Board meetings and Supervisory Board committee meetings (remitted after participating in the meeting). The total compensation paid to Supervisory Board Members in 2018 was EUR 461,000.

Supervisory Board Members received the following amounts: 2018 2017

| in EUR '000 | | |
|---|-----|-----|
| Günter Geyer | 76 | 88 |
| Rudolf Ertl | 54 | 64 |
| Maria Kubitschek | 51 | 53 |
| Bernhard Backovsky | 37 | 36 |
| Martina Dobringer | 43 | 46 |
| Gerhard Fabisch ¹ | 34 | 22 |
| Heinz Öhler | 39 | 36 |
| Reinhard Ortner ² | 0 | 2 |
| Georg Riedl | 46 | 55 |

| Karl Skyba ³ | 0 | 24 |
| Gertrude Tumpel-Gugerell | 43 | 42 |
| Total | 461 | 494 |

¹ Elected to the Supervisory Board in the General Meeting of 12 May 2017.

² Reinhard Ortner deceased on 21 January 2017.

³ Karl Skyba left the Supervisory Board on the effective date through formal discharge by the General Meeting on 12 May 2017. Supervisory Board compensation does not include stock options or similar instruments.

DIVERSITY CONCEPT

With around 50 companies and more than 25,000 employees in Austria and Central and Eastern Europe, Vienna Insurance Group combines many countries, languages and cultural backgrounds. Diversity is a key priority in its human resources strategy.

Vienna Insurance Group follows a bottom-up approach with respect to diversity management for the Company's boards. By applying diversity management to all personnel, the Group expects to generate corresponding diversity in the candidate pool for internal successor planning in the long term.

For Vienna Insurance Group, diversity reflects both the similarities and the differences it encounters in the Group, its markets and its partners as well as customers. Diversity management is based on genuine appreciation and open acceptance of diversity, and makes conscious use of this diversity. The Group includes this understanding of diversity in the VIG Code of Business Ethics: *"We tolerate no discrimination. We are committed to equal opportunity in the hiring and promotion of employees, regardless of their beliefs, religion, gender, worldview, ethnic background, nationality, sexual orientation, age, skin colour, disability or marital status."*

Group and VIG Holding level

The Vienna Insurance Group diversity concept focuses on the criteria of gender, generations and internationality at the Group level, and refined and developed measures for the following criteria:

- Gender: Ensure equal treatment for women and men in all areas (career and development options, benefits and income, etc.)
- Generations: Use mixed-age teams and take the various phases of life to develop full potential into account. Generation-appropriate offers and support in the various phases of life, learn from one another, healthy work, fair recruitment
- Internationality: Group-wide exchange of know-how (local expertise), collaborative learning, use of VIG's internal job market and ensuring an appropriate mix of people from different countries within VIG Holding

The criteria of gender, generations and internationality are also taken into account when new Supervisory Board Members are proposed for election at General Meetings.

Vienna Insurance Group has relied on the concept of local entrepreneurship for decades, thereby also promoting a very internationally diverse "community" of Group Managing Board Members and CEOs.

The topic of diversity is a key element in Group-wide management development training programmes, in terms of content as well as the participants and lecturers.

Group company level

Based on the principle of local entrepreneurship, the VIG insurance companies choose their own priorities against the background of priorities set for diversity at VIG Holding and at Group level. The Group sustainability report presents examples of successful implementation of the diversity concepts at Group company level on page 32.

Diversity Officer

As Diversity Officer, Angela Fleischlig-Tangl advises both VIG Holding and local VIG companies on matters related to diversity management.

MEASURES TO PROMOTE WOMEN IN MANAGING BOARD, SUPERVISORY BOARD AND MANAGEMENT POSITIONS IN THE GROUP

Appreciation of diversity and, therefore, removing barriers in women's careers is one of the key elements of the human resource strategy at VIG. Gender is one of the three priorities of the diversity concept at both Group and VIG Holding level.

Nomination procedures for Group-wide training programmes for management, high potentials and experts are also required to include an equal number of women as far as possible, with the local human resources department bearing ultimate responsibility.

Female Supervisory Board Members

Women hold around 17.9% of the positions in VIG Supervisory Boards (consolidated insurance companies) across Europe (as at 31 December 2018) and 40.0% of the positions in VIG Holding.

Female Managing Board Members

Women hold around 24.1% of the positions on the Managing Boards of VIG insurance companies and around 17.9% of the Managing Board chairs are women. In VIG Holding, 50.0% of the Managing Board Members were women as of 31 December 2018. Elisabeth Stadler is the head of the Group.

Females in management positions

Including distribution, women hold around 47.6% of the management positions at the level directly below the Managing Board of consolidated VIG insurance companies across Europe (not including distribution: 52.2%).

GENERATIONS AND INTERNATIONALITY

The average age of all Managing Board Members of the consolidated insurance companies is around 48 years (as of 31 December 2018), and the average age of Supervisory Board Members is around 56 years. 22 different nationalities (based on citizenship) are represented in the Managing Boards of the consolidated VIG insurance companies, and 20 different nationalities in the Supervisory Boards. Further information is provided in the sustainability report on page 33.

EXTERNAL EVALUATION REPORT

C-Rule 62 of the Austrian Code of Corporate Governance provides voluntary external evaluation of compliance with the C-Rules of the Code at least every three years. Vienna Insurance Group last had this evaluation performed in 2018 for the 2017 Corporate Governance Report. All evaluations came to the conclusion that Vienna Insurance Group has complied with all the requirements of the Code. The summarised information of these evaluations is available on the Vienna Insurance Group website.

Vienna, 20 March 2019

The Managing Board:

Elisabeth Stadler General Manager, Chairwoman of the Managing Board

Liane Hirner CFO, Member of the Managing Board

Franz Fuchs Member of the Managing Board

Peter Höfinger Member of the Managing Board

and has

Judit Havasi Member of the Managing Board

Peter Thirring Member of the Managing Board

Supervisory Board report

The Supervisory Board repeatedly and regularly took the opportunity, as a whole, through its committees as well as through its Chairperson and Deputy Chairperson, to comprehensively monitor Company management as well as the activities of the Management Board and its committees for the purpose of Group monitoring. This purpose was served by detailed presentations and discussions during meetings of the Supervisory Board and its committees as well as by detailed discussions on individual topics with Management Board Members who provided comprehensive explanations and evidence relating to management, the financial position of the Company and that of the Group. Among other things, strategy, business development (overall and in individual regions), risk management, the internal control system, internal audit activities and reinsurance, both at VIG Holding and Group level, and other important topics for the Company and the Group were discussed at these meetings.

In accordance with the Solvency II requirements, starting in 2016 non-financial aspects must be part of the performance expectations for variable remuneration of Managing Board Members. VIG is committed to social responsibility and the importance of having employees drive forward performance, innovation and expertise. Goal fulfilment for Managing Board Members also depended on both financial and non-financial criteria in the 2018 reporting year.

The Supervisory Board has formed five committees from its Members. Information on the responsibilities and composition of these committees is available on the Company's website and in the 2018 consolidated corporate governance report.

One Annual General Meeting and four Supervisory Board meetings distributed over the financial year were held in 2018. Four meetings of the Audit Committee (Accounts Committee) were also held. The financial statement and consolidated financial statement auditor, KPMG Austria GmbH Wirtschaftsprüfungsund Steuerberatungsgesellschaft, company number FN 269873y (KPMG), attended three Audit Committee meetings and the Supervisory Board meeting in 2018 that addressed the audit of the 2017 annual financial statements and the 2017 consolidated financial statements, and also attended the Annual General Meeting. The financial statement auditor and consolidated financial statement auditor also informed the Audit Committee about the planning and procedure used to audit the financial statements and consolidated financial statements. The Committee for Urgent Matters (Working Committee) was contacted once in writing in 2018. Two meetings of the Committee for Managing Board Matters (Human Resources Committee) were held in 2018. The Nomination Committee and Strategy Committee did not meet in 2018. Strategic matters were handled by the Supervisory Board as a whole.

The 2018 consolidated corporate governance report presents detailed information on the principles underlying the remuneration system, and we refer to this information in the 2018 consolidated corporate governance report.

In financial year 2018, no agenda items were discussed during Supervisory Board meetings without the participation of Managing Board Members.

No Member of the Supervisory Board attended less than half of the Supervisory Board meetings. In order to ensure the effectiveness and efficiency of its activities and procedures, the Supervisory Board performed a self-evaluation of its procedures. The Supervisory Board's evaluation of its activities found that its organisational structure and procedures were satisfactory in terms of efficiency and in compliance with the law. It found no need for change or desire for change in the practices followed to date.

Acting upon the proposal and motion of the Supervisory Board, the General Meeting selected KPMG on 12 May 2017 to be the financial statements auditor and consolidated financial statements auditor for financial year 2018, and KPMG consequently performed these duties in financial year 2018.

The Supervisory Board Audit Committee mainly dealt with the following topics in 2018: During one meeting of the Audit Committee, the members of the committee consulted with the (consolidated) financial statements auditor on specification of two-way communications.

By inspecting relevant documents, meeting with the Managing Board and discussions with the (consolidated) financial statements auditor, the Audit Committee was able to monitor the accounting process and the procedure used for auditing the financial statements and consolidated financial statements, and found no reasons for objection or any need to make recommendations to ensure reliability of the accounting process. The Supervisory Board Audit Committee also reviewed and monitored the independence of the auditor of the financial statements and consolidated financial statements, and after reviewing suitable documents and supporting records submitted to the Committee, particularly with respect to the appropriateness of the fee and the additional services provided to the Company, was satisfied with the auditor's independent status. The Audit Committee also dealt with permitted non-audit services.

The Audit Committee also monitored the effectiveness of the internal control system, internal audit and the risk management system by obtaining descriptions of the processes and organisation of these systems from the Managing Board, the (consolidated) financial statements auditor and the individuals directly responsible for these areas. The Audit Committee reported on these monitoring activities to the Supervisory Board and stated that no deficiencies had been identified. The Supervisory Board was also given the opportunity during Supervisory Board meetings to verify the functional adequacy of the existing control and auditing systems. In addition, the audit plan and the quarterly reports prepared by the internal audit department were debated by the Audit Committee and the Supervisory Board and discussed with the head of the internal audit department and the Group internal audit department. The Supervisory Board found no grounds for objection.

The Audit Committee examined the Company's Solvency and Financial Condition Report (SFCR) and reported its findings to the Supervisory Board. The Supervisory Board found no grounds for objection.

The Audit Committee also dealt with the selection of the financial statement and consolidated financial statement auditor for financial year 2019. It was determined that there were no grounds for exclusion of KPMG or circumstances that would give rise to concerns about impartiality, and that sufficient protective measures had been taken to ensure an independent and impartial audit. The Audit Committee reported to the Supervisory Board on the insights of these evaluations and proposed to the Supervisory Board and subsequently to the general meeting that KPMG be selected as auditor of the financial statements and consolidated financial statements. The General Meeting selected KPMG as auditor of the financial statements and consolidated financial statements for 2019. The Audit Committee also received the 2018 annual financial statements, management report, 2018 consolidated corporate governance report and 2018 sustainability report (consolidated non-financial report) from the Managing Board, and reviewed and carefully examined them. The Managing Board's proposal for appropriation of profits was also reviewed with respect to capital adequacy and its effects on the solvency and financial position of the Company during the course of this examination. The Supervisory Board Audit Committee also carefully examined the 2018 consolidated financial statements and Group management report. In addition, the auditor's reports prepared by (consolidated) financial statements auditor KPMG for the 2018 annual financial statements and management report and the 2018 consolidated financial statements and Group management report were reviewed by the Audit Committee and debated and discussed with KPMG. As a result of this examination and discussion, a unanimous resolution was adopted to recommend to the Supervisory Board that they be accepted without qualification. The Supervisory Board found no grounds for objection.

The (consolidated) financial statements auditor provided the Audit Committee with an additional report in accordance with Art. 11 AP-VO (EU Audit Regulation) on specific requirements regarding statutory audit of public-interest entities that explained the results of the financial statements audit and consolidated financial statements audit. This report prepared by the financial statement auditor was provided to the Supervisory Board.

The audit results and all resolutions adopted by the Audit Committee were reported to the Supervisory Board in its next meeting, along with an explanation of how the financial statement audit had contributed to the reliability of the financial reporting and what role the Audit Committee had played. The 2018 annual financial statements together with the management report and 2018 consolidated corporate governance report, the 2018 consolidated financial statements together with the Group management report, and the Managing Board's proposal for appropriation of profits were subsequently taken up, thoroughly discussed and examined by the Supervisory Board.

The appropriation of profits proposal was checked, in particular, to ensure that it was reasonable when capital requirements were taken into account.

The Supervisory Board also received the 2018 sustainability report (consolidated non-financial report) from the Managing Board, and reviewed and carefully examined it. As a result of this discussion and examination, it found that the 2018 sustainability report (consolidated non-financial report) had been prepared properly and was appropriate.

In addition, the auditor's reports prepared by (consolidated) financial statements auditor KPMG for the 2018 annual financial statements and management report and the 2018 consolidated financial statements and Group management report were reviewed by the Supervisory Board and discussed with KPMG. KPMG's audit of the 2018 annual financial statements and management report and the 2018 consolidated financial statements and Group management report did not lead to any reservations. KPMG determined that the annual financial statements comply with statutory requirements and give a true and fair view of the net assets and financial position of the Company as of 31 December 2018, and of the results of operations of the Company for financial year 2018 in accordance with Austrian generally accepted accounting principles. The management report is consistent with the annual financial statements. The disclosures pursuant to § 243a UGB (Austrian Commercial Code) are appropriate. KPMG further determined that the consolidated financial statements also comply with statutory requirements and give a true and fair view of the net assets and financial position of the Group as of 31 December 2018, and of the results of operations and cash flows of the Group for financial year 2018 in accordance with IFRS and § 138 VAG (Austrian Insurance Supervision Act) in combination with § 245a UGB. The Group management report is consistent with the consolidated financial statements. KPMG also reviewed the 2018 sustainability report (consolidated non-financial report) and determined in accordance with § 269 (3) UGB and § 273 UGB that the 2018 sustainability report (consolidated non-financial report) and 2018 consolidated corporate governance report had been prepared.

The final results of the review by the Supervisory Board did not provide any basis for reservation either. The Supervisory Board stated that it had nothing to add to the auditor's reports for the financial statements and consolidated financial statements.

After thorough examination, the Supervisory Board therefore adopted a unanimous resolution to approve the 2018 annual financial statements prepared by the Managing Board, not to raise any objections to the management report, the 2018 consolidated financial statements and Group management report, the 2018 consolidated corporate governance report and the 2018 sustainability report (consolidated non-financial report) and to agree with the Managing Board proposal for appropriation of profits.

The 2018 annual financial statements have therefore been approved in accordance with § 96 (4) AktG (Austrian Stock Corporation Act).

The Supervisory Board proposes to the General Meeting that it approves the Managing Board's proposal for appropriation of profits and formally approves the actions of the Managing Board and Supervisory Board.

Vienna, April 2019

The Supervisory Board:

Günter Geyer (Chairman)

Declaration by the Managing Board

We declare to the best of our knowledge that the consolidated financial statements prepared in accordance with applicable accounting standards give a true and fair view of the Group's net assets, financial position and results of operations, that the Group management report presents the business development, result and position of the Group so as to give a true and fair view of its net assets, financial position and results of operations, and that the Group management report provides a description of the principal risks and uncertainties to which the Group is exposed.

The declaration for the annual financial statements of VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe is issued in the annual report of this company.

The consolidated financial statements for financial year 2018 were approved for publication by a resolution of the Managing Board on 20 March 2019.

Auditor's Report

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

Audit Opinion

We have audited the consolidated financial statements of

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe, Vienna, Austria,

and its subsidiaries ("the Group"), which comprise the Consolidated Balance Sheet as at 31 December 2018, the Consolidated Income Statement, the Consolidated Statement of Comprehensive Income, the Consolidated Shareholders' Equity, the Consolidated Cash Flow Statement for the year then ended, and the Notes to the Consolidated Financial Statements.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of 31 December 2018, and its consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU, the additional requirements pursuant to § 245a UGB (Austrian Commercial Code) as well as other legal or regulatory requirements.

Basis for our Opinion

We conducted our audit in accordance with the EU Regulation 537/2014 ("AP Regulation") and Austrian Standards on Auditing. These standards require the audit to be conducted in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the "Auditor's Responsibilities" section of our report. We are independent of the audited Group in accordance with Austrian company law and professional regulations, and we have fulfilled our other responsibilities under those relevant ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, however, we do not provide a separate opinion thereon.

We have identified the following key aud it matters:

- Recoverability of goodwill
- Liability Adequacy Test "LAT"

RECOVERABILITY OF GOODWILL Refer to notes pages 52, 54 to 56

Risk for the Consolidated Financial Statements

The recoverability of goodwill recognised in the Consolidated Financial Statements of the Vienna Insurance Group amounting to EUR 1,475.2 million, is monitored separately at country level. At least once a year and in case of a triggering event on an ad hoc basis Vienna Insurance Group performs a recoverability test (the so-called impairment test) of the recorded goodwill amounts.

The impairment test of goodwill is complex and based on discretionary factors. Those factors include in particular the expected future cash flows of the individual countries (taking into account the development of future premiums, budgeted combined ratios and financial income), which are primarily based on past experience as well as on the management's assessment of the expected market environment. Other factors are the assumed long-term growth rate as well as the underlying region-specific costs of capital.

Our Response

Together with our valuation experts we have assessed the appropriateness of key assumptions, of discretionary decisions and of the valuation method applied for the impairment testing. We have reconciled the expected future cash flows used in the calculation with the strategic business planning approved by the management. We have reconciled the assumptions regarding the market development with general and sector-specific market expectations. We have analysed the consistency of planning data using information from prior periods.

Given that minor changes in the applied cost of capital rate significantly impact the recoverable amount of the cash generating units, we have compared the parameters used for derivation of the applied cost of capital with those used by a group of comparable companies (Peer Group).

By means of our own sensitivity analysis we have determined whether the tested book values are still sufficiently covered by the recoverable amounts in case of possible changes in the assumptions within a realistic range.

Additionally, we have assessed whether the disclosures in the notes with respect to the recoverability of goodwill are appropriate.

LIABILITY ADEQUACY TEST - "LAT"

Refer to notes pages 64 and 97 et seq.

Risk for the Consolidated Financial Statements

With life and health insurance, Vienna Insurance Group holds a significant amount of long-term contracts for which premiums have been calculated using a high discount rate. As these interest rates are also used to measure the liabilities from insurance contracts, there is – due to the persistently low interest rates in the market - a risk that the insurance liabilities are not adequately measured.

At each balance sheet date Vienna Insurance Group uses current estimates of future cash flows from insurance contracts to determine whether the insurance liabilities are adequately accounted for in the balance sheet.

To ensure this, future cash flows from existing policies are calculated on a best estimate basis using actuarial methods. For life and health insurance the cash flow model used for this purpose is also used to calculate the Market Consistent Embedded Value ("MCEV"). The MCEV is determined according to the "Market Consistent Embedded Value Principles" published by the CFO Forum in June 2008 and last amended in April 2016.

The performance of the liability adequacy test is complex and its underlying assumptions are based on a large number of estimates and discretionary factors.

Our Response

We have examined the appropriateness of key assumptions and discretionary decisions as well as the calculation models and methods applied. In order to assess the appropriateness of the assumptions and methods used, we gained an understanding of the methodology in discussions with the actuaries of Vienna Insurance Group and analysed the assumptions used as well as the resulting cash flows.

In particular, we assessed whether the applied methodology was consistent with the "Market Consistent Embedded Value Principles" published by the CFO Forum in June 2008 and last amended in April 2016. In addition, we assessed the appropriateness of the implementation of the methodology within the models, analysed the consistency of assumptions used on the basis of information from prior periods, and examined the completeness of the modeled portfolio.

Furthermore, we critically dealt with the sensitivity analysis prepared by the company.

Responsibilities of Management and the Audit Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU, the additional requirements pursuant to § 245a UGB (Austrian Commercial Code) as well as other legal or regulatory requirements and for such internal controls as management determines are necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intents to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The audit committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement – whether due to fraud or error – and to issue an auditor's report that includes our audit opinion. Reasonable assurance represents a high level of assurance, but provides no guarantee that an audit conducted in accordance with the AP Regulation and Austrian Standards on Auditing (and therefore ISAs), will always detect a material misstatement, if any. Misstatements may result from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with AP Regulation and Austrian Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

Moreover:

- We identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, we design and perform audit procedures responsive to those risks and obtain sufficient and appropriate audit evidence to serve as a basis for our audit opinion. The risk of not detecting material misstatements resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or override of internal control.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- We conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the respective note in the consolidated financial statements. If such disclosures are not appropriate, we will modify our audit opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- We evaluate the overall presentation, structure and content of the consolidated financial statements, including the notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We obtain sufficient appropriate audit evidence regarding the financial information of the entities and business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
- We communicate with the audit committee regarding, amongst other matters, the planned scope and timing of our audit as well as significant findings, including any significant deficiencies in internal control that we identify during our audit.
- We communicate to the audit committee that we have complied with the relevant professional requirements in respect of our independence, that we will report any relationships and other events that could reasonably affect our independence and, where appropriate, the related safeguards.
- From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit, i.e. key audit matters. We describe these key audit matters in our auditor's report unless laws or other legal regulations preclude public disclosure about the matter or when in very rare cases, we determine that a matter should not be included in our audit report because the negative consequences of doing so would reasonably be expected to outweigh the public benefits of such communication.

REPORT ON OTHER LEGAL REQUIREMENTS

Group Management Report

In accordance with Austrian company law, the group management report is to be audited as to whether it is consistent with the consolidated financial statements and prepared in accordance with legal requirements.

Management is responsible for the preparation of the group management report in accordance with Austrian company law and other legal or regulatory requirements.

We have conducted our audit in accordance with generally accepted standards on the audit of group management reports as applied in Austria.

OPINION

In our opinion, the group management report is consistent with the consolidated financial statements and has been prepared in accordance with legal requirements. The disclosures pursuant to § 243a UGB (Austrian Commercial Code) are appropriate.

STATEMENT

Based on our knowledge gained in the course of the audit of the consolidated financial statements and our understanding of the Group and its environment, we did not note any material misstatements in the group management report.

Other Information

Management is responsible for other information. Other information is all information provided in the annual report, other than the consolidated financial statements, the group management report, and the auditor's report.

Our opinion on the consolidated financial statements does not cover other information and we do not provide any assurance thereon.

In conjunction with our audit, it is our responsibility to read this other information and to assess whether, based on knowledge gained during our audit, it contains any material inconsistencies with the consolidated financial statements or any apparent material misstatement of fact. If we conclude that there is a material misstatement of fact in other information, we must report that fact. We have nothing to report in this regard.

Additional Information in accordance with Article 10 AP Regulation

At the Annual General Meeting dated 12 May 2017, we were elected as group auditors. We were appointed by the Supervisory Board on 22 May 2017. We have been the Group's auditors from the year ended 31 December 2013 without interruption.

We declare that our opinion expressed in the "Report on the Consolidated Financial Statements" section of our report is consistent with our additional report to the Audit Committee, in accordance with Article 11 AP Regulation.

We declare that we have not provided any prohibited non-audit services (Article 5 Paragraph 1 AP Regulation) and that we have ensured our independence throughout the course of the audit, from the audited Group.

Engagement Partner

The consolidated financial statements together with our auditor's opinion may only be published if the consolidated financial statements and the group management report are identical with the audited version attached to this report. § 281 Paragraph 2 UGB (Austrian Commercial Code) applies.

MANAGEMENT REPORT TO THE SEPARATE FINANCIAL STATEMENTS

Company profile

PROTECTING WHAT MATTERS

Vienna Insurance Group's roots reach back to the year 1824. Today, Vienna Insurance Group, headquartered in Vienna, is the leading insurance group in Austria and Central and Eastern Europe and offers custom-tailored products and services appropriate for all of its customers' needs. Our strategy is to achieve sustainable profitable growth in order to protect what matters.

ORGANISATION

Vienna Insurance Group manages and assists its around 50 Group companies, with more than 25,000 employees in 25 countries, so they can guarantee comprehensive, individual and needs-appropriate insurance protection for their customers. Around 250 employees work in essential management areas, such as the actuarial department, risk management, Group development and strategy, reinsurance or planning & controlling to continue strengthening VIG's position as the leading insurance group in Austria and the CEE region. VIG works as a partner with the 50 insurance companies and maintains a continuous exchange of information to ensure that both the interests of the Group and those of the individual Group companies are pursued.

CLEAR FOCUS ON AUSTRIA AND CEE

In addition to Austria, VIG also focuses on Central and Eastern Europe and takes advantage of the many growth opportunities offered by this region. The resulting differences in economic and insurance-specific maturity guarantee broad risk diversification. VIG uses its multi-brand policy to take advantage of the potential offered by the local companies and established markets, because it is precisely the strengths of the individual brands and regional experience that increase regional identity, strengthen customer and employee loyalty to the companies, and in the end strengthen the entire corporate group.

FINANCIAL STRENGTH

The international Standard & Poor's rating agency renewed its A+ rating with stable outlook, so that VIG continues to have the best rating of all of the listed companies in the ATX index. VIG shares have been listed on the Vienna Stock Exchange since 1994 and on the Prague Stock Exchange since 2008. Wiener Städtische Versicherungsverein holds around 70 % of VIG's shares and therefore acts as an exceptionally stable and long-term principal shareholder.

THINKING ABOUT THE FUTURE

Building on many years of experience, VIG focuses its business on the future in order to guarantee long-term success. VIG is using its Agenda 2020 strategic work programme to expand promising lines of business, promote digitalisation projects and take concrete steps to optimise its business model.

Management report 2018

VIG HOLDING BUSINESS DEVELOPMENT

Premiums written, net earned premiums, expenses for claims and insurance benefits, administrative expenses and reinsurance balance had the following breakdown for property and casualty insurance in 2018 (and in the same period in 2017):

| | | | 2018 | | | 2017 |
|--|-----------------|-------------------|-----------|-----------------|-------------------|-----------|
| | Direct business | Indirect business | Total | Direct business | Indirect business | Total |
| in EUR '000 | | | | | | |
| Premiums written | 85,053 | 1,082,224 | 1,167,277 | 84,112 | 926,386 | 1,010,498 |
| Net earned premiums | 85,185 | 1,072,116 | 1,157,301 | 84,517 | 912,629 | 997,146 |
| Expenses for claims and insurance benefits | 61,089 | 727,762 | 788,851 | 81,423 | 598,170 | 679,593 |
| Administrative expenses | 12,399 | 335,817 | 348,216 | 11,471 | 301,103 | 312,574 |
| Reinsurance balance | -6,392 | -2,155 | -8,547 | 12,318 | 7,265 | 19,583 |

The reinsurance balance is composed of net earned reinsurance premiums, effective reinsurance claims and reinsurance commissions.

FINANCIAL PERFORMANCE INDICATORS

Premium income

VIG Holding generated a total premium volume of EUR 1,167.28 million in 2018. The increase compared to the previous year (+15.5%) was mainly due to good growth in reinsurance premiums. Direct premiums written (corporate business) increased 1.1% year-on-year to EUR 85.05 million. Premium income from indirect business (assumed reinsurance) was EUR 1,082.22 million, 16.8% higher than the previous year.

VIG Holding retained EUR 1,131.70 million (2017: EUR 977.34 million) of the premiums written. EUR 35.58 million was ceded to reinsurers in 2018 (2017: EUR 33.16 million). Gross earned premiums were EUR 1,157.30 million (2017: EUR 997.15 million). Net earned premiums increased EUR 157.20 million to EUR 1,121.13 million.

Expenses for claims and insurance benefits

Gross expenses for claims and insurance benefits were EUR 788.85 million in 2018 (2017: EUR 679.59 million). EUR 61.09 million of this amount was attributable to corporate business (2017: EUR 81.42 million), EUR 20.33 million less than the previous year.

The gross claims ratio for direct business decreased from 94.8% to 69.8%, mainly due to the fire insurance and other property insurance lines of business. Expenses for claims and insurance benefits for assumed reinsurance rose 21.7% to EUR 727,76 million.

The gross claims ratio for indirect business was 67.9% (2017: 65.5%). After deducting reinsurance of EUR 26.11 million (2017: EUR 50.95 million), expenses for claims and insurance benefits were EUR 762.74 million (2017: EUR 628.65 million).

Administrative expenses

Administrative expenses were EUR 348.22 million in 2018, or 11.4% higher than the previous year (2017: EUR 312.57 million). This change was due to an increase in commissions for indirect business. EUR 12.40 million of the administrative expenses were for the corporate business and EUR 335.82 million for the reinsurance business.

After reinsurance commissions for ceded reinsurance business, EUR 346.70 million in administrative expenses remained for VIG Holding. This was an increase of EUR 35.99 million compared to the previous year.

Combined ratio

VIG Holding's combined ratio was 99.1% in 2018 (2017: 97.5%), and 94.2% for direct business (corporate business) (2017: 94.4%).

This ratio is calculated as the sum of all underwriting expenses and income plus net payments for claims and insurance benefits, including the net change in underwriting provisions, divided by net earned premiums for property and casualty insurance.

Financial result

VIG Holding had a financial result of EUR 162,82 million (2017: EUR 121.54 million). The increase in the financial result in 2018 was primarily due to larger dividends from affiliated companies and participations and greater appreciation of investments. Impairment of shares in affiliated companies was EUR 112.15 million (2017: EUR 109.50 million).

| | 2018 | 2017 |
|--|---------|----------|
| in EUR '000 | | |
| Land and buildings | 9,780 | 10,336 |
| Investments in affiliated companies and participations | 312,011 | 294,541 |
| Other investments | 15,381 | 20,692 |
| Total income (net) | 337,172 | 325,569 |
| Other investment and interest income | 13,053 | 27,309 |
| Expenses for asset management | -86,076 | -143,881 |
| Interest expenses | -80,513 | -84,110 |
| Other investment expenses | -20,819 | -3,348 |
| Investment profit according to income statement | 162,817 | 121,539 |

Result from ordinary activities

VIG Holding earned a result from ordinary activities of EUR 188.25 million in 2018 (2017: EUR 116.37 million). The increase was due to an increase in the underwriting result and a higher financial result.

Investments

Investments, including liquid assets, were EUR 5,231.78 million as of 31 December 2018 (2017: EUR 5,097.72 million).

Deposits were EUR 1,116.05 million in 2018 (2017: EUR 1,036.329 million). 83.0% (2017: 80.1%) of the investments at the end of 2018 were participations, 10.4% (2017: 13.6\%) were bonds (including bond funds), 3.0% (2017: 1.8%) were loans, 2.1% (2017: 2.3%) were land and buildings, 1.5% (2017: 1.8%) were bank balances and cash on hand, and 0.0% (2017: 0.4%) were equities.

Detailed information is provided on pages 210 and 211 of the separate financial statements.

BREAKDOWN OF INVESTMENTS IN 2018

Underwriting provisions

Underwriting provisions were EUR 1,238.29 million as of 31 December 2018 (2017: EUR 1,141.38 million). This corresponds to a year-on-year increase of 8.5%, which was primarily due to provisions for outstanding claims arising from assumed reinsurance business. The reinsurers' share was EUR 80.46 million (2017: EUR 84.22 million).

Solvency ratio

The solvency ratio of 375.0% is high due to an outstanding endowment of capital resources combined with a low capital requirement, and also includes VIG Holding's holding company function in the Group.

NON-FINANCIAL PERFORMANCE INDICATORS

For the 2018 reporting year, Vienna Insurance Group is publishing its second sustainability report that addresses the Group's corporate social responsibility (CSR) strategy. This strategy and much more information on CSR in the VIG companies can be read in this report, which is available for download free of charge at www.vig.com/ Nachhaltigkeitsberichte. A few examples of the VIG Holding's own initiatives are presented below.

Social involvement – Example: Social Active Day

Since 2011, VIG employees have been allowed to use one day per year to volunteer for a good cause. The Social Active Day initiative was brought to life by VIG's principal shareholder Wiener Städtische Versicherungsverein. A wide variety of activities are performed, ranging from renovation work in social aid organisations and nursing care facilities, collecting food, serving soup, helping in social supermarkets, working with socially disadvantaged people and people in need, all the way to accompanying elderly people on trips. VIG Holding employees also took part in this group-wide initiative. 158 of them participated in 2018.

Cultural involvement -

Example: Gustav Mahler Youth Orchestra

For VIG, being anchored in society means assuming social responsibility, and promoting and valuing this understanding throughout the Group. Instead of just monitoring developments, this means actively helping to create a future worth living. One example of this is the Gustav Mahler Youth Orchestra, which VIG has already sponsored for many years. It is considered the best youth orchestra in the world and is a place of learning that helps talented young Austrian musicians play music with their colleagues from all over the world, traditionally including many participants from the CEE region. It stands for music without borders, dedication and enthusiasm, and offers highly talented musicians up to the age of 26 the opportunity to work together with the great conductors and soloists of our time. This promotes cross-border cultural exchange, mutual understanding and equal opportunity.

VIG is a partner of WIENER STAATSOPER live at home

VIG supports the WIENER STAATSOPER live at home project in order to give its customers and employees the opportunity to experience many evenings of live opera and ballet performances in an illustrious national cultural institution within and beyond the borders of Austria. Each season, the WIENER STAATSOPER live at home project broadcasts many of the around 50 opera and 15 ballet works in the broad and varied repertoire of the Vienna State Opera in HD quality.

VIG promotes peace – projects focusing on children and youth

VIG is currently supporting three projects devoted to the topic of peace and aimed at educating children and youth: VIG Kids Camp, the Alfred Fried photography award and the Mirno More peace fleet.

VIG Kids Camp took place for the ninth time in the summer of 2018 at the initiative of Wiener Städtische Versicherungsverein. Around 500 children of VIG employees from 23 European countries took part. In order to visit VIG Kids Camp, the children have to win a Group-wide contest. In 2018, the contest was held under the motto "Photograph a picture of peace".

In addition to being rewarded with an invitation to the 2018 VIG Kids Camp, the most creative submissions from children of VIG employees were also entered in the 2018 Alfred Fried photography award for children (Children Peace Image of the Year), which once again received support from VIG.

Eight of the around 500 submissions made it onto the short list for the "Alfred Fried photography award for children", which is endowed with EUR 1,000 in prize money.

The Mirno More peace fleet, the world's largest peace sailing project for socially and economically disadvantaged children and youth, took place in the area of Split, Croatia, between 15 and 22 September 2018. VIG was a ship sponsor for the Mirno More peace fleet again. The peace fleet has sailed through the Dalmatian Islands area each year since 1994. Mirno More means "peaceful sea" and is both a greeting and message of good wishes used by Croatian sailors.

The week-long trip gives the children the opportunity to pilot a sailing ship together and is aimed at throwing prejudices overboard and creating friendships that cross ethnic and social boundaries. Some of the 580 children taking part come from crisis centres, social residences and socio-pedagogical facilities – including displaced children and war orphans from the Balkans.

"Vienna Insurance Group is aware of its social responsibility and is involved in a wide variety of projects in the 25 countries where it operates. Helping disadvantaged children has been particularly important to the Group for many years", said Elisabeth Stadler, General Manager of VIG. "The Mirno More peace fleet project is a wonderful way to satisfy this responsibility." VIG provides support for the Ship Safety Team, which provides medical care for the 965 participants and ensures their safety.

Employees

VIG Holding offers attractive prospects and development opportunities for its employees. It offers a broad range of training and advanced training courses, the opportunity to gather international experience by participating in mobility programmes, and an attractive working environment. Expert careers are another development opportunity offered to employees. In addition, a new diversity concept was developed in 2017 that focuses on the criteria of gender, internationality and generations.

This concept is discussed in more detail in the VIG 2018 Group Annual Report (in the corporate governance report).

Flexible working hours, a company cafeteria, company kindergarten and internal company healthcare services, such as physical treatments and other medical services, increase the attractiveness of the work environment. VIG Holding once again received an award in the 2018 BEST RECRUITERS study for its presence at career events, Internet career webpages and candidate management service. This is the second time in a row that VIG has been awarded the gold certificate.

The current human resources strategy has three main objectives: VIG should be seen as a diverse, innovative, learning organisation, management should ensure employees have a positive working environment and support em-ployees with future challenges, and an appropriate feedback culture should exist. These objectives are pursued using strategic HR partnerships, a sustainable and valuedriven working environment, and management and employees who are fit for the future.

VIG Holding had 262 employees (not including the Managing Board) as of 31 December 2018. Women held 50% of the positions in the Managing Board and around 26% of the positions directly below the Managing Board.

Research and development

Although Vienna Insurance Group does not perform any research activities as defined in § 243 (3) (2) UGB, it contributes its expertise to the development of insurance-specific software models.

Vienna Insurance Group is also cooperating with the Insurance Innovation Lab in Leipzig.

Other Information

VIG Holding has no branch offices. Please see the notes to the financial statements (I. Summary of significant accounting policies) for information on the financial instruments used.

RISK REPORT

In general, all Group companies are responsible for managing their own risks. The VIG Holding corporate risk management provides framework guidelines and limits in all major areas for these companies. Strict requirements are defined in both the investments and reinsurance areas and are also applied in VIG Holding as a separate company. The Enterprise Risk Management (ERM) department is responsible for Group-wide risk management. ERM assists the Managing Board with improvements to the risk organisation and corporate risk management topics. There is a Group-wide risk management system that uses key principles and concepts, uniform terminology and clear instructions and support. The Actuarial department, Reinsurance, Corporate and large customer business, Asset-Risk Management, Asset Management, Planning & Controlling, Internal Audit and Group IT are also involved in the ongoing process of risk monitoring and management.

Effective control system in all areas and processes Regular monitoring of all areas by Internal Audit

VIG Holding's overall risk can be divided into the following risk categories:

Market risk: Market risk is the risk of losses due to changes in market prices. Changes in value occur, for example, due to changes in yield curves, share prices, exchange rates and the value of real estate and participations.

Credit risk: Credit risk quantifies the potential loss due to a deterioration of the situation of a counterparty, against which claims exist.

Liquidity risk: This category includes risks of VIG not being able to satisfy its payment obligations by liquidating assets at short notice.

Underwriting risks: VIG's core business consists of the transfer of risk from policyholders to the insurance company. Underwriting risks in the areas of reinsurance and non-life insurance are primarily the result of changes in insurance-specific parameters, such as loss frequency, loss amount, lapse rates and lapse costs.

Reputation risks: Reputation risk is the risk of negative changes in business due to damage to a company's reputation.

Operational risks: Operational risks may result from deficiencies or errors in business processes, controls or projects caused by technology, staff, organisation or external factors.

Strategic risks: Strategic risks can arise due to changes in the economic environment, case law, or the regulatory environment. Established risk management processes are used to regularly identify, analyse, evaluate, report, control and monitor all the risks to which VIG is exposed.

The risk control measures used are avoidance, reduction, diversification, transfer and acceptance of risks and opportunities. A Group-wide unified internal control system also helps to ensure compliance with the guidelines and requirements resulting from risk management.

VIG Holding is primarily exposed to market risk due to its activities as an insurance holding company. A conservative investment policy is used to limit other market risk due to investments. Market risk is monitored using fair value measurement, value-at-risk (VaR) calculations, sensitivity analysis and stress tests. Market risk is by far VIG Holding's most important risk exposure, in particular the equity and currency risk resulting from its primary activity, holding participations in insurance companies.

VIG Holding is also exposed to underwriting risks as a result of its international corporate business and reinsurance business. Appropriate underwriting provisions are determined using recognised actuarial methods and assumptions and managed by means of guidelines concerning the assumption of insurance risks. VIG Holding also limits the potential liability from its insurance business/active reinsurance business by ceding part of the risk it has assumed to the external reinsurance market through the Group reinsurance company VIG Re.

With respect to credit risk, consideration is only given to those issuers or contracting parties whose credit quality or reliability can be assessed by VIG Holding, whether on the basis of an in-house analysis, credit assessments/ratings from recognised sources, provision of security or the possibility of recourse to reliable mechanisms for safeguarding investments.

Operational and strategic risks which might be caused by deficiencies or errors in business processes, controls and projects, or changes in the business environment, are also continuously monitored. Limits are used to keep concentrations within the desired margin of safety.

Investments

VIG Holding's investments consist primarily of participations and deposits. Additional investments are mainly made in fixed-interest securities (bonds, loans) and real estate, and only to a small extent in shares and other investments. VIG Holding aligns its investments to its liability profile and aims to achieve sustainable increases in value in accordance with Group investment guidelines, which are based on a long-term conservative investment policy.

Use of forward exchange transactions

VIG Holding uses forward exchange transactions and currency swaps to hedge expected dividend payments in the most important currencies, CZK and PLN, and planned distributions of Company earnings in the same currencies for the current financial year. The expected and planned amounts are checked regularly and used to make any needed adjustments to the hedge amounts.

INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM IN THE ACCOUNTING PROCESS

General structure and organisation

The internal control and risk management system (ICS) plays an important role in VIG and is firmly anchored in the organisational structural and process organisation of the Company. Responsibilities are clearly defined in the ICS by ICS Group guidelines and extend from the overall responsibility of the Managing Board to establish an effective control system and appropriate risk management, to the responsibility of middle management to ensure adequate risk control infrastructure in the various areas, all the way to the individual employees, who are expected to perform their work responsibly and pro-actively report and/or remedy potential risks, deficiencies and sources of errors. The ICS itself is comprised of all measures and control activities used to minimise risks - particularly for the areas of accounting and compliance, but also for other operational risks. It extends from specially established processes, organisational units such as accounting and controlling, all the way to guidelines, regulations and individual controls within processes, such as automated audits or use of the "four-eyes" principle.

Important control elements in the accounting process

The documentation for the annual financial statement preparation process includes the important elements of the internal control and risk management system that are present in the accounting process.

The controls documented there are used during the process to ensure that potential errors whose occurrence cannot be completely ruled out in spite of the many additional functional and technical controls in existing IT systems (e.g. SAP) are identified and corrected at an early stage in the reporting.

This allows the following objectives of the annual financial statement process to be achieved:

- Completeness: all transactions during the reporting period are recorded in full.
- Existence: all reported assets and liabilities exist on the balance sheet date.
- Accuracy: all transactions recorded in the financial statements apply to the same period as the financial statements.
- Measurement: all asset, liability, income and expense items were recognised at fair value in accordance with accounting requirements.
- Ownership: proper presentation of rights and obligations.
- Presentation: all financial statement items are correctly presented and disclosed.

The financial statement process includes the aggregation of all data from accounting and upstream processes for the annual financial statements. The financial statements are submitted to the appropriate area head for review and further consultation with the Managing Board.

The Managing Board provides final approval of the financial statements. The auditor takes the internal control system into account during the financial statement audit to the extent that it is relevant to preparation of the annual financial statements.

Effectiveness and controls

To ensure the effectiveness of the internal control system, VIG established an annual evaluation and documentation process for the ICS with the professional assistance of external auditors. This process identifies, analyses, assesses, documents and reports risks and controls existing for VIG Holding to the Managing Board, particularly those in the areas of accounting and compliance. Optimisation measures are introduced into the control environment based on the findings and their implementation is also monitored and reported by the responsible units. The results of this process are also used later by the internal audit department as a basis for its subsequent audit of the accounting process and the control environment established there.

DISCLOSURES IN ACCORDANCE WITH § 267(3A) IN COMBINATION WITH § 243A UGB

Detailed information on the disclosures in accordance with § 267(3a) in conjunction with § 243a and § 243(3)(3) UGB is available in the notes to the consolidated financial statements on page 217.

DISCLOSURES ON OUTSOURCING IN ACCORDANCE WITH § 156(1)(1) IN COMBINATION WITH § 109 VAG

Internal and external service providers provide IT services for VIG Holding. Outsourcing agreements that had been approved by the supervisory authority existed in 2018 with IBM Austria (Internationale Büromaschinen Ges. m.b.H.), T-Systems Austria GesmbH and with the internal Group IT system provider twinformatics GmbH, all with registered offices in Austria. twinformatics GmbH was also engaged in 2018 to assume overall responsibility for all IT services for the Austrian VIG insurance companies, and to perform the suboutsourcing necessary for this purpose taking into account statutory and regulatory requirements and report them to the Austrian Financial Market Authority (FMA). The reports to the FMA and FMA approvals also took place in 2018. In addition to these outsourcing agreements, VIG Holding has not outsourced any critical or important functions or business activities.

OUTLOOK

Austria

The Austrian Institute of Economic Research (WIFO) expects the Eurozone to continue recording solid growth, although the value of 1.7% expected for 2019 is below the real GDP growth of 2.0% forecast for Austria in 2019. WIFO is assuming that household income will rise – driven by rising wages and salaries and lower taxes, in particular introduction of the family bonus – and in turn increase private consumption (+1.7%). The unemployment rate as a percentage of the labour force will continue to fall, although at a slower rate. In addition to the labour market, the good economic conditions will also benefit the government budget. WIFO expects budget surpluses in 2019 and 2020 based on overall increases in tax revenues.

The Austrian Insurance Association (VVO) expects premiums to rise 1.5% to around EUR 17.6 billion this year. Health insurance is expected to record the largest increase of 3.5%, and property and casualty insurance is expected to grow 3%. Life insurance premiums are expected to decrease by 2%.

CEE region

The November 2018 forecast by the Vienna Institute for International Economic Studies (WIIW) continues to show robust growth in most Central and Eastern European countries. Tight labour markets are causing significant wage increases. As in Austria, this is having a positive effect on consumption, but could present a challenge for future growth in the medium term.

With the exception of Croatia (2.6%), the Central and Eastern European (CEE) countries in the EU are expected to record real GDP growth rates of at least 3% in 2019. Slovakia, in particular, stands out for an expected growth rate of 4.1%, which is also an increase compared to 2018. According to WIIW, the average GDP growth rate of 3.4% expected for the CEE countries in the EU is almost the same as the growth of 3.5% expected for the Western Balkans in 2019.

As WIIW summarises in its analysis, the overall outlook remains positive for the region, although with a considerably higher level of risk due, among other things, to intensification of the trade conflict between the US and China and a reduction in the EU budget after Brexit. WIIW confirms that the region in general is still on a path of convergence with Western Europe, although at a slower pace due to a weakening of the external environment.

Based on the forecasts currently available, VIG expects growth rates to be considerably higher in the CEE markets than in Western Europe, so that the insurance industry will continue to show dynamic growth in the CEE region in 2019.

Outlook for the Group

As a market leader in Austria and the CEE region, Vienna Insurance Group with its around 25,000 employees is in an excellent position to take advantage of the opportunities available in this region and the long-term growth options they offer. VIG remains committed to its proven business strategy of profitable growth. Based on VIG's values of diversity, customer proximity and responsibility, the Group plans to use its successful management principles to consolidate and further increase its market share. This includes both organic growth and growth by acquisitions, particularly if an opportunity arises to strategically expand the existing portfolio or take advantage of economies of scale. Vienna Insurance Group has set itself a goal of increasing its market share to a minimum of 10 % in Poland, Hungary, Croatia and Serbia in the medium term.

This goal was already achieved in one of these countries, Serbia, in 2016 as the result of an acquisition. VIG's acquisition of Gothaer TU raised its market share to around 9% in Poland.

The strategic measures and initiatives set by the Agenda 2020 work programme – business model optimisation, organisation and cooperation and ensuring future viability – helped accel-

erate the development of the Group in 2018. The Group continues to focus on efficiency improvements and making use of synergies, and is working systematically to reduce both losses and expenses in order to improve its combined ratio. In life insurance, efforts will also be made to further promote biometric risk coverage and the regular premium business.

For 2019, VIG plans to steadily grow its Group premium volume to EUR 9.9 billion and its result before taxes (including non-controlling interests) to between EUR 500 to 520 million. Based on current conditions and the positive macroeconomic development of the region, Vienna Insurance Group aims to continuously increase premiums to more than EUR 10.2 billion by 2020 and achieve a result before taxes (including noncontrolling interests) in the range of EUR 530 to 550 million. For the combined ratio, VIG expects a sustainable improvement to around 95 % by 2020.

Based on the feedback received from the investor survey in the summer of 2018, Management decided to implement a new dividend policy. The new policy is to distribute a dividend in the range of 30 to 50% of Group net profits. The goal is to continue aligning the dividend per share to the company's earnings performance.

Outlook for VIG Holding

VIG Holding continues to focus on increasing premium volume from the cross-border corporate and international reinsurance business. As part of its management responsibility, VIG Holding is also concentrating on initiating and then coordinating projects aimed at optimisation in the areas of process organisation and earnings power.

VIG has also set itself a goal of creating the conditions necessary to stand out as a first-class employer with an international background. VIG Holding wants to challenge and develop its employees as best possible and strengthen their long-term loyalty so that it is seen as the employer of first choice for experts and young talented employees. Vienna, 20 March 2019

NOTES TO THE 2018 ANNUAL FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The annual financial statements as of 31 December 2018 were prepared in accordance with the accounting provisions of the Austrian Commercial Code (UGB) and the special provisions of the Austrian Insurance Supervision Act (VAG), as amended, and in accordance with Austrian generally accepted accounting principles and the general standard of presenting a true and fair view of the net assets, financial position and results of operations of the Company. Measurement was performed assuming the Company would continue as a going concern.

The measurement methods that were previously used were also used in financial year 2018.

The precautionary principle was satisfied in that only profits that had been realised as of the balance sheet date were reported and all identifiable risks and impending losses were recorded in the balance sheet.

Figures are generally shown in thousands of euros (EUR '000). Figures from the previous year are indicated as such or shown in parentheses.

Intangible assets were reported at cost less amortisation based on a useful life of three to ten years.

Land is measured at cost, buildings at cost less depreciation and any write-downs. As a rule, repair costs for residential buildings are spread over 15 years starting as of 2016.

Equities and other non-fixed interest securities and shares in affiliated companies are valued according to the strict lower-of-cost-or-market principle (*strenges Niederstwertprinzip*).

Bonds, other fixed-income securities and participations are valued using the less strict lower-of-cost-or-market principle (gemildertes Niederstwertprinzip) provided for in § 149(1) VAG.

Valuation using the less strict lower-of-cost-or-market principle resulted in write-downs of EUR 1,116,000 (EUR 35,000) not being performed.

The Company takes into account the overall risk position of the Company and the investment strategy provided for this purpose when making investments in fixed-interest securities, real estate, participations and shares. The risk inherent in the specified categories and the market were taken into account when determining exposure volumes and limits.

The investment strategy is laid down in the form of investment guidelines that are continuously monitored for compliance by the corporate risk controlling and internal audit departments. The corporate risk controlling department reports regularly to the tactical and strategic investment committee. The internal audit department reports regularly to the Managing Board.

As a rule, investments are generally low-risk. The strategic investment committee decides on potential high-risk investments based on the inherent risk of each individual investment after performing a full analysis of all related risks and liquidity at risk, and considering all assets currently in the portfolio and the effects of the individual investments on the overall risk position. All known financial risks are assessed regularly and specific limits or reserves are used to limit exposure. Security price risk is reviewed periodically using value-at-risk and stress tests. Default risk is measured using both internal and external rating systems.

An important goal of investment and liquidity planning is to maintain adequate amounts of liquid, value-protected financial investments. Liquidity planning therefore takes into account the trend in insurance benefits and the majority of investment income is generally reinvested.

Six forward exchange transactions in the CZK and PLN currencies with terms limited to 23 May 2019 existed as of the 31 December 2018 balance sheet date. The transactions are being used to hedge future dividends in foreign currency. Since the market value of the forward exchange transactions in the currency CZK was negative as of the reporting date, a provision for expected losses was formed in the amount of EUR 451,000 (EUR 0). The forward exchange transactions in the currency PLN had a positive market value of EUR 3,000 as of the reporting date, a provision for expected losses was formed in the previous year in the amount of EUR 122,000.

Amounts denominated in foreign currencies are translated to euros using the appropriate mean rate of exchange.

As a rule, mortgage receivables and other loans, including those to affiliated companies and companies in which a participation is held, are measured at the nominal value of the outstanding receivables. Discounts deducted from loan principal are spread over the term of the loan and shown under deferred income.

Specific valuation allowances of adequate size are formed for doubtful receivables and deducted from their nominal values.

Tangible assets (not including land and buildings) are measured at cost less accumulated depreciation. Lowcost assets are fully written off in the year of purchase.

In the other assets balance sheet item, the hybrid capital bond was called effective 12 September 2018 for early repayment at its redemption amount of 100% of nominal value plus all accrued interest up to (but not including) the repayment date.

Unearned premiums were essentially calculated by prorating over time after applying a deduction for expenses (15%) of EUR 1,227,000 (EUR 1,250,000).

The provision for outstanding claims for direct business is calculated for claims reported by the balance sheet date by individually assessing claims that have not yet been settled and adding lump-sum safety margins for large unexpected losses. Lump-sum provisions based on past experience are formed for claims incurred but not reported. Recourse claims of EUR 8,250,000 (EUR 9,471,000) were included.

In indirect business, provisions for outstanding claims are primarily based on reports from ceding companies as of the 31 December 2018 balance sheet date. The reported amounts were increased where this was considered necessary in light of past experience.

The underwriting items for assumed reinsurance business and associated retrocessions are included immediately in the annual financial statements.

The equalisation provision is calculated in accordance with the directive of the Austrian Federal Minister of Finance, BGBI. (Federal Gazette) No. 315/2015.

The provisions for severance pay, pensions, and anniversary bonuses are based on the pension insurance calculation principles of the Actuarial Association of Austria (AVÖ), AVÖ 2018-P (Employees), assuming a wage growth rate of 2.00% (2.00%) and a discount rate of 1.66% (2.09%) p.a. for the severance provision, 2.42% (2.88%) for the pension provision and 1.85% (2.34%) for the anniversary bonus provision. The discount rate used was based on the 7-year average interest rate as published by the German Bundesbank. The severance pay, pension and anniversary bonus obligations were valued using the projected unit credit method. The retirement age used to calculate the provisions for anniversary bonuses and severance pay is the statutory minimum retirement age as stipulated in the Austrian General Social Security Act (ASVG) (2004 reform), subject to a maximum age of 62 years. The retirement age used to calculate the provision for pensions is based on each individual agreement, or the statutory minimum retirement age as stipulated in the Austrian General Social Security Act (ASVG) (2004 reform). The following percentages were used for employee turnover based on age: <31 4.0%, 31-35 2.0%, 36-40 2.0%, 41-50 1.5%, 51-55 0.5% and 56-65 0%. The severance entitlement used to calculate the provision for severance obligations is based on each individual agreement or on the collective agreement. The following percentages were used for employee turnover based on age: <30 5.5 %, 30-39 2.0 %, 40-50 1.5 %, 51-59 1.0 % and 60-65 0.5 %.

The difference of EUR 2,388,000 due to the changeover in calculation principles was covered in full in financial year 2018.

EUR 3,136,000 (EUR 2,622,000) in provisions have been formed for direct pension obligations. A portion of the direct benefits equal to EUR 244,000 (EUR 241,000) will be administered as an occupational group insurance plan after an insurance contract has been concluded in accordance with \$\$ 93-98 VAG, so that the provision will equal the overall obligation less the outsourced plan assets.

The severance pay provision required under Austrian commercial law for 2018 was EUR 2,418,000 (EUR 4,124,000). The amount earmarked for satisfying the outsourced severance pay obligations that was held by the outside insurance company was EUR 1,627,000 (EUR 2,825,000).

The difference of EUR 792,000 (EUR 1,299,000) between the size of the severance pay provisions to be formed under Austrian commercial law and the deposit held by the outside insurance company is reported under provisions for severance pay in the balance sheet.

II. NOTES TO THE BALANCE SHEET

| changed as follows: | Intangible assets | Land and buildings | Shares in affiliated companies | Bonds and other securities of affiliated companies and loans to affiliated companies | Participations |
|------------------------|-------------------|--------------------|--------------------------------|---|----------------|
| in EUR '000 | | | | | |
| As of 31 December 2017 | 22,902 | 115,330 | 4,085,910 | 436,330 | 348 |
| Additions | 4,637 | 8,900 | 284,859 | 91,524 | 23,868 |
| Disposals | 0 | 8,731 | 68,577 | 500 | 0 |
| Appreciation | 0 | 0 | 126,932 | 0 | 0 |
| Depreciation | 5,298 | 4,682 | 112,150 | 20,150 | 0 |
| As of 31 December 2018 | 22,241 | 110,817 | 4,316,974 | 507,204 | 24,216 |

The book values of intangible assets, land and buildings, investments in affiliated companies and ownership interests have changed as follows:

The following companies were merged in financial year 2018: POLISA-ZYCIE TU S.A. VIG into Compensa TU na Zycie SA VIG; Poist'ovna Slovenskej sporitel'ne a.s. VIG into KOOPERATIVA poist'ovna a.s. VIG; Pojist'ovna Ceske sporitelny, a.s. VIG into Kooperativa pojist'ovna a.s. VIG; COMPENSA HIdg. GmbH into LVP Holding GmbH; Erste osiguranje VIG d.d. into Wiener Osiguranje VIG d.d. za osiguranje and Vienna Life VIG Biztosito Zrt., and Erste VIG Biztosito Zrt. into UNION VIG Biztosito Zrt. The book values of the absorbed companies were transferred to the book values of the absorbing companies.

Wiener Städtische Versicherung AG Vienna Insurance Group spun off a 70.26 % interest in DONAU Versicherung AG Vienna Insurance Group to VIG Holding in financial year 2018. This led to an addition of EUR 159,281,000 and an offsetting disposal of EUR 68,577,000. Under Austrian commercial law, the resulting profit of EUR 90,704,000 must be reported as a one-time item before calculating the profit for the period.

The additions to "participations" are due to a reclassification of the shares in CEESEG Aktiengesellschaft, which were previously reported under securities.

Intangible assets with a value of EUR 2,826,000 (EUR 188,000) were acquired from affiliated companies during the financial year.

The value of developed and undeveloped properties was EUR 29,895,000 (EUR 36,464,000) as of 31 December 2018. The carrying amount of self-used property was EUR 19,897,000 (EUR 19,966,000).

The investments have the following carrying amounts and fair values:

| Items under § 144 Abs. 2 VAG | Book value | Fair value | Book value | Fair value |

| Shares in affiliated companies | 4,316,974 | 9,477,956 | 4,085,910 | 9,233,351 |
| Bonds and other securities of affiliated companies and loans to affiliated companies | 507,204 | 583,316 | 436,330 | 478,575 |
| Participations | 24,216 | 28,247 | 348 | 348 |
| Shares and other non-fixed-interest securities | 119,967 | 119,967 | 291,804 | 303,915 |
| Bonds and other fixed-interest securities | 71,371 | 76,576 | 71,618 | 77,959 |
| Mortgage receivables | 2,322 | 2,956 | 2,422 | 3,155 |
| Other loans | 892 | 855 | 3,881 | 3,762 |
| Deposits receivables | 1,116,045 | 1,116,045 | 1,036,294 | 1,036,294 |
| Total | 6,269,808 | 11,901,493 | 6,043,937 | 11,618,454 |

Hidden reserves rose by EUR 57,168,000 to a total of EUR 5,631,685,000 (EUR 5,574,517,000).

The fair values of land and buildings were determined in accordance with the recommendations of the Austrian Association of Insurance Companies. The values are based on appraisal reports.

The fair values of shares in affiliated companies and shares in companies in which a participation is held correspond to available market values. If no such value exists, the purchase price is used as the fair value, if necessary reduced by any write-downs, or a proportionate share of the publicly reported equity capital, whichever is greater.

To test for impairment, the individual book values are first compared with the fair value or a proportionate share of the equity capital of the affiliated company. The fair values for shares in domestic affiliated insurance companies are based on external appraisal reports obtained before 2018. Internal valuations are performed for shares in foreign affiliated insurance companies.

Stock exchange values were used for the fair value of shares and other non-fixed interest securities, and of bonds and other fixed interest securities (including those from affiliated companies), or in the case of structured securities, fair values were determined using the purchased LPA software.

The remaining investments were valued at their nominal values, reduced by write-downs where necessary.

Recognised mathematical models (discounted cash flows) were used to calculate the market values of mortgage loans and other loans.

The other loans not secured by insurance contracts are loans of EUR 885,000 (EUR 871,000) to the Republic of Austria and loans of EUR 7,000 (EUR 3,010,000) to other borrowers. The other loans do not include any loans (EUR 3,000,000) with remaining terms of up to one year. The subordinated liabilities balance sheet item consists of the bonds listed in the table below, which were issued in the form of securities.

| Name | 2018 | 2017 |
|--|-----------|-----------|
| in EUR '000 | | |
| Hybrid bond 2008 | 0 | 500,000 |
| Supplementary capital bond 2013 - 2043 | 500,000 | 500,000 |
| Supplementary capital bond 2015 - 2046 | 400,000 | 400,000 |
| Supplementary capital bond 2017 - 2047 | 200,000 | 200,000 |
| Total | 1,100,000 | 1,600,000 |

The following balance sheet items are attributable to affiliated companies and companies in which a participation is held:

| | Affi | liated companies | Companies in which | an ownership interest is held |
|--|-----------|------------------|--------------------|----------------------------------|
| in EUR '000 | 2018 | 2017 | 2018 | 2017 |
| Mortgage receivables | 2,322 | 2,422 | 0 | 0 |
| Deposits receivables | 1,116,045 | 1,036,294 | 0 | 0 |
| Receivables from direct insurance business | 16,142 | 7,796 | 0 | 0 |
| Receivables from reinsurance business | 7,607 | 20,290 | 0 | 0 |
| Other receivables | 124,703 | 120,323 | 0 | 0 |
| Liabilities from direct insurance business | 620 | 201 | 0 | 0 |
| Liabilities from reinsurance business | 23,192 | 2,952 | 0 | 0 |
| Other liabilities | 436,727 | 429,831 | 0 | 0 |

The change in the personnel provision was recognised in personnel expenses. The interest expenses for personnel provisions of EUR 5,043,000 (EUR 5,184,000) are reported under investment and interest expenses.

The other provisions of EUR 143,829,000 (EUR 136,152,000) mainly consist of IT provisions of EUR 120,503,000 (EUR 125,788,000), provisions for unused vacation time of EUR 1,773,000 (EUR 1,897,000), provisions for customer support and marketing of EUR 822,000 (EUR 720,000) and provisions for anniversary bonuses of EUR 813,000 (EUR 634,000).

The amount shown under other liabilities includes EUR 1,052,000 (EUR 6,000) in tax liabilities and EUR 391,000 (EUR 338,000) in social security liabilities.

The following disclosures are provided for off-balance sheet contingent liabilities: Letters of comfort and liability undertakings totalling EUR 44,103,000 (EUR 44,103,000) have been issued for affiliated companies in connection with borrowing.

Liabilities arising from the use of off-balance sheet tangible assets were EUR 1,908,000 (EUR 2,201,000) for the following financial year and EUR 10,129,000 (EUR 11,687,000) for the following five years.

III. NOTES TO THE INCOME STATEMENT

Premiums written, net earned premiums, expenses for insurance claims and benefits, administrative expenses and reinsurance balance had the following breakdown for property and casualty insurance in 2018:

| | | | Expenses for claims and | | |
|---|------------------|------------|----------------------------|----------------|-------------|
| | | Net earned | insurance | Administrative | Reinsurance |
| Gross | Premiums written | premiums | benefits | expenses | balance |
| in EUR '000 | | | | | |
| Direct business | | | | | |
| Fire and fire business interruption insurance | 70,482 | 69,522 | 45,273 | 10,307 | -8,030 |
| Liability insurance | 1,379 | 1,409 | -555 | 209 | -1,361 |
| Marine, aviation and transport insurance | 982 | 988 | 1,039 | 296 | -29 |
| Other non-life insurance | 12,210 | 13,266 | 15,332 | 1,587 | 3,028 |
| Total direct business | 85,053 | 85,185 | 61,089 | 12,399 | -6,392 |
| (Previous year values) | 84,112 | 84,517 | 81,423 | 11,471 | 12,318 |
| Indirect business | | | | | |
| Marine, aviation and transport insurance | 198 | 198 | 211 | 52 | 65 |
| Other insurance | 1,082,026 | 1,071,918 | 727,551 | 335,765 | -2,220 |
| Total indirect business | 1,082,224 | 1,072,116 | 727,762 | 335,817 | -2,155 |
| (Previous year values) | 926,386 | 912,629 | 598,170 | 301,103 | 7,265 |
| Total direct and indirect business | 1,167,277 | 1,157,301 | 788,851 | 348,216 | -8,547 |
| (Previous year values) | 1,010,498 | 997,146 | 679,593 | 312,574 | 19,583 |

The reinsurance balance is composed of net earned reinsurance premiums, effective reinsurance claims and reinsurance commissions.

The run-off result for property and casualty insurance was EUR 18,848,000 (EUR 19,126,000) for financial year 2018.

The result from indirect business was EUR 21,561,000 (EUR 22,703,000). The net earned premiums of EUR 1,072,116,000 (EUR 912,629,000) from indirect business were included immediately in the income statement.

Of the income from participations, land and buildings and other investments shown in the income statement, affiliated companies accounted for the following amounts:

| | 2018 | 2017 |
|--------------------------------|---------|---------|
| in EUR '000 | | |
| Income from participations | 296,913 | 285,319 |
| Income from other investments | 21,230 | 19,286 |
| Income from land and buildings | 1,107 | 1,204 |

The funds in the portfolio distributed EUR 3,761,000 (EUR 6,530,000) during the financial year.

The deposit interest income for indirect business was transferred to the underwriting account.

Losses on disposals of investments were EUR 535,000 (EUR 3,577,000) in financial year 2018.

The expenses for insurance claims and benefits, administrative expenses, other underwriting expenses and investment expenses include:

| | 2018 | 2017 |
|---|--------|--------|
| in EUR '000 | | |
| Wages and salaries | 23,678 | 20,566 |
| Expenses for severance benefits and payments to company pension plans | -35 | -217 |
| Expenses for retirement provisions | 3,430 | 451 |
| Expenses for statutory social contributions and income-related contribution and mandatory contributions | 4,365 | 4,140 |
| Other social security expenses | 219 | 229 |

Commissions of EUR 9,582,000 (EUR 9,273,000) were incurred for direct business in financial year 2018.

A summary of auditing fees is provided in the notes to the consolidated financial statements of VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe, Vienna.

Deferred profit taxes of EUR 4,387,000 (EUR 3,563,000) were recognised due to temporary differences between earnings under commercial law and taxable earnings. A tax rate of 22.5% was chosen for deferred taxes based on the provisions of the tax allocation agreement with the parent company.

Deferred taxes

| in EUR '000 | 31.12.2018 | 31.12.2017 |

V. OTHER DISCLOSURES

The Company has total share capital of EUR 132,887,468.20. It is divided into 128,000,000 no-par value bearer shares with voting rights, each share representing an equal portion of share capital. The number of shares issued remains unchanged since the previous financial year.

The Managing Board is not aware of any restrictions on voting rights or the transfer of shares.

Wiener Städtische Versicherungsverein holds (directly or indirectly) approximately 70 % of the share capital.

No shares have special rights of control. See the following paragraph for information on the rights of the shareholder Wiener Städtische Versicherungsverein.

The Managing Board must have at least three and no more than seven members. The Supervisory Board has between three and ten members (shareholder representatives). The shareholder Wiener Städtische Versicherungsverein has the right to appoint up to one third of the members of the Supervisory Board if, and so long as, it holds 50 % or less of the Company's voting shares. General meeting resolutions are adopted by a simple majority, unless a different majority is required by law or the articles of association.

Employees who hold shares exercise their voting rights without a proxy during general meetings.

The Managing Board is authorised to increase the Company's share capital by a nominal amount of EUR 66,443,734.10 by issuing 64,000,000 no-par value bearer or registered shares in one or more tranches on or before 11 May 2022 against cash or in-kind contributions. The terms of the shares, the exclusion of shareholder preemption rights, and other terms and conditions of the share issue are decided by the Managing Board, subject to Supervisory Board approval. Preferred shares without voting rights may also be issued, with rights equivalent to those of existing preferred shares. The issue prices of common and preferred shares may differ.

The general meeting of 12 May 2017 authorised the Managing Board to issue, subject to Supervisory Board approval, one or more tranches of bearer convertible bonds with a total nominal value of up to EUR 2,000,000,000.00 on or before 11 May 2022, with or without exclusion of shareholder pre-emptive rights, and to grant the holders of convertible bonds conversion rights for up to 30,000,000 no-par value bearer shares with voting rights in accordance with the convertible bond terms set by the Managing Board. The share capital has consequently been raised in accordance with § 159(2) no. 1 of the Austrian Stock Corporation Act (AktG) by a contingent capital increase of up to EUR 31,145,500.36, through the issue of up to 30,000,000 no-par value bearer shares with voting rights. The contingent capital increase will only be implemented to the extent that holders of convertible bonds issued on the basis of the general meeting resolution of 12 May 2017 exercise the subscription or exchange rights they were granted.

The Managing Board has not adopted any resolutions to date concerning the issuance of convertible bonds based on the authorisation granted on 12 May 2017.

The general meeting of 12 May 2017 further authorised the Managing Board to issue, subject to Supervisory Board approval, one or more tranches of bearer income bonds with a total nominal value of up to EUR 2,000,000,000.00 on or before 11 May 2022, with or without exclusion of shareholder pre-emptive rights. The Managing Board has not adopted any resolutions to date regarding the issuance of income bonds based on this authorisation.

The General Meeting of 12 May 2017 authorised the Managing Board to acquire the Company's own no-par value bearer shares in accordance with § 65(1) no. 4 and 8 and (1a) and (1b) AktG to the maximum extent permissible by law during a period of 30 months following the date the General Meeting resolution was adopted.

The amount paid upon repurchase of the Company's own shares may not be more than a maximum of 50% below, or more than a maximum of 10% above, the average unweighted stock exchange closing price on the ten stock exchange trading days preceding the repurchase. The Managing Board may choose to make the purchase on the stock exchange, through a public offer or in any other legally permissible and expedient manner. The General Meeting of 12 May 2017 also authorised the Managing Board to use own shares

- a. for issuing shares to employees and senior management of the Company or to employees, senior management and managing board members of companies affiliated with the Company;
- for servicing convertible bonds issued based on the resolution adopted by the General Meeting of 12 May 2017;
- c. for sales in accordance with § 65(1b) AktG on the stock market or through a public offer. The Managing Board is also authorised for a period of at most five years after adoption of the resolution to dispose of the acquired own shares in some other way without or with partial or full exclusion of shareholder pre-emptive rights. The written report on the reasons for exclusion of shareholder pre-emptive rights was submitted to the General Meeting.

The Managing Board has not made use of this authorisation to date. The Company held no own shares as of 31 December 2018.

As of the balance sheet date, the Company was not party to any material agreements that would come into effect, change or terminate if control of the Company were to change due to a takeover bid, in particular, no agreements that would affect participations held in insurance companies. Existing agreements that would come into effect if control of the Company were to change due to a takeover bid relate to participations held in other (non-insurance) companies.

No compensation agreements exist between the Company and its Managing Board members, Supervisory Board members or employees for the case of a public takeover bid. On 9 October 2013 the Company issued a subordinated bond with a nominal value of EUR 500,000,000.00 and a maturity of 30 years. The Company can call the bond in full for the first time on 9 October 2023 and on each following coupon date.

The subordinated bond bears interest at a fixed rate of 5.5% p.a. during the first ten years of its term and variable interest after that. The subordinate bond satisfies the tier 2 requirements of Solvency II. The bonds are traded on the Vienna Stock Exchange.

On 2 March 2015 the Company issued a subordinated bond with a nominal value of EUR 400,000,000.00 and a maturity of 31 years. The Company can call the bond in full for the first time on 2 March 2026 and on each following coupon date.

The subordinated bond bears interest at a fixed rate of 3.75% p.a. during the first eleven years of its term and variable interest after that. The subordinate bond satisfies the tier 2 requirements of Solvency II. The bond is listed on the Luxembourg Stock Exchange.

A EUR 200,000,000.00 subordinated bond with a term of 30 years was privately placed with international institutional investors on 6 April 2017. The subordinated bond can be called for the first time after 10 years by VIG and satisfies the tier 2 requirements of Solvency II. Inclusion for trading in the Third Market of the Vienna Stock Exchange will take place on 13 April 2017. The interest rate is 3.75% p.a. until 13 April 2027, after which the bond pays variable interest.

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe called the hybrid capital bond with ISIN AT0000A09SA8 effective 12 September 2018 for early repayment at its redemption amount of 100 % of nominal value plus all accrued interest up to (but not including) the repayment date.

All approvals were granted by the Austrian Financial Market Authority.

Erste Group Bank AG, Am Belvedere 1, 1100 Vienna, acted as the paying agent.

The Supervisory Board had the following members in financial year 2018:

Chair: Günter Geyer

1st Deputy Chair: Rudolf Ertl

2nd Deputy Chair:

Maria Kubitschek

Members:

Bernhard Backovsky Martina Dobringer Gerhard Fabisch Heinz Öhler Georg Riedl Gabriele Semmelrock-Werzer Gertrude Tumpel-Gugerell

THE MANAGING BOARD HAS THE FOLLOWING MEMBERS:

Chair:

Elisabeth Stadler

Members:

Franz Fuchs Judit Havasi Liane Hirner (since 1 February 2018) (CFO since 1 July 2018) Peter Höfinger Martin Simhandl (until 30 June 2018) Peter Thirring (since 1 July 2018)

Substitute members of the Managing Board:

Gábor Lehel Gerhard Lahner (since 1 January 2019) The average number of employees was 251 (231). These employees were employed in the insurance business and resulted in personnel expenses of EUR 31,657,000 (EUR 25,170,000).

There were no loans outstanding to members of the Managing Board or members of the Supervisory Board as of 31 December 2018 (EUR 0).

No guarantees were outstanding for members of the Managing Board or Supervisory Board as of 31 December 2018.

In 2018, the total expenses for severance pay and pensions of EUR 3,395,000 (EUR 234,000) included severance pay and pension expenses of EUR 2,380,000 (EUR 1,046,000) for members of the Managing Board and senior management in accordance with § 80(1) of the Austrian Stock Corporation Act (AktG).

The Managing Board manages the Company and is also responsible for management of the Group. In some cases, responsibility is also assumed for additional duties in affiliated or related companies.

The members of the Managing Board received EUR 5,031,000 (EUR 4,511,000) from the Company during the reporting period for their services. Members of the Managing Board are provided a company car for both business and personal use.

The members of the Managing Board received EUR 278,000 (EUR 115,000) from affiliated companies for their operational services for the Company, or as a manager or employee of an affiliated company.

Former members of the Managing Board received EUR 1,650,000 (EUR 719,000). Former members of the Managing Board received EUR 1,005,000 (EUR 659,000) from affiliated companies for their services to the Company, or as a manager or employee of an affiliated company during the reporting period; this compensation was paid in full by affiliated companies. The members of the Supervisory Board received EUR 461,000 (EUR 494,000) in remuneration for their services to the Company in 2018.

The Company is a group member within the meaning of § 9 of the Austrian Corporate Income Tax Act (KStG) of the Wiener Städtische Versicherungsverein, Vienna, group of companies.

The taxable earnings of group members are attributed to the parent company.

The parent company has entered into agreements with each group member governing the allocation of positive and negative tax amounts for the purpose of allocating corporate income tax charges according to origin.

If positive income is attributed to the parent company, the tax allocation equals 25% of the positive income. If negative income is attributed to the parent company, the negative tax allocation equals 22.5% of the current tax loss.

A receivable of EUR 100,963,000 (EUR 81,211,000) is owed by the parent company.

VI. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

Vienna Insurance Group completes acquisition of Gothaer TU in Poland

Vienna Insurance Group (VIG) acquires 100 percent of the shares of Gothaer Towarzystwo Ubezpieczeń (Gothaer TU). The transaction was closed on 28th February 2019 following approval by the local authorities. The company generated a solid premium volume of around EUR 170 million in 2018.

The Company is included in the consolidated financial statements prepared by Wiener Stadtische Versicherungsverein, which has its registered office in Vienna. The consolidated financial statements have been disclosed and are available for inspection at the business premises of this company located at Schottenring 30, 1010 Vienna.

PROPOSED APPROPRIATION OF PROFITS

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe (VIG Holding) ended financial year 2018 with net retained profits of EUR 233,117,387.05. The following appropriation of profits will be proposed in the Annual General Meeting:

The 128 million shares will receive a dividend of EUR 1.00 per share. The payment date for this dividend will be 29 May 2019, the record date 28 May 2019, and the ex-dividend date 27 May 2019.

A total of EUR 128,000,000.00 will therefore be distributed. The net retained profits of EUR 105,117,387.05 remaining for financial year 2018 after distribution of the dividend is to be carried forward.

Auditor's Report

REPORT ON THE ANNUAL FINANCIAL STATEMENTS

Audit opinion

We have audited the financial statements of

VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe,Vienna, Austria,

which comprise the Balance Sheet as of 31 December 2018, the Income Statement for the year then ended, and the Notes.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2018 and its financial performance for the year then ended, in accordance with Austrian Generally Accepted Accounting Principles and other legal or regulatory requirements for insurance companies.

Basis for our Opinion

We conducted our audit in accordance with Regulation (EU) 537/2014 ("AP Regulation") and Austrian Standards on Auditing. These standards require the audit to be conducted in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the "Auditor's Responsibilities" section of our report. We are independent of the Company, in accordance with Austrian company law and professional regulations, and we have fulfilled our other responsibilities under those relevant ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements.

These matters were addressed in the context of our audit of the financial statements as a whole, however, we do not provide a separate opinion thereon.

Recoverability of investments in affiliated companies

Refer to notes chapter "I. Summary of significant accounting policies", "II. Notes to the balance sheet" and "IV. Significant participations.

Risk for the Financial Statements

Investments in affiliated insurance companies represent a significant part of Vienna Insurance Group AG assets.

In previous years certain investments in affiliated insurance companies were written down due to sustained impairments. For the financial year it has to be verified whether any changes in market, economic or legal conditions require a reversal of impairments or additional write downs.

An assessment of the recoverability is performed on an ad hoc basis. The impairment test of investments in affiliated insurance companies is complex and based on discretionary factors. Those factors include in particular the expected future cash flows of the subsidiary, which are primarily based on past experience as well as on the management's assessment of the expected market environment. Other factors are the assumed long-term growth rate as well as the underlying region-specific costs of capital.

Our Response

In cooperation with our valuation experts, we have assessed the appropriateness of key assumptions, of discretionary decisions and of the valuation method applied for investments in affiliated insurance companies. We have reconciled the expected future cash flows used in the calculation with the strategic business planning approved by the management.

We have reconciled the assumptions regarding the market development with general and sector-specific market expectations. We have analyzed the consistency of planning data using information from prior periods. Given that minor changes in the applied costs of capital rate significantly impact the determined fair value, we have compared the parameters used for derivation of the applied costs of capital with those used by a group of comparable companies (Peer-Group).

Responsibilities of Management and the Audit Committee for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Austrian Generally Accepted Accounting Principles and other legal or regulatory requirements for insurance companies and for such internal controls as management determines are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The audit committee is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement – whether due to fraud or error – and to issue an auditor's report that includes our audit opinion.

Reasonable assurance represents a high level of assurance, but provides no guarantee that an audit conducted

in accordance with the AP Regulation and Austrian Standards on Auditing (and therefore ISAs), will always detect a material misstatement, if any. Misstatements may result from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with AP Regulation and Austrian Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

Moreover:

- We identify and assess the risks of material misstatements in the financial statements, whether due to fraud or error, we design and perform audit procedures responsive to those risks and obtain sufficient and appropriate audit evidence to serve as a basis for our audit opinion. The risk of not detecting material misstatements resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misprepresentations or the override of internal control.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- We conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the respective note in the financial statements. If such disclosures are not appropriate, we will modify our audit opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- We evaluate the overall presentation, structure and content of the financial statements, including the notes, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with the audit committee regarding, amongst other matters, the planned scope and timing of our audit as well as significant findings, including any significant deficiencies in internal control that we identify during our audit.
- We communicate to the audit committee that we have complied with the relevant professional requirements in respect of our independence, that we will report any relationships and other events that could reasonably affect our independence and, where appropriate, the related safeguards.

- From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit i.e. key audit matters. We describe these key audit matters in our auditor's report unless laws or other legal regulations preclude public disclosure about the matter or when in very rare cases, we determine that a matter should not be included in our audit report because the negative consequences of doing so would reasonably be expected to outweigh the public benefits of such communication.

REPORT ON OTHER LEGAL REQUIREMENTS

Management report

In accordance with Austrian company law, the management report is to be audited as to whether it is consistent with the financial statements and prepared in accordance with legal requirements.

Management is responsible for the preparation of the management report in accordance with Austrian company law and other legal or regulatory requirements for insurance companies.

We have conducted our audit in accordance with generally accepted standards on the audit of management reports as applied in Austria.

OPINION

In our opinion, the management report is consistent with the financial statements and has been prepared in accordance with legal requirements. The disclosures pursuant to Section 243a UGB (Austrian Commercial Code) are appropriate.

STATEMENT

Based on our knowledge gained in the course of the audit of the financial statements and our understanding of the Company and its environment, we did not note any material misstatements in the management report.

Other Information

Management is responsible for other information. Other information is all information provided in the annual report, other than the financial statements, the management report and the auditor's report. Our opinion on the financial statements does not cover other information and we do not provide any kind of assurance thereon.

In conjunction with our audit, it is our responsibility to read this other information and to assess whether, based on knowledge gained during our audit, it contains any material inconsistencies with the financial statements or any apparent material misstatement of fact. If we conclude that there is a material misstatement of fact in other information, we must report that fact. We have nothing to report in this regard.

Additional Information in accordance with Article 10 EU Regulation

At the Annual General Meeting dated 12 May 2017, we were elected as auditors. We were appointed by the supervisory board on 22 May 2017.

We have been the Company's auditors from the year ended 31 December 2013 without interruption.

We declare that our opinion expressed in the "Report on the Financial Statements" section of our report is consistent with our additional report to the audit committee, in accordance with Article 11 AP Regulation.

We declare that we have not provided any prohibited nonaudit services (Article 5 Paragraph 1 AP Regulation) and that we have ensured our independence throughout the course of the audit, from the audited Company.

Engagement Partner

The engagement partner is Mr Michael Schlenk.

Peter Thirring Member of the Managing Board

Supervisory Board report

The Supervisory Board and its committees, Chair and Deputy Chairs periodically and repeatedly monitored in detail the management of the Company and the activities of the Managing Board in connection with its management and monitoring of the Group. Detailed presentations and discussions during meetings of the Supervisory Board and its committees were used for this purpose, as were thorough and, in some cases, in-depth discussions with the members of the Managing Board, who provided detailed explanations and supporting documentation relating to the management and financial position of the Company and the Group. Among other things, strategy, business development (overall and in individual regions), risk management, the internal control system, internal audit activities and reinsurance, both at the VIG Holding and Group levels, and other important topics for the Company and Group were discussed at these meetings.

In accordance with the Solvency II requirements, starting in 2016 non-financial aspects must be part of the performance expectations for variable remuneration of members of the Managing Board. VIG is committed to social responsibility and the importance of having employees drive forward performance, innovation and expertise. Goal fulfilment for Managing Board members also depended on both financial and non-financial criteria in financial year 2018.

The Supervisory Board has formed five committees from its members. Information on the responsibilities and composition of these committees is available on the Company's website and in the 2018 consolidated corporate governance report.

One regular general meeting and four Supervisory Board meetings distributed across the financial year were held in 2018. Four meetings of the Audit Committee (Accounts Committee) were also held. The financial statement and consolidated financial statement auditor, KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft, company number FN 269873y (KPMG), attended three Audit Committee meetings and the Supervisory Board meeting in 2018 that dealt with the audit of the 2017 annual financial statements and 2017 consolidated financial statements and formal approval of the 2017 annual financial statements, and also attended the Annual General Meeting. The financial statement auditor and consolidated financial statement auditor also informed the Audit Committee about the planning and procedure used to audit the financial statements and consolidated financial statements. The Committee for Urgent Matters (Working Committee) was contacted once in writing in 2018. Two meetings of the Committee for Managing Board Matters (Human Resources Committee) were held in 2018. The Nomination Committee and Strategy Committee did not meet in 2018. Strategic matters were handled by the Supervisory Board as a whole.

The 2018 consolidated corporate governance report presents detailed information on the principles underlying the remuneration system, and we refer to this information in the 2018 consolidated corporate governance report.

No agenda items were discussed in Supervisory Board meetings in 2018 without the participation of members of the Managing Board.

No member of the Supervisory Board attended fewer than half of the Supervisory Board meetings. In order to ensure the effectiveness and efficiency of its activities and procedures, the Supervisory Board performed a self-evaluation of its procedures. The Supervisory Board's evaluation of its activities found that its organisational structure and procedures were satisfactory in terms of efficiency and in compliance with the law. It found no need for change or desire for change in the practices followed to date. Acting upon the proposal and motion of the Supervisory Board, the general meeting selected KPMG on 12 May 2017 to be the financial statements auditor and consolidated financial statements auditor for financial year 2018, and KPMG consequently performed these duties in financial year 2018.

The Supervisory Board Audit Committee mainly dealt with the following topics in 2018: During one meeting of the Audit Committee, the members of the committee consulted with the (consolidated) financial statements auditor on specification of two-way communications.

By inspecting relevant documents, meeting with the Managing Board and discussions with the (consolidated) financial statements auditor, the Audit Committee was able to monitor the accounting process and the procedure used for auditing the financial statements and consolidated financial statements, and found no reasons for objection or any need to make recommendations to ensure reliability of the accounting process.

The Supervisory Board Audit Committee also reviewed and monitored independence of the auditor of the financial statements and consolidated financial statements, and after reviewing suitable documents and supporting records submitted to the Committee, particularly with respect to the appropriateness of the fee and the additional services provided to the Company, was satisfied of the auditor's independence status. The Audit Committee also dealt with permitted non-audit services.

The Audit Committee also monitored the effectiveness of the internal control system, internal audit and the risk management system by obtaining descriptions of the processes and organisation of these systems from the Managing Board, the (consolidated) financial statements auditor and the individuals directly responsible for these areas. The Audit Committee reported on these monitoring activities to the Supervisory Board and stated that no deficiencies had been identified. The Supervisory Board was also given the opportunity during Supervisory Board meetings to verify the functional adequacy of the existing control and auditing systems. In addition, the audit plan and the quarterly reports prepared by the internal audit department were debated by the Audit Committee and the Supervisory Board and discussed with the head of the internal audit department and the Group internal audit department. The Supervisory Board found no grounds for objection.

The Audit Committee examined the Company's Solvency and Financial Condition Report (SFCR) and reported its findings to the Supervisory Board. The Supervisory Board found no grounds for objection.

The Audit Committee also dealt with the selection of the financial statement and consolidated financial statement auditor for financial year 2019.

It was determined that there were no grounds for exclusion of KPMG or circumstances that would give rise to concerns about impartiality, and that sufficient protective measures had been taken to ensure an independent and impartial audit.

The Audit Committee reported to the Supervisory Board on the findings of these investigations and proposed to the Supervisory Board and subsequently to the general meeting that KPMG be selected as auditor of the financial statements and consolidated financial statements. The General Meeting selected KPMG as auditor of the financial statements and consolidated financial statements for 2019.

The Audit Committee also received the 2018 annual financial statements, management report, 2018 consolidated corporate governance report and 2018 sustainability report (consolidated non-financial report) from the Managing Board, and reviewed and carefully examined them.

The Managing Board's proposal for appropriation of profits was also reviewed with respect to capital adequacy and its effects on the solvency and financial position of the Company during the course of this examination. The Supervisory Board Audit Committee also carefully examined the 2018 consolidated financial statements and Group management report.

In addition, the auditor's reports prepared by (consolidated) financial statements auditor KPMG for the 2018 annual financial statements and management report and the 2018 consolidated financial statements and Group management report were reviewed by the Audit Committee and debated and discussed with KPMG. As a result of this examination and discussion, a unanimous resolution was adopted to recommend to the Supervisory Board that they be accepted without qualification. The Supervisory Board found no reasons for objection.

The (consolidated) financial statements auditor provided the Audit Committee with an additional report in accordance with Art. 11 of the EU Audit Regulation on specific requirements regarding statutory audit of public-interest entities that explained the results of the financial statements audit and consolidated financial statements audit. This report prepared by the financial statement auditor was also provided to the Supervisory Board.

The audit results and all resolutions adopted by the Audit Committee were reported to the Supervisory Board in its next meeting, along with an explanation of how the financial statement audit had contributed to the reliability of the financial reporting and what role the Audit Committee had played.

The 2018 annual financial statements together with the management report and 2018 consolidated corporate governance report, the 2018 consolidated financial statements together with the Group management report, and the Managing Board's proposal for appropriation of profits were subsequently taken up, thoroughly discussed and examined by the Supervisory Board.

The appropriation of profits proposal was checked, in particular, to ensure that it was reasonable when capital requirements were taken into account.

The Supervisory Board also received the 2018 sustainability report (consolidated non-financial report) from the Managing Board, and reviewed and carefully examined it. As a result of this discussion and examination, it found that the 2018 sustainability report (consolidated non-financial report) had been prepared properly and was appropriate.

In addition, the auditor's reports prepared by (consolidated) financial statements auditor KPMG for the 2018 annual financial statements and management report and the 2018 consolidated financial statements and Group management report were reviewed by the Supervisory Board and discussed with KPMG.

KPMG's audit of the 2018 annual financial statements and management report and the 2018 consolidated financial statements and Group management report did not lead to any reservations.

KPMG determined that the annual financial statements comply with statutory requirements and give a true and fair view of the net assets and financial position of the Company as of 31 December 2018, and of the results of operations of the Company for financial year 2018 in accordance with Austrian generally accepted accounting principles.

The management report is consistent with the annual financial statements. The disclosures pursuant to § 243a UGB (Austrian Commercial Code) are appropriate.

KPMG further determined that the consolidated financial statements also comply with statutory requirements and give a true and fair view of the net assets and financial position of the Group as of 31 December 2018, and of the results of operations and cash flows of the Group for financial year 2018 in accordance with IFRS and § 138 VAG (Austrian Insurance Supervision Act) in combination with § 245a UGB.

The Group management report is consistent with the consolidated financial statements. KPMG also reviewed the 2018 sustainability report (consolidated non-financial report) and determined in accordance with § 269 (3) UGB and § 273 UGB that the 2018 sustainability report (consolidated non-financial report) and 2018 consolidated corporate governance report had been prepared. The final results of the review by the entire Supervisory Board also provided no basis for reservations. The Supervisory Board stated that it had nothing to add to the auditor's reports for the financial statements and consolidated financial statements.

After a thorough examination, the Supervisory Board therefore adopted a unanimous resolution to approve the 2018 annual financial statements prepared by the Managing Board, to raise no objections to the management report, 2018 consolidated financial statements and Group management report, 2018 consolidated corporate governance report and 2018 sustainability report (consolidated nonfinancial report) and to declare its agreement with the Managing Board proposal for appropriation of profits.

The 2018 annual financial statements have therefore been approved in accordance with § 96(4) AktG (Austrian Stock Corporation Act).

The Supervisory Board proposes to the general meeting that it approves the Managing Board's proposal for appropriation of profits and formally approves the actions of the Managing Board and Supervisory Board.

Vienna, April 2019

The Supervisory Board:

Günter Geyer (Chair)

¹ Country names in parentheses are added if there is more than one company with the same abbreviated name and it is not clear from the context which one is intended. The context is assumed to be clear, for example, if the name is used in a description of activities taking place within a country.

² Used when referring to VIG Group.

 $^{\scriptscriptstyle 3}$ Used when referring to the individual company.

NOTICE

This annual report includes forward-looking statements based on current assumptions and estimates that were made by the management of VIENNA INSURANCE GROUP AG Wiener Versicherung Gruppe to the best of its knowledge. Disclosures using the words "expected", "target" or similar formulations are an indication of such forward-looking statements. Forecasts related to the future development of the Company are estimates made on the basis of information available as of the date this report went to press. Actual results may differ from the forecasts if the assumptions underlying the forecast prove to be wrong or if unexpectedly large risks occur.

Calculation differences may arise when rounded amounts and percentages are summed automatically.

The annual report was prepared with great care to ensure that all information is complete and accurate. The possibility of rounding, type-setting or printing errors, however, cannot be ruled out completely.

Our goal was to make the Annual Report as easy to read and as clear as possible. For this reason we have not used phrasing such as "he/she", "his/her", etc. It should be understood that the text always refers to women and men equally without discrimination.

WEBSITE - ONLINE REPORT

The annual report is available in German and English on our Internet website (www.vig.com) under Investor Relations and can also be downloaded in both languages as a PDF file.

Service tip Online annual report

The Vienna Insurance Group website provides an online version of the annual report that is optimised for both the Internet and mobile devices. All sections may be downloaded in PDF form. You can also download the most important tables as Excel files. Other features such as links within the report and a comparison with the previous year create transparency and take you directly to the information being sought. The online version of the report also allows you to perform a full-text search quickly and easily. The search results are presented on an overview page, sorted by relevance. The term being searched for is highlighted in colour on this page and on the page in the report.

In case of doubt, the German version is authoritative.

Editorial deadline: 20 March 2019
